For thirty years starting in the mid-1970s, the byline of Jim Dooley appeared on riveting investigative stories of organized crime and political corruption that headlined the front page of Honolulu's morning daily. In *Sunny Skies, Shady Characters*, James Dooley revisits highlights of his career as a hard-hitting investigative reporter for the Honolulu Advertiser and, in later years, for KITV television and the online Hawaii Reporter. His lively backstories on how he chased these high-profile scandals make fascinating reading, while providing an insider's look at the business of journalism and the craft of investigative reporting. Dooley's first assignment as an investigative journalist involved the city housing project of Kukui Plaza, which introduced him to the "pay to play" method of awarding government contracts to obliging consultants. In later stories, he scrutinized bloody struggles over illicit gambling revenue, the murder of a city prosecutor's son, local syndicate ties to the Teamsters Union, and the dealings of

Bishop Estate. His groundbreaking coverage of the forays by yakuza into Hawaii and the continental United States were the first of its kind in American journalism. As Dooley pursued stories from the underside of island society, names of respected public figures and those of violent criminals filled his notebook: entertainer Don Ho, U.S. Senator Daniel Inouye, Governors George Ariyoshi and Ben Cayetano, Mayor Frank Fasi, and notorious felons Henry Huihui, Nappy Pulawa, and Ronnie Ching. Woven throughout is the name of Big Island rancher Larry Mehau—was he the "godfather of organized crime" in Hawaii as alleged by the FBI, or simply an ex-cop who befriended power brokers in the course of doing business for his security guard firm? The book includes a timeline of Mehau's activities to allow readers to judge for themselves.

Culture is dependent upon intertextuality to fuel the consumption and production of new media. The notion of intertextuality has gone through many iterations, but what remains constant is its stalwart application to bring to light what audiences value through the marriages of disparate ideology and references. Videogames, in particular, have a longstanding tradition of weaving texts together in multimedia formats that interact directly with players.

Contemporary Research on Intertextuality in Video Games brings together game scholars to analyze the impact of video games through the lenses of transmediality, intermediality, hypertextuality, architextuality, and paratextuality. Unique in its endeavor, this publication discusses the vast web of interconnected texts that feed into digital games and their players. This

book is essential reading for game theorists, designers, sociologists, and researchers in the fields of communication sciences, literature, and media studies.

This book presents a comprehensive examination of Chinese consumer behaviour and challenges the previously dichotomous interpretation of the consumption of Western and non-Western brands in China. The dominant position is that Chinese consumers are driven by a desire to imitate the lifestyles of Westerners and thereby advance their social standing locally. The alternative is that consumers reject Western brands as a symbolic gesture of loyalty to their nation-state. Drawing from survey responses and in depth interviews with Chinese consumers in both rural and urban areas, Kelly Tian and Lily Dong find that consumers situate Western brands within select historical moments. This embellishment attaches historical meanings to Western brands in ways that render them useful in asserting preferred visions of the future China. By highlighting how Western brands are used in contests for national identity, *Consumer-Citizens of China* challenges the notion of the "patriot's paradox" and answers scholars' questions as to whether Chinese nationalists today allow for a Sino-Western space where the Chinese can love China without hating the West.

*Consumer-Citizens of China* will be of interest to students and scholars of business studies, Chinese and Asian Studies and Political Science. Kelly Tian is Professor of Marketing and holds the Anderson Chair of Business at New Mexico State University. Lily Dong is Associate Professor of Marketing at the University of Alaska at Fairbanks.

The crises--and failures--of modernization in Japan, as seen up close by a resident expert Japan is a nation in crisis, and the crisis goes far beyond its well-known economic plight. In *Dogs and Demons*, Alex Kerr chronicles the crisis on a broad scale, from the failure of Japan's banks and pension funds to the decline of its once magnificent modern cinema. The book takes up for the first time in the Western press subjects such as the nation's endangered environment--its seashores lined with concrete, its roads leading to nowhere in the mountains. It describes Japan's "monument frenzy," the destruction of old cities such as Kyoto and construction of drab new cities, and the attendant collapse of the tourist industry. All these unhealthy developments are, Kerr argues, the devastating boomerang effect of an educational and bureaucratic system designed to produce manufactured goods--and little else. A mere upturn in economic growth will not quickly remedy these severe internal problems, which Kerr calls a "failure of modernism." He assails the foreign experts who, often dependent on Japanese government and business support, fail to address these issues. Meanwhile, what of the Japanese people themselves? Kerr, a resident of Japan for thirty-five years, writes of them with humor and passion, for "passion," he says, "is part of the story. Millions of

Japanese feel as heartbroken at what is going on as I do. My Japanese friends tell me, 'Please write this--for us.'

"This book provides the most expert, up-to-date, and multidisciplinary analyses on how the contemporary media function in that is rapidly becoming the world's largest market. As the West, particularly the United States, tries to integrate China into the 'civilized world' through the extension of global capitalism, Chinese Media, Global Contexts examines how globalizing forces clash with Chinese nationalism to shape China's media discourses and ideology. Conversely, this book also asks if the media provide a site and forum for contestation between different social classes and ideologies in China."--Back cover.

But there's one wall she has no control over—the one that separates her and Kyler Fellan's gym lockers. That's right, Brynn opens her locker only to find herself face-to-face with the shirtless abs of the school's star football player and resident flirt. While
