New Directions is a thematic reading-writing book aimed at the most advanced learners. It prepares students for the rigors of college-level writing by having them read long, challenging, authentic readings, from a variety of genres, and by having them apply critical thinking skills as a precursor to writing. This emphasis on multiple longer readings gives New Directions its distinctive character.

After a cascade of failures left residents of Flint, Michigan, without a reliable and affordable supply of safe drinking water, citizens spent years demanding action from their city and state officials.

Complaints from the city's predominantly African American residents were ignored until independent researchers confirmed dangerously elevated blood lead levels among Flint children and in the city's tap water.

Despite a 2017 federal court ruling in favor of Flint residents who had demanded mitigation, those efforts have been incomplete at best. Assessing the challenges that community groups faced in their attempts to advocate for improved living conditions, Tainted Tap

offers a rich analysis of conditions and constraints that created the Flint water crisis. Katrinell Davis contextualizes the crisis in Flint's long and troubled history of delivering essential services, the consequences of regional water-management politics, and other forms of systemic neglect that impacted the working-class community's health and well-being. Using ethnographic and empirical evidence from a range of sources, Davis also sheds light on the forms of community action that have brought needed changes to this underserved community.

Want to make a living simply by writing about your life? Here's how one pro-blogger does it... On a sunny day in April, journalist-turned-PR Amber

McNaught walked out of her well-paid office job, and started a blog. Ten years, multiple blogs, 42 million pageviews, one kidney transplant (her husband's), and a whole lot of mistakes later, that blog is now a full-time business, which means that Amber, who started documenting her life in a green velvet diary when she was 11 years old, now gets paid to continue documenting her life - but on the internet. (Yes, she still has to pinch herself every morning to make sure she's not dreaming.) So, how did she do it? How did she make writing a diary into a full-time job? You're about to find out. In 'My Blogging Secrets', Amber shares everything she's learned about blogging, from how to come up with an idea for your blog, to how to persuade people to read it, and - most

importantly - how to actually make money from writing about your life. *Good Hair* PHI Learning Pvt. Ltd. This book presents a comprehensive overview of research on environmentally friendly insulating gases, in response to

the urgent calls for developing alternatives to SF<sub>6</sub> due to the increasing awareness of the threat it poses as a greenhouse gas. It covers gas dielectrics, SF<sub>6</sub> and its mixtures, and potential alternative gases, providing fundamental information on gas discharge and gas insulation and especially focusing on the development of new environmentally friendly insulating gases over the last decade. The book begins by describing the insulating and arcing characteristics of SF<sub>6</sub>, followed by an introduction to the gas dielectrics performance of SF<sub>6</sub> gas mixtures with buffer gases. The latest findings on new environmentally friendly insulating gases are described in detail, and suggestions for practical application are also provided. Graduate students

and teachers involved in high-voltage and insulation engineering can use the book as teaching material. Researchers working in plasma science, laser action and related applied physics fields can also benefit from the book's analytical approach and detailed data; engineers from the fields of electric power operation systems and electrical manufacturing will find it a valuable reference work for solving practical problems.

Master professional-level coding in Rust. For developers who've mastered the basics, this book is the next step on your way to professional-level programming in Rust. It covers everything you need to build and maintain larger code bases, write powerful and flexible applications

and libraries, and confidently expand the scope and complexity of your projects. Author Jon Gjengset takes you deep into the Rust programming language, dissecting core topics like ownership, traits, concurrency, and unsafe code. You'll explore key concepts like type layout and trait coherence, delve into the inner workings of concurrent programming and asynchrony with `async/await`, and take a tour of the world of `no_std` programming. Gjengset also provides expert guidance on API design, testing strategies, and error handling, and will help develop your understanding of foreign function interfaces, object safety, procedural macros, and much more. You'll Learn: How to design reliable, idiomatic, and ergonomic Rust programs based on best

principles Effective use of declarative and procedural macros, and the difference between them How asynchrony works in Rust – all the way from the `Pin` and `Waker` types used in manual implementations of `Futures`, to how `async/await` saves you from thinking about most of those words What it means for code to be unsafe, and best practices for writing and interacting with unsafe functions and traits How to organize and configure more complex Rust projects so that they integrate nicely with the rest of the ecosystem How to write Rust code that can interoperate with non-Rust libraries and systems, or run in constrained and embedded environments Brimming with practical, pragmatic insights that you can immediately apply, Rust for

Rustaceans helps you do more with Rust, while also teaching you its underlying mechanisms.

A healthy cookbook to share with a partner, featuring more than 100 recipes designed to nourish your bodies and souls. An Epicurious Best Cookbook for Spring • “Healthier Together focuses on real whole foods and bringing community together.”—Kelly LeVeque, celebrity nutritionist and bestselling

author of Body Love Food writer and health blogger Liz Moody once followed trendy diets and ate solely for fuel, not for flavor. That changed when she met her soon-to-be-boyfriend and they started cooking nutrient- and vegetable-rich meals. She not only fell in love with food again, but she also discovered that setting goals and sticking to them is easier and more gratifying when paired with someone else. Mincing garlic and sautéing onions together eventually led the couple to marriage—proving that good food really is the universal connector! These 100+ flavor-packed recipes are designed to be cooked and enjoyed by two people, plus they're all gluten-free, dairy-free, and plant-centered. They include homemade alternatives for all the foods you love to

share, such as brunch, takeout, and sweet treats. Indulge in Cardamom Banana Bread Pancakes with Candied Coffee Walnuts, Cornflake “Fried” Chicken, General Tso’s Cauliflower, and Chocolate Tahini Brownie Bites. Pick your partner—near or far—and get ready to get healthy. Praise for Healthier Together “This cookbook is one you’ll be reaching for time and time again when you need healthy food that is satisfying and delicious.”—Tieghan Gerard “Liz Moody offers heaps of tasty recipes packed with great ingredients.”—Real Simple “Healthier Together is a brilliant concept! Cooking with a friend/partner/mom is so much better than cooking alone, plus having a partner will keep you both accountable on your healthy eating journey.”—Gina

Homolka “Liz does an amazing job helping you make delicious food in a way that is both feasible and fun.”—Rachel Mansfield “Liz’s book overflows with food made to share, healthy but with all the comfort and flavor that brings happy people around the table.”—Daphne Oz “Liz’s message is profound, yet so simple . . . you need to have both whole foods and whole, real relationships to truly be healthy and happy. This book makes eating healthy a celebration, not a sacrifice, and it brings an arsenal of fresh and flavorful recipes that are fun to make and eat!”—Jeanine Donofrio  
Children and Their Environments Oxford University Press

This fascinating book examines theories of children's perceptions of space and place and explores how these theories

are applied to the world of children. The focus is on children in large real world spaces; places that children live in, explore and learn from. An international team of authors compare the experiences of children from different cultures and backgrounds. This book will appeal to environmental and developmental psychologists and geographers, and also to planners by linking research on children's understandings and on their daily lives to recommendations for practice.
