Capturing the ecommerce edge in customer growth and retention has been a decades-long battle between eRetail startups and large traditional retailers. The two face different sets of challenges and those challenges are constantly evolving in our digital world. *Goliath Strikes Back: How Traditional Retailers Are Winning Back Customers from Ecommerce Startups* expands on this current industry shift in one of the most accessible, intriguing business books in recent times. Each chapter covers a different industry, as diverse and eclectic as consumer electronics, newspapers, groceries, logistics, and more. By looking at how traditional retailers are facing off against internet startups, you can gauge the landscape and form your own strategies. Author Peter S. Cohan expertly guides you from one case study to the next and makes topics enthralling even for the non-industry layperson. *Goliath Strikes Back* helps executives create an effective strategy in the modern ecommerce realm.

Business professionals and outside enthusiasts alike are in for fascinating insights from Cohan about the mindsets and strategies of successful companies and their leaders. Changing strategies on a dime has always been essential in commerce, and never more so than in ecommerce's industry overhaul. Don't get left behind. *What You Will Learn* What to emulate and what to avoid by studying the mindsets and strategies of the successful and unsuccessful companies How companies can identify, attract, hire and motivate executives who embody the strategic mindset needed to remain successful An insight into six key industries, including consumer electronics and grocery, to understand why companies are failing or succeeding *Who This Book Is For* Executives, business professionals, business students, and curious laypeople

Pencil and Ink is a new collection of Frank Cho's personal works that focuses primarily on his exceptional pencil and ink drawings. Filled with over 120 pieces from the last two decades, it contains works not published in Frank's previous book, *The Art of Frank Cho*. This companion title features his most recent ballpoint-pen women, nudes, sketches and studies of the figure. This reveal Frank's passion for the human form, crosshatching and the line as well as his love of storytelling. Also included are recent Sherlock Holmes and monster drawings, along with *Jungle Queen* commissions done over the years. With a wide range of both completed and unfinished creations, this collection gives you the opportunity to view the artist's craft through its many stages. A few

pieces include both the completed and preliminary work to show Frank's thought process when making his visions. Featuring a new fifty-question interview, this book also answers many of the questions frequently asked by Frank's followers and fans. A self-taught artist, he offers advice to those starting out in the industry by sharing his own experience and disclosing information about what inspires his process. Frank also answers intimate questions and shares new insight on how he transitioned to becoming a professional in the field.

One hundred years ago, in July 1916, an act of terrorism in New York Harbor changed the world. The attack in New York Harbor was so explosive that people as far away as Maryland felt the ground shake. Windows were blown out uptown at the New York Public Library; the main building at Ellis Island was nearly destroyed; Statue of Liberty was torn into by shrapnel from the explosion, which would have measured 5.5 on the Richter scale. Chaos overtook Manhattan as the midnight sky turned to fire, lit up with exploding ammunition. The year was 1916. And it had been shockingly easy. While war raged in Europe, Americans watched from afar, unthreatened by the danger overseas. Yet the United States was riddled with networks of German spies hiding in plain sight. The attack on New York Harbor was only one part of their plans: secret anthrax facilities were located just ten miles from the White House; bombs were planted on ships, hidden in buildings, and mailed to the country's civic and business leaders; and an underground syndicate helped potential terrorists obtain fake IDs, housing, and money. President Woodrow Wilson knew an attack of this magnitude was possible, and yet nothing was done to stop it. Americans, feeling buffered by miles of ocean and burgeoning prosperity, had ignored the mounting threat. That all changed on a warm summer evening in late July, when the island in New York Harbor called Black Tom exploded, setting alight a vast store of munitions destined for the front. Three American lawyers -- John McCloy, Amos Peaslee, and Harold Martin -- made it their mission to solve the Black Tom mystery. Their hunt for justice would take them undercover to Europe, deep into the shadowy world of secret agents and double-crosses, through the halls of Washington and the capitals of Europe. It would challenge their beliefs in right and wrong. And they would discover a sinister plot so vast it could hardly have been imagined -- a conspiracy that stretched from downtown Manhattan to the very heart of Berlin. *The Detonators* is the first full accounting of a crime and a cover-up that resonate strongly in a post-9/11 America. And much of the atmosphere and rhetoric in play 100 years ago remains eerily similar to discussions surrounding national security and immigration today. As Millman deftly illustrates in *The Detonators*, an island may have disappeared, but the resulting lessons have only grown stronger and more urgent, and history has a persistent way of stirring up its ghosts. This is their story. "A gripping account of conspiracy." -- New York Times "A ready-made suspense thriller." -- Boston

Choral Conducting Thomas Nelson

The New York Times bestselling author of *The Geography of Bliss* embarks on a rollicking intellectual journey, following in the footsteps of history's greatest thinkers and showing us how each—from Epicurus to Gandhi, Thoreau to Beauvoir—offers practical and spiritual lessons for today's unsettled times. We turn to philosophy for the same reasons we travel: to see the world from a different perspective, to unearth hidden beauty, and to find new ways of being. We want to learn how to embrace wonder. Face regrets. Sustain hope. Eric Weiner combines his twin passions for philosophy and travel in a globe-trotting pilgrimage that uncovers surprising life lessons from great thinkers around the world, from Rousseau to Nietzsche, Confucius to Simone Weil. Traveling by train (the most thoughtful mode of transport), he journeys thousands of miles, making stops in Athens, Delhi, Wyoming, Coney Island, Frankfurt, and points in between to reconnect with philosophy's original purpose: teaching us how to lead wiser, more meaningful lives. From Socrates and ancient Athens to Beauvoir and 20th-century Paris, Weiner's chosen philosophers and places provide important practical and spiritual lessons as we navigate today's chaotic times. In a "delightful" odyssey that "will take you places intellectually and humorously" (San Francisco Book Review), Weiner invites us to voyage alongside him on his life-changing pursuit of wisdom and discovery as he attempts to find answers to our most vital questions. The *Socrates Express* is "full of valuable lessons...a fun, sharp book that draws readers in with its apparent simplicity and bubble-gum philosophy approach and gradually pulls them in deeper and deeper" (NPR).

Welcome to the Consumer Financial Protection Bureau's *Your Money, Your Goals: A financial empowerment toolkit for social services programs!* If you're reading this, you are probably a case manager, or you work with case managers. Finances affect nearly every aspect of life in the United States. But many people feel overwhelmed by their financial situations, and they don't know where to go for help. As a case manager, you're in a unique position to provide that help. Clients already know you and trust you, and in many cases, they're already sharing financial and other personal information with you. The financial stresses your clients face may interfere with their progress toward other goals, and providing financial empowerment information and tools is a natural extension of what you are already doing. What is "financial empowerment" and how is it different from financial education or financial literacy? Financial education is a strategy that provides people with financial knowledge, skills, and resources so they can get, manage, and use their money to achieve their goals. Financial education is about building an individual's knowledge, skills, and capacity to use resources and tools, including financial products and services. Financial education leads to financial literacy. Financial empowerment includes financial education and financial literacy, but it is focused both on building the ability of individuals to manage money and use financial services and on providing access to products that work for them. Financially empowered individuals are informed and skilled; they know where to get help with their financial challenges. This sense of empowerment can build confidence that they can effectively use their financial knowledge, skills, and resources to reach their goals. We designed this toolkit to help you help your clients become financially empowered consumers. This financial empowerment toolkit is different from a financial education curriculum. With a curriculum, you are generally expected to work through most or all of the material in the order presented to achieve a specific set of objectives. This toolkit is a collection

of important financial empowerment information and tools you can access as needed based on the client's goals. In other words, the aim is not to cover all of the information and tools in the toolkit - it is to identify and use the information and tools that are best suited to help your clients reach their goals.

Choral Conducting: Philosophy and Practice, Second Edition is an updated resource for conductors and singers alike, a college-level text for students of choral conducting that considers conducting and singing from a holistic perspective. This singer-friendly and voice-healthy approach examines the rehearsal environment alongside its musical performance counterpart. The author explores what is involved in leading a choral group, examining theories of learning and human behavior to understand the impact choral conductors have on the act of singing. Divided into two main parts—Philosophy and Practice—the text begins with an historical look at conducting, exploring questions of why people sing and why they sing together, and ultimately presents the application of this philosophy, showing how a conductor's gestures and patterns can influence vocal outcomes. In addressing how singers learn and respond to choral music, as well as how conductors communicate with singers in rehearsal and performance, Choral Conducting turns an eye to learning how we learn and the role successful choral conductors play in motivating singers, developing healthy singing habits, and improving individual and ensemble vocal quality—all with the aims of enhancing musical understanding. New to this edition: Updated diagrams, photos, and musical examples Revised sample choral programs Increased consideration of the orchestral conductor A renewed focus on the intersections of learning, health and well-being, and the social perspective, supported by new and recent research

The New Rules of Work Penguin

A joyful, body-positive picture book about a young Indian American girl's journey to accept her body hair and celebrate her heritage after being teased about her mustache. Laxmi never paid much attention to the tiny hairs above her lip. But one day while playing farm animals at recess, her friends point out that her whiskers would make her the perfect cat. She starts to notice body hair all over--on her arms, legs, and even between her eyebrows. With her parents' help, Laxmi learns that hair isn't just for heads, but that it grows everywhere, regardless of gender. Featuring affirming text by Shelly Anand and exuberant, endearing illustrations by Nabi H. Ali, Laxmi's Mooch is a celebration of our bodies and our body hair, in whichever way they grow.

The next installment in the immensely successful Q&A a Day series focuses on practicing

mindfulness, encouraging self-growth, and building a more meaningful life. In the classic Q&A format, this journal was created to help you track your emotional, psychological, and spiritual growth over five years of your life in the simplest way possible. You can start at any point in the year. Simply turn to today's date, and take a few moments to answer the question at the top of the page

(or don't answer it; it's your journal). When you finish the year, move on to the next section. As the years go by you'll notice how your answers change (or don't). The questions have been developed to encourage you to look inside, dig down deep, and explore what makes you you. The diary can be started on any day of the year and is an ideal tool for introspection.
