"We wrote this book because our primary sense of who we are as professionals is that we are teachers. We play various roles in our careers, but we are especially dedicated to our students. We want them to listen, read, create, and evaluate more effectively as a result of their experience in a business law class. Above all, we want them to sense the importance and excitement of the law. We want them to be aware that business resides in an atmosphere of legal rights and responsibilities. The more they have an understanding of relevant law, the more their business activities will flourish. We tried to construct a book that contains the basics of business law but does not get bogged down in the kind of details that would be more appropriate in an upper-level law class. This sixth edition continues and advances the pedagogical strengths of earlier editions. As difficult as it is to recall what it is like to know almost nothing about business law, we tried repeatedly to force ourselves to remember that the text is for students, not for us to reveal our previous training. Toward that end, we have simplified and clarified as often as we could"--

Understanding Business Global Edition by Nickels, McHugh, and McHugh has been the number one textbook in the introduction to business market for several editions for three reasons: (1) The commitment and dedication of an author team that teaches this course and believes in the importance and power of this learning experience, (2) we listen to our customers, and (3) the quality of our supplements package. We consistently look to the experts - full-time faculty members, adjunct instructors, and of course students - to drive the decisions we make about the text itself and the ancillary package. Through focus groups, symposia, as well as extensive reviewing of both text and key ancillaries, we have heard the stories of more than 600 professors and their insights and experiences are evident on every page of the revision and in every supplement. As teachers of the course and users of their own materials, the author team is dedicated to the principles of excellence in business education. From providing the richest most current topical coverage to using dynamic pedagogy that puts students in touch with today's real business issues, to creating groundbreaking and market-defining ancillary items for professors and students alike, Understanding Business leads the way.

*The Business School Buzz Book* Houghton Mifflin

Libby/Libby/Short wrote this text based on their belief that the subject of financial accounting is inherently interesting, but financial accounting textbooks are often not. They believe most financial accounting textbooks fail to demonstrate that accounting is an exciting field of study and one that is important to future careers in business. When writing this text, they considered career relevance as their guide when selecting material, and the need to engage the student as their guide to style, pedagogy, and design. Libby/Libby/Short is the only financial accounting text to successfully implement a real-world, single focus company approach in every chapter. Students and instructors have responded very favorably to the use of focus companies and the real-world financial statements. The companies chosen are engaging and the decision-making focus shows the relevance of financial accounting regardless of whether or not the student has chosen to major in accounting.

3 things to know about the focus of Dynamic Business Law, 3e: -Emphasis on ETHICAL DECISION-MAKING. In chapter 2, the authors introduce a framework for making ethical business decisions that students can use on a regular basis. Following each case there are questions designed to train students to apply this approach. Then repeatedly throughout the chapters, questions about business

ethics are raised in the text. This framework is designed to help improve the learning process of students and to give a sense of relevancy to the ethical decision making process. -Emphasis on CRITICAL THINKING. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in Dynamic Business Law as well - to help students learn how to frame and reframe a question/issue. Critical thinking questions are also included at the end of each case, to further tie in this component. -Emphasis on the BUSINESS in business law. Dynamic Business Law emphasizes the tie of legal issues back to the core business curriculum. This will help both students and faculty. Students need to understand how the concepts they learn in this course tie into their business careers. Instructors can easily show that the study of business law is best seen as a foundational component of the larger study of business administration.

Almost a centennial. What is now the Stern School began in 1900 as training for people entering the New York financial markets, but like all good marketers, Gitlow anticipates the event. He provides an institutional history of the undergraduate school through the 1980s and the graduate school 1960-90, examines external evaluations and accreditation, student life, the alumni, and the school's outlook. *Audit Committees: A Guide for Directors, Management, and Consultants* is presented in a non-technical, easy-to-read format, especially for: directors serving on audit committees; other members of the board of directors; CEOs, CFOs, and in-house legal counsel; internal and external auditors; outside legal counsel; other consultants to audit committees. *Audit Committees: A Guide for Directors, Management, and Consultants*, with all post-Sarbanes-Oxley developments, is coauthored by legal and accounting professionals with hands-on experience. One of the authors has organized, chaired and participated in a number of audit committees, while the other has been involved in issues relating to internal control, fraud, illegal acts, materiality, and required communications to audit committees. *Audit Committees: A Guide for Directors, Management, and Consultants* covers subjects rarely discussed, such as the process for terminating an external auditor. It emphasizes the importance of regular evaluations of audit committee performance to help make the audit committee more effective and efficient.

Have you ever thought what your life may be like as you age and what technology will be available to you at that time? In *The AgeTech Revolution: A Book about the Intersection of Aging and Technology*, author Keren Etkin takes us on a journey to understand the social, political, economical, and physical implications of aging and its impact on the world of technology. Etkin interviews older adults, tech start-up founders and designers, and entrepreneurs, amongst others, to discover what the landscape today looks like and what the hope is five, ten, fifteen years down the road. We learn that, in the past, older adults have been left out of the equation. Technology has been made for

their use but without including them in the design process. This is gradually changing. Technology is becoming a must, not a maybe. Our eyes will be opened to what the future could hold in the world of technology. *AgeTech Revolution* provides us with the data and perspective necessary to help change our communities to be more inclusive and supportive of older adults.

**The Sage Handbook of Survey Development and Application** Wheatmark, Inc.

In 2007, Raymond's life changed forever when he received a phone call that his four-year-old daughter, Bella became paralyzed overnight. Bella was diagnosed with stage 4, cancer. Experts the world over believed that Bella would never walk again and had only a few months to live. By miracle, today Bella can walk, run, jump, and is cancer free! Why Not Me? describes, in a very inspirational tone, how Raymond believes there is a divine purpose for everything. Raymond is an executive who dedicates his free time to helping cancer families and others to live lives of purpose, balance & victory. He holds the title of Sir. Knight in the Knights of Columbus and enjoys giving back to his community. He lives in Miami with his daughters and his wife Shannah. Bella's story illustrates the power of prayer and that God does exist and is alive in our world. This book, which describes the officially investigated miracle "story behind the story", is sure to inspire you! "Rarely do you find a story that underscores how great God is and how He is moved by simple unrelenting faith and sincere prayer. Why Not Me? will bring you to tears and then touch you with a joy that only happens when you have witnessed a miracle. As you walk with Bella on this amazing trip, her words will rekindle your faith and challenge you to trust God. If you have never believed, you will surely wonder why you haven't. If you believe, here's another reason why we do." Joel Downing, Senior Pastor, Higher Ground Church, Paul's Valley, Oklahoma "As a physician trained in pediatric imaging

often diagnosing terrible diseases, witnessing Bella's miracle challenged me to re-examine my own faith. Why Not Me? stands as a powerful witness to God's call for us to be faithful. No matter your faith or lack of it, this story as told through the eyes, ears, and heart of a loving father will move you closer to God." Shawn Fibkins, MD, Pediatric Radiologist, Broward County, Florida

You asked for it - you got it! Based on the market leading gold standard product, Nickels, Understanding Business 12e, Understanding Business: The Core 2e provides a fully revised product with fewer chapters. Reviewers asked for fewer chapters and to include a chapter on using technology, particularly social media. Understanding Business: The Core 2e is now 16 chapters. Here's how we did it: • Chapter 1, Taking Risks and Making Profits within the Dynamic Business Environment, and Chapter 2, Understanding Economics, were condensed and combined to create Chapter 1, Exploring the Business Environment and Economics. The coverage of current trends was deleted since it is covered in other chapters. • Chapter 11, Human Resource Management: Finding and Keeping the Best Employees, and Chapter 12, Dealing with Employee-Management Issues, were condensed and combined to create Chapter 10, Human Resource Management: Finding and Keeping the Best Employees. • Chapter 16, Financial Management, was combined with Chapter 17, Using Securities Markets for Financing and Investing Opportunities, to create Chapter 15, Financial Management. This revised chapter retains the material about selling stocks and bonds to raise capital. The content about investing in stocks and bonds was moved to Bonus Chapter C Managing Personal Finances and Investing. • Bonus Chapter B, Using Technology to Manage Business, was expanded and promoted to the main text as Chapter 13, Using Technology to Manage Information. • Bonus Chapter C, Managing Personal Finance and Investing, was expanded to include a condensed version of the content regarding investing in stocks and bonds that was moved from the former Securities Markets chapter.
