This valuable reference presents the "going" royalty rate for virtually any product, including over 1,500 products and services in ten lucrative categories--art, celebrity, character and entertainment, collegiate, corporate, designer, event, sports, nonprofit and music. The essential reference for both beginning and more experienced licensing professionals. Knowing the "going" royalty rate for virtually any product is as simple as reaching for the newly published Licensing Royalty Rates, 2020 Edition . Setting a royalty rate too high can scare away potential licensees, while accepting a lower rate can cost licensors hundreds of thousands of dollars.

Licensing Royalty Rates, 2020 Edition provides all the information you need to calculate the right rate every time. The data in Licensing Royalty Rates is compiled using information from the U.S. Patent and Trademark Office. After careful review by a blue-ribbon panel of expert licensing consultants uniquely qualified to know what the appropriate rate range is for specific properties in each licensing category, the information is organized into four time-saving sections that give researchers fast access to comprehensive statistical and analytical data: Royalty rate listing alphabetically by licensed product --provides a detailed alphabetical listing of products and their suggested rate range across all product categories. Royalty rate listing by international trademark class--lets you quickly identify subtle royalty rate differences between similar products within specific international trademark classes. Checklist of licensed products and services--offers a quick-reference to products with a high potential for licensing. Comprehensive list of licensed products and services--presents a

detailed list of all surveyed products and services within a trademark class for preparing intent-to-use trademark applications. This detailed information gives both beginning and more experienced licensing professionals the confidence needed to negotiate the maximum allowable rate regardless of the product, the market and the parameters of the specific deal itself.

In 1962, following two losing seasons, Coach John McKay was fighting for his job. The 1962 team was undersized but smart quick and tough. Although underdogs in four games, including the Rose Bowl, the Trojans finished with an 11-0 record and defeated Wisconsin in the Rose Bowl and become national champions. Although the 1962 Trojans were the least talented of Coach McKays four national championship teams, their success enabled USC to once again become a football power. You'll meet the players from this team

and learn about their joys and sorrows as well their successes and failures. The team included tempestuous end Prince Hal Bedsole, who still holds USC's season and career records for most yards per reception. Fleet Willie Brown, whose clutch plays on offense and defense preserved an undefeated season. Fiery Trojan captain Marv Marinovich, whose athletic techniques have become legendary, and Fred Hill, whose daughter, Kim, became the inspiration for the Ronald McDonald House.

Comprehensive list of licensed products and services--presents a detailed list of all surveyed products and services within a trademark class for preparing intent-to-use trademark applications. Written in conjunction with a field of advisors, this study represents the twenty-first in an annual series of royalty rate studies in the merchandising and trademark licensing area. While these changes are generally subtle, should

you find yourself in the negotiation of a multi-year license agreement for a hot property, a half-point difference in royalty rates over a five-year period can mean millions of dollars in additional (or decreased) royalty income. Seemingly minor changes can have substantial consequences. In addition to the table of royalty rates that we have provided in years past, the 2022 Edition has important features that should be of interest to our readers: A new subsection discussing common marketing funds (CMFs). CMFs are relatively common in the industry and are included in roughly fifty percent of cases. Updated royalty rate surveys with product categories listed alphabetically and by trademark class. Survey charts have been completely revamped to include a range of typical royalty rates for each product category, as well as the industry average royalty rate for each particular product.

Sections 2 and 3 now include royalty rate surveys for interior design properties. An updated listing of the top franchises from 2021. Updated Section 6 detailing the state of the licensing industry, with updated survey and statistical information on worldwide licensing revenues by property type and product category, as well as the latest information on the top properties and agents in the industry. The 2022 survey includes property segment category for interior designers as licensor properties. This is a small but growing segment of the licensing marketplace. Updated listing of licensing agents and consultants actively working in the industry. New Appendix containing the latest reported court decisions with respect to royalty rates in all facets of the industry, including consumer products, computer technology, telecommunications, plant patents, biotechnology,

video games, music, and reasonable royalty rates.
