KENDRICK TIANA

MotorBoating International Marine Publishing Company
Controversial sexual medicine icon Dr. John Money has been on the leading edge of sex research for decades. Supporters and students call him a powerful genius who has changed the face of sex research, blazing new pathways for future scientists and sexologists, especially in the murky area of gender identification and

disorders. "Sin, Science, and the Sex Police" contains twenty-nine selections covering both the study of sex (sexology) and the ideology of sex (sexosophy) in which Money, the man who coined the terms "gender" and "lovemap," ponders the many dimensions of human sexuality: its biology, the natural coding of sex assignments, how we identify ourselves sexually, the sex roles we play, and more. These fascinating essays explore the compelling topics of eroticism, the ideology of homosexuality, the concept of gender, role and sexual identity,

"antisexualism" in history and religion, Freud, paraphilia, gendermaps and loveblots, lust in humans and animals, evolutionary sexology, the Kama Sutra, masturbation, sexological disorders, sex reassignment, orgasm, body-image, and much more. Money proclaims that while societies have cherished medicine and philosophy as sciences, sex has unfortunately failed to be properly embraced. Always on the cutting edge, always far beyond his time, Money enlightens and fascinates.

Aggie and MaryAnne arrived as freshman at St. James Academy, strangers to each other and the foreign world of class struggle and prejudice imbedded in campus life there. The only kids on scholarship in their class, they were thrown together from the start and soon became friends as close as sisters. They were joined at the hip against the wealthy heirs of the school's founders and formed a bond that they never imagined breaking. They shared everything; well, almost everything. Some secrets are just too risky

to tell, even to your best friend. This is the tale of how two girls fumbled through their lives and loves into the possibilities beyond mistrust, mistakes, repentance, and forgiveness; and proves that with the right about of dumb luck, bad choices, and fate itself, anyone can find the road home.
