During American participation in World War I, many events caught the public's attention, but none so much as the plight of the Lost Battalion. Comprising some five hundred men of the Seventy-seventh Division, the so-called battalion was entrapped on the side of a ravine in the Argonne Forest by German forces from October 2 to 7, 1918. The men's courage under siege in the midst of rifle, machine-gun, mortar, and artillery fire (coming both day and night), with nothing to eat after the morning of the first day save grass and roots, and with water dangerous to obtain, has gone down in American history as comparable in heroism to the defense of the Alamo and the stand at the Little Big Horn of the troops of General George A. Custer. Now, in *Five Days in October*, historian Robert H. Ferrell presents new material—previously unavailable—about what really happened during those days in the forest. Despite the description of them as a lost battalion, the men were neither lost nor a battalion. The name was coined by a New York newspaper editor who, upon learning that a sizable body of troops had been surrounded, thought up the notion of a Lost Battalion—it possessed a ring sure to catch the attention of readers. The trapped men actually belonged to companies from two battalions of the Seventy-seventh, and their exact placement was well known, reported by runners at the outset of the action and by six carrier pigeons released by their commander, Major Charles W. Whittlesey, during the five days his men were there. The causes of the entrapment were several, including command failures and tactical errors. The men had been sent ahead of the main division line without attention to flanks, and because of that failure, they were surrounded. Thus began a siege that took the lives of many men, leading to the collapse of the colonel of the 308th Infantry Regiment and, many believe, to the suicide of Major Whittlesey three years later. This book grew out of Ferrell's discovery of new material in the U.S. Army Military History Institute at the Army War

College from the papers of General Hugh A. Drum and in the National Archives in College Park, Maryland. The Drum papers contain the court-martial record of the lieutenant of a machine-gun unit attached to the battalions, who advised Major Whittlesey to surrender, while the Seventy-seventh Division files contain full accounts of the taut relations between the Lost Battalion's brigade commander and the Seventy-seventh's division commander. By including this material, Ferrell gives a new accounting of this intriguing affair. *Five Days in October* will be welcomed by all those interested in a fuller understanding of the story of the Lost Battalion.

An in-depth account of the 1777 campaign that would determine the fate of the British invasion from Canada and America's quest for independence. The crushing British defeat at Saratoga prompted France to recognize the American colonies as an independent nation, declare war on England, and commit money, ships, arms, and men to the rebellion. John Luzader's impressive Saratoga is the first all-encompassing objective account of these pivotal months in American history. The British offensive—under General John Burgoyne—kicked off with a stunning victory at Fort Ticonderoga in July 1777, followed by a sharp successful engagement at Hubbardton. Other actions erupted at Fort Stanwix, Oriskany, and Bennington. However, serious supply problems dogged Burgoyne's column and, assistance from General William Howe failed to materialize. Faced with hungry troops and a powerful gathering of American troops, Burgoyne decided to take the offensive by crossing the Hudson River and moving against General Horatio Gates. The complicated maneuvers and command frictions that followed sparked two major battles, one at Freeman's Farm (September 19) and the second at Bemis Heights (October 7). Seared into the public consciousness as "the battle of Saratoga," the engagements resulted in the humiliating defeat and ultimately the surrender of Burgoyne's entire army. Decades in the making, former National Park Service staff historian John Luzader's Saratoga combines strategic, political, and tactical history into a compelling portrait of this decisive campaign. His sweeping prose relies heavily upon original archival research and the author's personal expertise with the challenging terrain. Complete with stunning original maps and photos, Saratoga will take its place as one of the important and illuminating campaign studies ever written.

Excerpt from King's Mountain and Its Heroes: History of the Battle of King's Mountain, October 7th, 1780, and the Events Which Led to It Ith the siege and fall of Charleston, early in (780, the rude shocks of war were transients! From the Northern and Middle States to the Carolinas and Georgia. Gates, the victor of Saratoga, was sent to command the Southern army but his lucky star failed him, and he was disastrously routed near Camden, and the gallant Sumter shortly after surprised at Fishing Creek. Gloom and dismay overspread the whole Southern country. Detachments from the victorious British army were scattered throughout the settlements; and the rebellious Colonies of the

Carolinas and Georgia were reported to the Home Government as completely humiliated and subdued. Ferguson, one of the ablest of the Royal commanders, was operating on the western borders of the Carolinas, enticing the younger men to his standard, and drilling them for the Royal service. Numbed by grief and harboring shameful secrets, Lt. Adler Paxton ships to England with the US 357th Fighter Group in 1943. Determined to become an ace pilot, Adler battles the German Luftwaffe in treacherous dogfights in the skies over France as the Allies struggle for control of the air before the D-day invasion. Violet Lindstrom wanted to be a missionary, but for now she serves in the American Red Cross, where she arranges entertainment for the men of the 357th in the Aeroclub on base and sets up programs for local children. Drawn to the mysterious Adler, she enlists his help with her work and urges him to reconnect with his family after a long estrangement. Despite himself, Adler finds his defenses crumbling when it comes to Violet. But D-day draws near. And secrets can't stay buried forever. Bestselling author Sarah Sundin returns readers to the shores of

Normandy, this time in the air, as the second Paxton brother prepares to face the past--and the most fearsome battle of his life.
