## HULL CARNEY

### Mindhunter Little A

Whether called black sheep, sociopaths, felons, con men, or misfits, some men break all the rules. They shirk everyday responsibilities, abuse drugs and alcohol, take up criminal careers, and lash out at family members. In the worst cases, they commit rape, murder, and other acts of extreme violence as though they lack a conscience. What makes these men—men we all know, whether as faces in the news or as people close to us—behave the way they do? *Bad Boys, Bad Men* examines antisocial personality disorder or ASP, the mysterious mental condition that underlies this lifelong penchant for bad behavior. Psychiatrist and researcher Donald W. Black, MD, draws on case studies, scientific data, and current events to explore antisocial behavior and to chart the history, nature, and treatment of a misunderstood disorder that affects up to seven million Americans. Citing new evidence from genetics and neuroscience, Black argues that this condition is tied to biological causes and that some people are simply born bad. *Bad Boys, Bad Men* introduces us to people like Ernie, the quintessential juvenile delinquent who had an incestuous relationship with his mother and descended into crime and alcoholism; and John Wayne Gacy, the notorious serial killer whose lifelong pattern of misbehavior escalated to the rape and murder of more than 30 young men and boys. These compelling cases read like medical detective stories as Black tries to separate the lies these men tell from the facts of their lives. *Bad Boys, Bad Men* not only describes the warning signs that predict which troubled children are more likely to become dangerous adults, but also details progress toward treatment for ASP. This volume will be an essential resource for psychiatrists, psychologists, criminologists, victims of crime, families of individuals afflicted with ASP, and anyone else interested in understanding antisocial behavior.

### I Wished Craig Bowley Consultants, Incorporated

Over the course of twenty-five years, Dr. Helen Morrison has profiled more than eighty serial killers around the world. What she learned about them will shatter every assumption you've ever had about the most notorious criminals known to man. Judging by appearances, Dr. Helen Morrison has an ordinary life in the suburbs of a major city. She has a physician husband, two children, and a thriving psychiatric clinic. But her life is much more than that. She is one of the country's leading experts on serial killers, and has spent as many as four hundred hours alone in a room with depraved murderers, digging deep into killers' psyches in ways no profiler before ever has. In *My Life Among the Serial Killers*, Dr. Morrison relates how she profiled the Mad Biter, Richard Otto Macek, who chewed on his victims' body parts, stalked Dr. Morrison, then believed she was his wife. She did the last interview with Ed Gein, who was the inspiration for Alfred Hitchcock's *Psycho*. John Wayne Gacy, the clown-obsessed killer of young men, sent her crazed Christmas cards and gave her his paintings as presents. Then there was Atlanta child killer Wayne Williams; rapist turned murderer Bobby Joe Long; England's Fred and Rosemary West, who killed girls and women in their "House of Horrors"; and Brazil's deadliest killer of children, Marcelo Costa de Andrade. Dr. Morrison has received hundreds of letters from killers, read their diaries and journals, evaluated crime scenes, testified at their trials, and studied photos of the gruesome carnage. She has interviewed the families of the victims -- and the spouses and parents of the killers -- to gain a deeper understanding of the killer's environment and the public persona he adopts. She has also studied serial killers throughout history and shows how this is not a recent phenomenon with psychological autopsies of the fifteenth-century French war hero Gilles de Rais, the sixteenth-century Hungarian Countess Bathory, H. H. Holmes of the late nineteenth century, and Albert Fish of the Roaring Twenties. Through it all, Dr. Morrison has been on a mission to discover the reasons why serial killers are compelled to murder, how they choose their victims, and what we can do to prevent their crimes in the future. Her provocative conclusions will stun you.

### The Killer Across the Table Grand Central Publishing

"Sam, could you do me a favor?" Thus begins a story that has now become part of America's true crime hall of fame. It is a gory, grotesque tale befitting a Stephen King novel. It is also a David and Goliath saga—the story of a young lawyer fresh from the Public Defender's Office whose first client in private practice turns out to be the worst serial killer in our nation's history. Sam Amirante had just opened his first law practice when he got a phone call from his friend John Wayne Gacy, a well-known and well-liked community figure. Gacy was upset about what he called "police harassment" and asked Amirante for help. With the police following his every move in connection with the disappearance of a local teenager, Gacy eventually gave a drunken, dramatic, early morning confession—to his new lawyer. Gacy was eventually charged with murder and Amirante suddenly became the defense attorney for one of America's most disturbing serial killers. It was his first case. This new edition of *John Wayne Gacy*, which contains updated material about the case that has come to light since the book's original publication, recounts the gruesome killings and the famous trial that shocked a nation.

### John Wayne Gacy Ulysses Press

Private detective Michael Kelly is hired by his former partner to solve an eight-year old rape and battery case long gone cold. But when the partner turns up dead, Kelly enlists a team of his savviest colleagues to connect the dots between the recent murder and the cold case it revived: a television reporter whose relationship with Kelly is not strictly professional; his best friend from childhood, a forensic DNA expert; and an old ally from the DA's office. To close the case, Kelly will have to face the mob, a serial killer, his own double-crossing friends, and the mean streets of the city he loves.

### Buried Dreams Penguin

Includes material on "the Trailside Killer in San Francisco, the Atlanta child murderer, the Tylenol poisoner, the man who hunted prostitutes for sport in the woods of Alaska, and Seattle's Green River killer ..."

### The Serial Killer Cookbook Xlibris Corporation

You've heard of Ted Bundy and John Wayne Gacy. But have you heard of Amy Archer-Gilligan? Or Belle Gunness? Or Nannie Doss? Women have committed some of the most disturbing serial killings ever seen in the United States. Yet scientific inquiry, criminal profiling, and public interest have focused more on their better-known male counterparts. As a result, female serial killers have been misunderstood, overlooked, and underestimated. In this riveting account, Dr. Marissa A. Harrison draws on original scientific research, various psychological perspectives, and richly detailed case studies to illuminate the stark differences between female and male serial killers' backgrounds, motives, and crimes. She also emphasizes the countless victims of this grisly phenomenon to capture the complexity and tragedy of serial murder. Meticulously weaving data-based evidence and insight with intimate storytelling, *Just as Deadly* reveals how and why these women murder—and why they often get away with it.

### Ted Bundy: Conversations with a Killer Macmillan

From Chicago historian Adam Selzer, expert on all of the Windy City's quirks and oddities, comes a compelling heavily researched anthology of the stories behind its most fascinating unsolved mysteries. To create this unique volume, Selzer has collected forty unsolved mysteries from the 1800s to modern day. He has poured through all newspaper, magazine, and book references to them, and consulted expert historians. Topics covered include who really started the great Chicago fire, who was the first "automobile murderer," and even if there was actually a vampire slaying at Rose Hill cemetery. The result is both a colorful read to get lost in, a window to a world of curiosity and wonder, as well as a volume that separates fact from fiction—true crime from urban legend. Complementing the gripping stories Selzer presents are original images of the crime and its suspects as developed by its original investigators. Readers will marvel at how each character and crime were presented, and happily journey with Selzer as he presents all facts and theories

presented at the time of the “crime” and uses modern hindsight to assemble the pieces.

**Bad Boys, Bad Men** Union Square & Co.

A comprehensive examination into the frightening true crime history of serial homicide—including information on America’s most prolific serial killers such as: Jeffrey Dahmer • Ted Bundy • “Co-ed Killer” Ed Kemper • The BTK Killer • “Highway Stalker” Henry Lee Lucas • Monte Ralph Rissell • “Shoe Fetish Slayer” Jerry Brudos • “Night Stalker” Richard Ramirez • “Unabomber” Ted Kaczynski • Ed Gein “The Butcher of Plainfield” • “Killer Clown” John Wayne Gacy • Andrew Cunanan • And more... In this unique book, Peter Vronsky documents the psychological, investigative, and cultural aspects of serial murder, beginning with its first recorded instance in Ancient Rome through fifteenth-century France on to such notorious contemporary cases as cannibal/necrophile Ed Kemper, the BTK killer, Henry Lee Lucas, Monte Ralph Rissell, Jerry Brudos, Richard Ramirez, “Unabomber” Ted Kaczynski, Ed Gein, John Wayne Gacy, Ted Bundy, Jeffrey Dahmer, and the emergence of what he classifies as the “serial rampage killer” such as Andrew Cunanan, who murdered fashion designer Gianni Versace. Vronsky not only offers sound theories on what makes a serial killer but also makes concrete suggestions on how to survive an encounter with one—from recognizing verbal warning signs to physical confrontational resistance. Exhaustively researched with transcripts of interviews with killers, and featuring up-to-date information on the apprehension and conviction of the Green River killer and the Beltway Snipers, Vronsky’s one-of-a-kind book covers every conceivable aspect of an endlessly riveting true crime phenomenon. INCLUDES PHOTOGRAPHS

*A Question of Doubt* Union Square & Co.

“I started writing books about and for my friend George Miles because whenever I would speak about him honestly like I am doing now I felt a complicated agony beneath my words that talking openly can’t handle.” For most of his life, Dennis Cooper believed the person he had loved the most and would always love above all others was George Miles. In his first novel in ten years, Dennis Cooper writes about George Miles, love, loss, addiction, suicide, and how fiction can capture these things, and how it fails to capture them. Candid and powerful, *I Wished* is a radical work of shifting forms. It includes appearances by Santa Claus, land artist James Turrell, sentient prairie dogs, John Wayne Gacy, Nick Drake, and George, the muse for Cooper’s acclaimed novels *Closer*, *Frisk*, *Try*, *Guide*, and *Period*, collectively known as “The George Miles Cycle.” In revisiting the inspiration for the Cycle, Dennis has written a masterwork: the most raw, personal, and haunted book of his career. *I Have Lived in the Monster* Open Road Media

Answers to 100 questions teens ask about God, science, morality, and other worldview issues.

*The Many Lives of Scary Clowns* Everest Media LLC

The case was closed, but for journalist Nancy Rommelmann, the mystery remained: What made a mother want to murder her own children? On May 23, 2009, Amanda Stott-Smith drove to the middle of the Sellwood Bridge in Portland, Oregon, and dropped her two children into the Willamette River. Forty minutes later, rescuers found the body of four-year-old Eldon. Miraculously, his seven-year-old sister, Trinity, was saved. As the public cried out for blood, Amanda was arrested, convicted, and sentenced to thirty-five years in prison. Embarking on a seven-year quest for the truth, Rommelmann traced the roots of Amanda’s fury and desperation through thousands of pages of records, withheld documents, meetings with lawyers and convicts, and interviews with friends and family who felt shocked, confused, and emotionally swindled by a woman whose entire life was now defined by an unspeakable crime. At the heart of that crime: a tempestuous marriage, a family on the fast track to self-destruction, and a myriad of secrets and lies as dark and turbulent as the Willamette River.

*Destination Gacy* Simon and Schuster

From the #1 New York Times bestselling author of *The Stranger Beside Me* comes a true crime story of a serial killer who was sentenced to die—yet lived to murder again....and again.... After committing his first grisly crime, Harvey Louis Carignan beat a death sentence and continued to manipulate, rape, and bludgeon women to death, using want ads to lure his young female victims. And time after time, justice was thwarted by a killer whose twisted legal genius was matched only by his sick savagery. Complete with the testimony of the officers who put him behind bars and the women who barely escaped with their lives, *The Want-Ad Killer* is one of the most shattering and thought-provoking true-crime stories of our time.

*Boys Enter the House* Simon and Schuster

THE CHICAGO KILLER: The Hunt For Serial Killer John Wayne Gacy is the story of the capture of John Wayne Gacy, as told from the perspective of the former Chief of Detectives of the Des Plaines, Illinois Police Department, Joseph Kozenczak. The conviction of Gacy on 33 counts of murder is significant in the archives of the criminal justice system in the United States. Two additional articles give the reader a comprehensive insight into the use of psychics and the lie-detector in a serial murder investigation.

This unique collection of case studies introduces readers to many of the common yet extraordinary social problems in contemporary American society. Employing a symbolic interaction approach to the case studies, the authors identify the origins of the problems, define the issues, and explore the outcomes and potential remedies. The case studies themselves introduce readers to the very personal side of the problems as the emotions, actions, and perceptions of the subjects are revealed and analyzed. The problems studied here are organized into three categories— health-related issues, family issues, and behavior beyond the boundaries—and include many problems that often receive too little attention in the existing literature, making this book an original and timely contribution. Each of the three sections is preceded by a general review of the chapters to follow and offers readers a prelude to the exploration of human thought, language, and behavior captured and illustrated in the case studies. In the first section of the book, problems covered include suicide, anorexia nervosa, alcohol and drug abuse, and AIDS/STDs. The second section covers teenage mothers, domestic violence, divorce and poverty, child support and deadbeat dads, and homelessness. The last section focuses on sexual harassment, equal protection and racial exclusion, prostitution, career criminals, mass murder, and serial killers. This book represents a fresh new approach and a welcome addition to the study of social problems in America today.

*Answers to Your Kids' Questions* Tyndale House Publishers, Inc.

*Johnny and Me* is a true story about my childhood experiences growing up in the northwest side of Chicago with John Wayne Gacy. This story details the everyday life experiences in my and Johnnys homes. Details of our families are in the book along with the understanding of each of our parents as they raised us in the 1940s and 1950s. Many of these stories included are of my personal life before Johnny came on the scene in order to let the reader understand my point of view as my life unfolded. I have tried to show you the Johnny that I remember as a childhood friend and I hope that I have been as accurate as I can be on this subject. Various moments of joy, anger, and fear are shared between the two of us as we tried to have a normal childhood in the midst of anxiety and confusion that was brought on by our fathers abuse of alcohol and demanding personalities. The story portrays how our environments molded our characters and helped us to make choices in our adult lives. Details regarding our reactions to everyday events supply hints of how Johnny and I would function in our separate social worlds as we matured. Johnnys possessive nature is described as we went playing normal childhood games and making new friends. His religious experiences are mentioned and a complete description of his controlling personality is shared as one of Johnnys ways to cope with his surroundings. Other details of Johnnys life are revealed such as his early desire to be in the spotlight of social applause. The book concludes with my personal emotions about a friend whose life went the wrong way. His childhood, along with my own, could have been different.
