 According to the statistics from the US Bureau of Labor Statistics (BLS, 2020), the grounds maintenance industry employs almost 1.25 million people in the US alone. Even better perhaps, the projected employment figures are expected to grow by an additional 250,000 by the year 2020. What does that all this imply for you? That the demand for workers in the grounds maintenance sector is going to grow by 20% - this is certainly faster than the expected growth for all service occupations. This tells you that definitely there is a huge current and future market for new initiatives in the lawn maintenance industry in terms of new businesses. Within this service sector, there is ample business opportunity. You can customize your lawn business so that it perfectly fit not just your specific needs and desires but even those of your customers. To gain the necessary start-up capital or to secure solid investment money for a new lawn business or for expanding your current one needs a strong and viable business plan.

 The former Executive Vice President of Walt Disney World shares indispensable Rules for serving customers with consistency, efficiency, creativity, sincerity, and excellence. Lee Cockerell knows that success in business--any business--depends upon winning and keeping customers. In 39 digestible, bite-sized chapters, Lee shares everything he has learned in his 40+ year career in the hospitality industry about creating an environment that keeps customers coming back for more. Here, Lee not only shows why the customer always rules, but also the Rules for serving customers so well they'll never want to do business with anyone but you. For example: Rule #1: Customer Service Is Not a Department Rule #3: Great Service Follows the Laws of Gravity Rule #5: Ask Yourself "What Would Mom Do?" Rule #19: Be a Copycat Rule #25. Treat Every Customer like a Regular Rule #39: Don't Try Too Hard As simple as they are profound, these principles have been shown to work in companies as large as Disney and as small as a local coffee shop; from businesses selling cutting-edge technologies like computer tablets to those selling products as timeless as shoes and handbags; at corporations as long-standing as Ford Motors and those as nascent as a brand new start-up. And they have been proven indispensable at all levels of a company, from managers responsible for hiring and training employees, setting policies and

procedures, and shaping the company culture to front line staff who deal directly with clients and customers Chock-full of universal advice, applicable online and off, The Customer Rules is the essential handbook for service excellence everywhere.

A good lawn is very often the central feature of a modern garden, whether in town or the countryside. It therefore needs much more care and very often extra expert care than many of the other plants in the garden. The properly maintained lawn is no longer just an area of grass but the backdrop or canvas for the rest of the garden. If the lawn looks good, so will the rest of the garden. Although this manual has been written with the professional gardener or aspiring lawn care specialist in mind, many of the aspects of lawn care within the volume are no more than practical advice which will be of interest and use to both the professional and amateur. This manual is business-oriented and in fact starts with generic questions about starting up a business plan and focuses down to launching a properly constituted lawn care business. It also outlines all the pitfalls of not only being in business for yourself but the implications of employing people, as well as all the anticipated issues which can result from contracting. It is constructed in such a way that whether you are thinking of starting a lawn care business or whether you are already involved, there will be something of use to you. Everything is included from how to go about your accounting to making your business legal...with even a section on the correct tools to acquire. It is written by an experienced gardener who has created a successful lawn care business and who is now passing on his experience by highlighting both the positive and negative aspects of not only working within the horticultural industry but how to go about building a business from scratch. The manual is written in a very readable and sympathetic way rather than in a technical and prescriptive style, so that it provides both an informal and informative reference source for all professional and semi-professional gardeners, without ignoring the amateur!

Bible Stories that Speak to Our Heart AuthorHouse

This is a complete guide for those who are interested in starting up their own small lawn care business or for those who have one and want some helpful tips. With eight chapters and many sub chapters, this book deals with this seemingly simple topic holistically and in-depth. My hope is to give readers some helpful tips and guide them along so they can smoothly get a small lawn care business up and running successfully. This will allow them to escape working for someone else while making more money and having more flexibility in their lives. One chapter is devoted to telling you what this business is really like, so interested people can get a feel if it's something they want to pursue. Also, there's a chapter that talks about off-season ideas for work, which may help those who are already working the business too. All-together, this is the culmination of my four years of experience with having three different successful lawn care businesses. The third business I'm still working. Although I'm not an expert at gardening or landscaping, I've been able to replace the "real jobs" out there with something better. If you're interested in starting a small lawn care business, want some help getting it started the right way, and want to make sure you have success, then you can't go wrong with this complete guide for starting your small lawn care business book.
