The Business Week Dorling Kindersley Ltd
The twenty-three distinguished writers included in *From Curlers to Chainsaws: Women and Their Machines* invite machines into their lives and onto the page. In every room and landscape these writers occupy, gadgets that both stir and stymie may be found: a Singer sewing machine, a stove, a gun, a vibrator, a prosthetic limb, a tractor, a Dodge Dart, a microphone, a smartphone, a stapler, a

No. 1 pencil and, of course, a curling iron and a chainsaw. *From Curlers to Chainsaws* is a groundbreaking collection of lyrical and illuminating essays about the serious, silly, seductive, and sometimes sorrowful relationships between women and their machines. This collection explores in depth objects we sometimes take for granted, focusing not only on their functions but also on their powers to inform identity. For each writer, the device moves beyond the functional to become a symbolic extension of the writer's own mind—altering and deepening each woman's concept of herself.

"This book will provide therapists with the tools necessary to help their clients differentiate themselves from their parents, families of origin, and other influences that have unconsciously dominated and predetermined their lives. The authors argue that most of us are unaware of the extent to which our lives have been predetermined and pre-empted by a parent whose thoughts, beliefs, and feelings can actually be antagonistic to our own goals and desires. An integrative theoretical approach to personality development and human behavior is introduced, providing the foundation for an innovative cognitive-affective-behavioral therapeutic process centered around Firestone's Voice Therapy technique"--

A detective hunts down a killer in a dystopian, overpopulated NYC in this classic science fiction novel that inspired the film *Soylent Green*. Originally published in 1966, *Make Room! Make Room!* imagines a world at the end of the twentieth century where Earth is so overwhelmed by rampant population growth that it teeters on the edge of self-

destruction. In New York City alone, thirty-five million people are squeezed into its packed boroughs, scrambling like rats for the world's dwindling resources. The only food available is a product called soylent. And while the government tries to maintain order, the rich get richer and the poor stay underfoot. Finding a killer in this broken world is one hell of a job. But that's exactly what Det. Andy Rusch has been assigned to do. If he can stay alive long enough, he might just solve the biggest case he's ever been on—unless humanity finally fulfills its promise and destroys itself first.
