 First published in 1971, *Rules for Radicals* is Saul Alinsky's impassioned counsel to young radicals on how to effect constructive social change and know "the difference between being a realistic radical and being a rhetorical one." Written in the midst of radical political developments whose direction Alinsky was one of the first to question, this volume exhibits his style at its best. Like Thomas Paine before him, Alinsky was able to combine, both in his person and his writing, the intensity of political engagement with an absolute insistence on rational political discourse and adherence to the American democratic tradition.

Americans have built an empire on the idea of “race,” a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates’s attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children’s lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bravely confronts our present, and offers a transcendent vision for a way forward.

Understanding Abnormal Psychology provides a thorough understanding of abnormal psychology with a focus on the integration of psychology, biology and health. It goes beyond a descriptive overview of clinical disorders to provide a critical appreciation of the multifaceted aspects of mental illness. Each disorder is clearly and succinctly explained with the support of case studies. These examples are then used to introduce the debates surrounding current research, the biology of abnormal disorders and standards of treatment. The bridge between the biological elements of brain functioning and the psychological mechanisms that are responsible for coping and adjustment is thoroughly explored. This valuable consideration of the range of elements involved in the diagnosis and treatment of clinical disorders will provide you with a broad and critical understanding of this complex and fascinating field. Big World, Small Screen assesses the influence of television on the lives of the most vulnerable and powerless in American society: children, ethnic and sexual minorities, and women. Many in these groups are addicted to television, although they are not the principal audiences sought by commercial TV distributors because they are not the most lucrative markets for advertisers. This important book illustrates the power of television in stereotyping the elderly, ethnic groups, gays and lesbians, and the institutionalized and, thus, in contributing to the self-image of many viewers. They go on to consider how television affects social interaction, intellectual functioning, emotional development, and attitudes (toward family life, sexuality, and mental and physical health, for example). They illustrate the medium’s potential to teach and inform, to communicate across nations and cultures?and to induce violence, callousness, and amorality. Parents will be especially interested in what they say about television viewing and children. Finally, they offer suggestions for research and public policy with the aim of producing programming that will enrich the lives of citizens all across the spectrum. Nine psychologists, members of the Task Force on Television and Society appointed by the American Psychological Association, have collaborated on Big World, Small Screen.

A Pulitzer Prize-winning history of the mistreatment of black Americans. In this 'precise and eloquent work' - as described in its Pulitzer Prize citation - Douglas A. Blackmon brings to light one of the most shameful chapters in American history - an 'Age of Neoslavery' that thrived in the aftermath of the Civil War through the dawn of World War II. Using a vast record of original documents and personal narratives, Blackmon unearths the lost stories of slaves and their descendants who journeyed into freedom after the Emancipation Proclamation and then back into the shadow of involuntary servitude thereafter. By turns moving, sobering and shocking, this unprecedented account reveals these stories, the companies that profited the most from neoslavery, and the insidious legacy of racism that reverberates today.

The basis for the PBS Special, *What Are You Hungry For?* is the breakthrough book that can bring weight under effortless control by linking it to personal fulfillment in every area of a reader's life. After promoting this message worldwide for thirty years, bestselling author Deepak Chopra focuses on the huge problem of weight control in America with exciting new concepts. What are you hungry for? Food? Love? Self-esteem? Peace? In this manual for "higher health," based on the latest findings in both mainstream and alternative medicine, Deepak Chopra creates a vision of weight loss based on a deeper awareness of why people overeat - because they are trying to find satisfaction and wind up using food as a substitute for real fulfillment. Repudiating the failed approaches of crash dieting and all forms of deprivation, Chopra's new book aims directly at the problem of finding fulfillment. When that problem is solved, he argues, normal eating falls into place automatically, and the entire system of mind and body achieves what it really desires.

“Everyone’s life story is complicated, and the best intentions go astray because people find it hard to change,” writes Chopra. “Bad habits, like bad memories, stick around stubbornly when we wish they’d go away. But you have a great motivation working for you, which is your desire for happiness. I define happiness as the state of fulfillment, and everyone wants to be fulfilled. If you keep your eye on this, your most basic motivation, then the choices you make come down to a single question: “What am I hungry for?” Your true desire will lead you in the right direction. False desires lead in the wrong direction.” Wherever you are in life, this book will help point you in that right direction.

A “marvelous history”* of medieval Europe, from the bubonic plague and the Papal Schism to the Hundred Years’ War, by the Pulitzer Prize-winning author of *The Guns of August* *Lawrence Wright, author of *The End of October*, in *The Wall Street Journal* The fourteenth century reflects two contradictory images: on the one hand, a glittering age of crusades, cathedrals, and chivalry; on the other, a world plunged into chaos and spiritual agony. In this revelatory work, Barbara W. Tuchman examines not only the great rhythms of history but the grain and texture of domestic life: what childhood was like; what marriage meant; how money, taxes, and war dominated the lives of serf, noble, and clergy alike. Granting her subjects their loyalties, treacheries, and guilty passions, Tuchman re-creates the lives of proud cardinals, university scholars, grocers and clerks, saints and mystics, lawyers and mercenaries, and, dominating all, the knight—in all his valor and “furious follies,” a “terrible worm in an iron cocoon.” Praise for *A Distant Mirror* “Beautifully written, careful and thorough in its scholarship . . . What Ms. Tuchman does superbly is to tell how it was. . . . No one has ever done this better.”—*The New York Review of Books* “A beautiful, extraordinary book . . . Tuchman at the top of her powers . . . She has done nothing finer.”—*The Wall Street Journal* “Wise, witty, and wonderful . . . a great book, in a great historical tradition.”—*Commentary* NOTE: This edition does not include color images.

"This book is a message from autistic people to their parents, friends, teachers, coworkers and doctors showing what life is like on the spectrum. It's also my love letter to autistic people. For too long, we have been forced to navigate a world where all the road signs are written in another language." With a reporter's eye and an insider's perspective, Eric Garcia shows what it's like to be autistic across America. Garcia began writing about autism because he was frustrated by the media's coverage of it; the myths that the disorder is caused by vaccines, the narrow portrayals of autistic people as white men working in Silicon Valley. His own life as an autistic person didn't look anything like that. He is Latino, a graduate of the University of North Carolina, and works as a journalist covering politics in Washington D.C. Garcia realized he needed to put into writing what so many autistic people have been saying for years; autism is a part of their identity, they don't need to be fixed. In *We're Not Broken*, Garcia uses his own life as a springboard to discuss the social and policy gaps that exist in supporting those on the spectrum. From education to healthcare, he explores how autistic people wrestle with systems that were not built with them in mind. At the same time, he shares the experiences of all types of autistic people, from those with higher support needs, to autistic people of color, to those in the LGBTQ community. In doing so, Garcia gives his community a platform to articulate their own needs, rather than having others speak for them, which has been the standard for far too long.
