 The road was a ribbon of moonlight over the purple moor, And the highwayman came riding- Riding-riding- The highwayman came riding, up to the old inn-door. In Alfred Noyes's thrilling poem, charged with drama and tension, we ride with the highwayman and recoil from the terrible fate that befalls him and his sweetheart Bess, the landlord's daughter. The vivid imagery of the writing is matched by Charles Keeping's haunting illustrations which won him the Kate Greenaway Medal. This new edition features rescanned artwork to capture the breath-taking detail of Keeping's illustrations and a striking new cover.

 Enter once more the world of Roland Deschain—and the world of the Dark Tower...presented in this stunning fourth graphic novel of *The Drawing of the Three* story arc that will unlock the doorways to terrifying secrets and bold storytelling as part of the dark fantasy masterwork and magnum opus from #1 New York Times bestselling author Stephen King. "The man in black fled across the desert, and the gunslinger followed." With these unforgettable words, millions of readers were introduced to Stephen King's iconic character Roland Deschain of Gilead. Roland is the last of his kind, a "gunslinger" charged with protecting whatever goodness and light remains in his world—a world that "moved on," as they say. In this desolate reality—a dangerous land filled with ancient technology and deadly magic, and yet one that mirrors our own in frightening ways—Roland is on a spellbinding and soul-shattering quest to locate and somehow save the mystical nexus of all worlds, all universes: the Dark Tower. Now, in the graphic novel series adaptation Stephen King's *The Dark Tower: The Drawing of the Three*, originally published by Marvel Comics in single-issue form and creatively overseen by Stephen King himself, the full story of Roland's saga continues. Sumptuously drawn by Piotr Kowalski, Jonathan Marks, Juanan Ramirez, and Cory Hamscher, plotted by longtime Stephen King expert Robin Furth, and scripted by New York Times bestselling author Peter David, *The Drawing of the Three* adaptation is an extraordinary and terrifying journey—ultimately introducing a generation of new readers to Stephen King's modern literary classic *The Dark Tower*, while giving longtime fans thrilling adventures transformed from his blockbuster novels.

 NEW YORK TIMES BESTSELLER • "A fascinating look at how consumers perceive logos, ads, commercials, brands, and products."—Time How much do we know about why we buy? What truly influences our decisions in today's message-cluttered world? In *Buyology*, Martin Lindstrom presents the astonishing findings from his groundbreaking three-year, seven-million-dollar neuromarketing study—a cutting-edge experiment that peered inside the brains of 2,000 volunteers from all around the world as they encountered various ads, logos, commercials, brands, and products. His startling results shatter much of what we have long believed about what captures our interest—and drives us to buy. Among the questions he explores: • Does sex actually sell? • Does subliminal advertising still surround us? • Can "cool" brands trigger our mating instincts? • Can our other senses—smell, touch, and sound—be aroused when we see a product? *Buyology* is a fascinating and shocking journey into the mind of today's consumer that will captivate anyone who's been seduced—or turned off—by marketers' relentless attempts to win our loyalty, our money, and our minds.

 Jim ran a profitable lawn mowing business for over twenty years. When he went into business with his son in 1983, there was no book, so they learned everything the hard way, through experience. After retiring in 2005, Jim wrote a guide that cuts right to the heart of the mowing business, showing you how to find customers and keep them happy, and how to operate efficiently, so you'll maximize your profits. As Jim learned, trial and error is slow and very expensive. Early on, they made the same mistakes over and over, spending whole seasons using wrong machines, pursuing wrong goals. You can follow ideas that wreck your profits, and don't even realize you're doing it! The business limps along, earning little or nothing and soon disappears. Every year, Americans spend more than \$100 billion on lawn care. Jim learned to steer a healthy chunk of that money in his direction, and wants to teach you to do the same, opening the door to a lifetime of security and independence. The book is based on the combined experience of Jim and his son, a total of nearly fifty years of full-time mowing. No fantasy, no pie in the sky: Just a sharp focus on the facts and the vital questions, putting you years ahead of your competitors. No wasted time or money. The book includes a Quick Start Guide, so you'll earn maximum profits, starting on the first day.

 "This shocking expose of the CIA operation aimed at destroying the Vietcong infrastructure thoroughly conveys the hideousness of the Vietnam War" (Publishers Weekly). In the darkest days of the Vietnam War, America's Central Intelligence Agency secretly initiated a sweeping program of kidnap, torture, and assassination devised to destabilize the infrastructure of the National Liberation Front (NLF) of South Vietnam, commonly known as the "Viet Cong." The victims of the Phoenix Program were Vietnamese civilians, male and female, suspected of harboring information about the enemy—though many on the blacklist were targeted by corrupt South Vietnamese security personnel looking to extort money or remove a rival. Between 1965 and 1972, more than eighty thousand noncombatants were "neutralized," as men and women alike were subjected to extended imprisonment without trial, horrific torture, brutal rape, and in many cases execution, all under the watchful eyes of US government agencies. Based on extensive research and in-depth interviews with former participants and observers, Douglas Valentine's startling exposé blows the lid off of what was possibly the bloodiest and most inhumane covert operation in the CIA's history. The ebook edition

includes "The Phoenix Has Landed," a new introduction that addresses the "Phoenix-style network" that constitutes America's internal security apparatus today. Residents on American soil are routinely targeted under the guise of protecting us from terrorism—which is why, more than ever, people need to understand what Phoenix is all about.

Understanding Desistance From Crime Wiley

The development of U.S. urban transportation policy over the past 50 years illustrates the changing relationship between federal, state, and local governments. This comprehensive text examines the evolution of urban transportation planning from early developments in highway planning in the 1930s to the concern for sustainable development and pollution emissions. Focusing on major national events, the book discusses the influence of legislation, regulations, conferences, federal programs, and advances in planning procedures and technology. The book offers an in-depth look at the most significant event in transportation planning—the Federal-Aid Highway Act of 1962. Creating a federal mandate for a comprehensive urban transportation planning

process carried out cooperatively by states and local governments with federal funding, this act was crucial in the spread of urban transportation. Claiming that urban transportation planning is more sophisticated, costly, and complex than its highway and transit planning predecessors, the book demonstrates how urban transportation planning evolved in response to changes in such factors as environment, energy, development patterns, intergovernmental coordination, and federal transit programs. It further illustrates how broader concerns for global climate change and sustainable development have braided the purview of transportation planning.

If a machine could predict how you would die, would you want to know? This is the tantalizing premise of *This Is How You Die*, the brilliant follow-up anthology to the self-published bestseller, *Machine of Death*. *THIS IS HOW YOU DIE* Stories of the Inscrutable, Infallible, Inescapable Machine of Death The machines started popping up around the world. The offer was tempting: with a simple blood test, anyone could know how they would die. But the machines didn't give dates or specific circumstances—just a single word or phrase. DROWNED, CANCER, OLD AGE, CHOKED ON A HANDFUL OF POPCORN. And though the predictions were always accurate, they were also often frustratingly vague. OLD AGE, it turned out, could mean either dying of natural causes, or being shot by an elderly, bedridden man in a botched home invasion. The machines held onto that old-world sense of irony in death: you can know how it's going to happen, but you'll still be surprised when it does. This addictive anthology—sinister, witty, existential, and fascinating—collects the best of the thousands of story submissions the editors received in the wake of the success of the first volume, and exceeds the first in every way.
