The classic
work on the
evaluation of
city form.

What does the city's form actually mean to the people who live there? What can the city planner do to make the city's image more vivid and memorable to the city dweller? To answer these questions, Mr. Lynch, supported by studies of Los Angeles, Boston, and Jersey City, formulates a new criterion—imageability—and shows its potential value as a guide for the building and

rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book.

miscellaneous directory of city and county officers, churches, public and private schools, benevolent, literary and other associations, banks, insurance co's, &c., and a variety of other useful information, also, a complete post office directory of Indiana.

American Lumberman

Catapult Snakebites are well-known medical emergencies

in many parts of the world especially in rural areas. Agricultural workers and children are most affected. The incidence of snakebite mortality is particularly high in South-East Asia. Rational use of snake anti-venom can substantially reduce mortality and morbidity due to snake bites. These guidelines are a revised and updated version of those published in 2011. The geographical coverage

extends from India in the west to DPR Korea and Indonesia in the east Nepal and Bhutan in the north and to Sri Lanka and Indonesia in the south and south-east. Snakes inhabiting the Indonesian islands east of Wallace's line (West Papua and Maluku Islands) are part of the Australasian elapid fauna differing from those west of this line. This publication aims to pass on a digest of available knowledge about all

clinical aspects of snake-bite to medically trained personnel including medical doctors nurses dispensers and community health workers. They aim to provide sufficient practical information to allow medically trained personnel to assess and treat patients with snake-bites at different levels of the health service.

U.S. Industry & Trade Outlook '99

Arcadia Publishing In Five Key Principles of Corporate Performance Management, Bob Paladino shares his decades of experience to provide proven, real-world implementation insights from globally recognized and award-winning organizations. You'll discover what today's Fortune 100 companies are doing right, and how to implement their enterprise techniques and strategies

within your own organization to maximize success. *A Dark Room in Glitter Ball City* UNESCO Publishing While Americans are generally aware of China's ambitions as a global economic and military superpower, few understand just how deeply and assertively that country has already sought to influence American society. As the authors of this volume write,

it is time for a wake-up call. In documenting the extent of Beijing's expanding influence operations inside the United States, they aim to raise awareness of China's efforts to penetrate and sway a range of American institutions: state and local governments, academic institutions, think tanks, media, and businesses. And they highlight other aspects of the propagandistic "discourse

war” waged by the Chinese government and Communist Party leaders that are less expected and more alarming, such as their view of Chinese Americans as members of a worldwide Chinese diaspora that owes undefined allegiance to the so-called Motherland. Featuring ideas and policy proposals from leading China specialists, China's Influence and American

Interests argues that a successful future relationship requires a rebalancing toward greater transparency, reciprocity, and fairness. Throughout, the authors also strongly state the importance of avoiding casting aspersions on Chinese and on Chinese Americans, who constitute a vital portion of American society. But if the United States is to fare well in this increasingly

adversarial relationship with China, Americans must have a far better sense of that country's ambitions and methods than they do now. *Before the Ruins* Charlesbridge Publishing The origin story of the Frisbee soars with unexpected twists and turns. Fred Morrison is credited as the inventor of the Frisbee, but for centuries folks have been flipping for flying discs. Ancient

Greeks flicked discs, and beginning in the 1920s, college kids at Yale University were tossing pie tins. Fred lived in California and had no idea about ancient Greeks or East Coast college kids. His invention quest began in 1932 after tossing a tin popcorn lid around the backyard. For more than twenty years, Fred and his wife, Lu, tried and failed to perfect a flying-disc concept. Eventually

they created what we know today as the Frisbee. Their story is full of good old-fashioned perseverance, success, and fun!

 Henry Holt and Company
 AN INSTANT NEW YORK TIMES BESTSELLER!
 From the # 1

New York Times bestselling author of *Eat Pray Love* and *The Signature of All Things*, a delicious novel of glamour, sex, and adventure, about a young woman discovering that you don't have to be a good girl to be a good person. "A spellbinding novel about love, freedom, and finding your own happiness." - PopSugar
 "Intimate and richly sensual, razzle-dazzle with a hint of danger." -USA

Today "Pairs well with a cocktail...or two." - TheSkimm "Life is both fleeting and dangerous, and there is no point in denying yourself pleasure, or being anything other than what you are." Beloved author Elizabeth Gilbert returns to fiction with a unique love story set in the New York City theater world during the 1940s. Told from the perspective of an older woman as she looks back on

her youth with both pleasure and regret (but mostly pleasure), City of Girls explores themes of female sexuality and promiscuity, as well as the idiosyncrasies of true love. In 1940, nineteen-year-old Vivian Morris has just been kicked out of Vassar College, owing to her lackluster freshman-year performance. Her affluent parents send her to Manhattan to live with her Aunt Peg, who owns a

flamboyant, crumbling midtown theater called the Lily Playhouse. There Vivian is introduced to an entire cosmos of unconventional and charismatic characters, from the fun-chasing showgirls to a sexy male actor, a grand-dame actress, a lady-killer writer, and no-nonsense stage manager. But when Vivian makes a personal mistake that results in professional scandal, it

turns her new world upside down in ways that it will take her years to fully understand. Ultimately, though, it leads her to a new understanding of the kind of life she craves - and the kind of freedom it takes to pursue it. It will also lead to the love of her life, a love that stands out from all the rest. Now eighty-nine years old and telling her story at last, Vivian recalls how the events of those years

altered the course of her life - and the gusto and autonomy with which she approached it. "At some point in a woman's life, she just gets tired of being ashamed all the time," she muses. "After that, she is free to become whoever she truly is." Written with a powerful wisdom about human desire and connection, City of Girls is a love story like no other. HarperCollins Australia
'Witty, silly, and interactive ...
A rollicking read for children and adults alike' - Kirkus Reviews
For the Grown-Ups: OK. Two things you need to know. Firstly, your favourite thing in the whole world is the letter B. And secondly, you're about to sneeze and all the Bs are going to be blown out of the book. So until you can get your favourite letter back, you're about

to sound really, really silly ... And the kids will love it! PRAISE FOR THE BOOKS THAT DRIVE KIDS CRAZY SERIES 'The kids are having a ball (whoops, having fun) and a discussion is born' -- 4 stars, Good Reading 'Funny, clever, deliciously dry ... this book encourages kids to think outside the square, and hopefully, somewhere deep in that unlimited subconscious, understand that what we

see is all about perception. What a powerful thought' -- Kids' Book Review Old In Art School MIT Press This true crime saga—with an eccentric Southern backdrop—introduces the reader to the story of a murder in a crumbling Louisville mansion and the decades of secrets and corruption that live within the old house's walls. On June 18, 2010, police

discover a body buried in the wine cellar of a Victorian mansion in Old Louisville. James Carroll, shot and stabbed the year before, has lain for 7 months in a plastic storage bin—his temporary coffin. Homeowner Jeffrey Mundt and his boyfriend, Joseph Banis, point the finger at each other in what locals dub The Pink Triangle Murder. On the surface, this killing appears to be a crime of passion, a

sordid love tryst gone wrong in a creepy old house. But as author David Dominé sits in on the trials, a deeper story emerges: the struggle between hope for a better future on the one hand and the privilege and power of the status quo on the other. As the court testimony devolves into he-said/he-said contradictions, David draws on the confidences of neighbors, drag queens, and other acquaintances

within the city's vibrant LGBTQ community to piece together the details of the case. While uncovering the many past lives of the mansion itself, he enters a murky underworld of gossip, neighborhood scandal, and intrigue. *Building and Engineering News* John Wiley & Sons "Nuclear weapons, since their conception, have been the subject of secrecy. In the months after the dropping

of the atomic bombs on Hiroshima and Nagasaki, the American scientific establishment, the American government, and the American public all wrestled with what was called the "problem of secrecy," wondering not only whether secrecy was appropriate and effective as a means of controlling this new technology but also whether it was compatible with the country's core values. Out of

a messy context of propaganda, confusion, spy scares, and the grave counsel of competing groups of scientists, what historian Alex Wellerstein calls a "new regime of secrecy" was put into place. It was unlike any other previous or since. Nuclear secrets were given their own unique legal designation in American law ("restricted data"), one that operates differently than all other

forms of national security classification and exists to this day. Drawing on massive amounts of declassified files, including records released by the government for the first time at the author's request, *Restricted Data* is a narrative account of nuclear secrecy and the tensions and uncertainty that built as the Cold War continued. In the US, both

science and democracy are pitted against nuclear secrecy, and this makes its history uniquely compelling and timely"-- [Building World Health Organization Named a Best New Book of 2021 \(so far\) by Real Simple Named a Most Anticipated Book of 2021 by Lit Hub and Bustle](#) A gripping, multilayered debut in the tradition of Tana French and Donna Tartt about four friends,

an empty manor, and a night that will follow them for the rest of their lives. It's the summer of 1996 and school's out forever for Andy, her boyfriend Marcus, her best friend Peter, and Em. When Andy's alcoholic mother predicts the apocalypse, the four teenagers decide to see out the end of the world at a deserted manor house, the site of a historic unsolved mystery. There they

meet David—charming and unreliable, he seems to have appeared out of nowhere. David presents an irresistible lure for both Andy and Peter and complicates the dynamics of their lifelong friendship. When the group learns that a diamond necklace, stolen fifty years ago, might still be somewhere on the manor grounds, the Game—half treasure hunt, half friendly

deception—begins. But the Game becomes much bigger than the necklace, growing to encompass years of secrets, lies, and, ultimately, one terrible betrayal. Meticulously plotted and gorgeously written, *Before the Ruins* is a page-turner of the highest order about the sealed-off places in our pasts and the parts of ourselves waiting to be retrieved from them.

China's Influence and American Interests
Simon and Schuster
Buffalo City got its name when a company from Buffalo, New York, implemented plans for a massive logging operation of 168,000 acres of ancient cypress and juniper trees in a swampy area of the Dare County mainland in eastern North Carolina in 1888. It was an exciting time as 300 Russians, as well as local

black and white men, began to cut timber and lay 100 miles of train tracks for locomotives to transport the logs out of the forest. A town was soon built with approximately 50 houses, a hotel, post office, school, general store, and church. While it was not considered a "city," it was the largest town in Dare County at the time. When the timber boom was over 20 years later and jobs were scarce, the place was

the ideal location for making illegal whiskey, and it soon became known as the moonshine capital of the world. Today, nothing remains of the boomtown. The forest has reclaimed the land.

history and a cultural significance that comes with wearing cat-eye-inspired liner or a bold red lip, one that many women feel to this day, even if we don't realize exactly why. Increasingly, people of all genders are wrestling with what it means to be a woman living in a patriarchy, and part of that is how looking like a woman—what ever that means—affects people's real lives. Through

the stories of famous women like Cleopatra, Empress Wu, Madam C. J. Walker, Elizabeth Taylor, and Marsha P. Johnson, Rae Nudson unpacks makeup's cultural impact—including how it can be used to shape a personal or cultural narrative, how often beauty standards align with whiteness, how and when it can be used for safety, and its function in the workplace, to name a few

examples. Every woman has had to make a very personal choice about her relationship with makeup, and consciously or unconsciously, every woman knows that the choice is never entirely hers to make. This book also holds space for complicating factors, especially the ways that beauty standards differ across race, class, and culture. Engaging and informative, *All Made Up*

will expand the discussion around what it means to participate in creating your own self-image. *All Made Up* Penguin
A finalist for the National Book Critics Circle Award, this memoir of one woman's later in life career change is “a smart, funny and compelling case for going after your heart's desires, no matter your age” (Essence). Following her retirement from Princeton University,

celebrated
historian Dr.
Nell Irvin
Painter
surprised
everyone in
her life by
returning to
school--in her
sixties--to
earn a BFA
and MFA in
painting. In
Old in Art
School, she
travels from
her beloved
Newark to the
prestigious
Rhode Island
School of
Design; finds
meaning in
the artists she
loves, even as
she comes to
understand
how they may
be
undervalued;
and struggles
with the

unstable
balance
between the
pursuit of art
and the
inevitable,
sometimes
painful
demands of a
life fully lived.
How are
women and
artists seen
and judged by
their age,
looks, and
race? What
does it mean
when
someone
says, "You will
never be an
artist"? Who
defines what
an artist is
and all that
goes with
such an
identity, and
how are these
ideas tied to
our shared

conceptions of
beauty, value,
and
difference?
Bringing to
bear incisive
insights from
two careers,
Painter
weaves a
frank, funny,
and often
surprising tale
of her move
from
academia to
art in this
"glorious
achievement-
-bighearted
and critical,
insightful and
entertaining.
This book is a
cup of
courage for
everyone who
wants to
change their
lives" (Tayari
Jones, author
