In America, liberalism brings prosperity to the majority? False. In America, "anything is possible" for those who work hard? False. In America, the unemployment rate is minimal? False. In America, poverty is relative and the poor live "like modest Europeans?" False. In America, those excluded from the health care system receive free care when they really need it? False—really false. In an excellent investigation, with clear and relevant examples, Michel Desmurget shatters the myth of a beautiful and prosperous America where everyone can succeed as long as they are hardworking and courageous. Taking the opposite view of the current dominant discourse on the virtues of the Anglo-Saxon liberal model, the author writes a disconcerting antithesis, based on American researchers, sociologists and journalists who have studied the failures of the American model and who, for the most part, recommend surprisingly European solutions (universal social security, introduction of a minimum wage indexed to inflation, federalized education, etc.). Michel

Desmurget is a doctor of neuropsychology. He attended several major American universities (MIT, Emory, UCSF) and is now a research director at INSERM in cognitive neuroscience. He is particularly interested in the problems of brain organization and plasticity. He is the author of the book *TV Lobotomy* (Max Milo, 2022), which is based in part on his personal history. Exasperated by having to constantly justify the choice not to have television at home—and to prevent his children from having access to it—and not to be seen as a sociopath in the eyes of those around him, he has done a massive job to argue his point.

Mad in USA Simon and Schuster

This provocative history of the largest annual Chinese celebration in the United States—the Chinese New Year parade and beauty pageant in San Francisco—opens a new window onto the

evolution of one Chinese American community over the second half of the twentieth century. In a vividly detailed account that incorporates many different voices and perspectives, Chiou-ling Yeh explores the origins of these public events and charts how, from their beginning in 1953, they developed as a result of Chinese business community ties with American culture, business, and politics. What emerges is a fascinating picture of how an ethnic community shaped and was shaped by transnational and national politics, economics, ethnic movements, feminism, and queer activism.

Sarah Banet-Weiser complicates the standard feminist take on beauty pageants in this intriguing look at a hotly contested but enduringly popular American ritual. She focuses on the Miss America pageant in particular, considering its claim to be an accurate representation of the diversity of contemporary American women. Exploring the cultural constructions and legitimations that go on during the long process of the pageant, Banet-Weiser depicts the beauty pageant stage as a place where concerns about national identity, cultural hopes and desires, and anxieties about race and gender are crystallized and condensed. The beauty pageant, she convincingly demonstrates, is a profoundly political arena deserving of serious study. Drawing on cultural criticism, ethnographic research, and interviews with pageant participants and officials, *The Most Beautiful Girl in the World* illustrates how contestants invent and reinvent themselves while articulating the female body as a national body. Banet-Weiser finds that most pageants are characterized by the ambivalence of contemporary "liberal" feminism, which encourages individual achievement, self-

determination, and civic responsibility, while simultaneously promoting very conventional notions of beauty. The book explores the many different aspects of the Miss America pageant, including the swimsuit, the interview, and the talent competitions. It also takes a closer look at some extraordinary Miss Americas, such as Bess Myerson, the first Jewish Miss America; Vanessa Williams, the first African American Miss America; and Heather Whitestone, the first Miss America with a disability.

A fresh exploration of American feminist history told through the lens of the beauty pageant world. Many predicted that pageants would disappear by the 21st century. Yet they are thriving. America's most enduring contest, Miss America, celebrates its 100th anniversary in 2020. Why do they persist? In *Here She Is*, Hilary Levey Friedman reveals the surprising ways pageants have been an empowering feminist tradition. She traces the role of pageants in many of the feminist movement's signature achievements, including bringing women into the public sphere, helping them become leaders in business and politics, providing increased educational opportunities, and giving them a voice in the age of #MeToo. Using her unique perspective as a NOW state president, daughter to Miss America 1970, sometimes pageant judge, and scholar, Friedman explores how pageants became so deeply embedded in American life from their origins as a P.T. Barnum spectacle at the birth of the suffrage movement, through Miss Universe's bathing beauties to the talent- and achievement-based competitions of today. She looks at how pageantry has morphed into culture everywhere from *The Bachelor* and *RuPaul's Drag Race* to cheer and specialized contests like those for children, Indigenous women, and contestants with disabilities. Friedman also acknowledges the damaging and unrealistic expectations pageants place on women in society and discusses the controversies, including Miss America's ableist and racist history, Trump's ownership of the Miss Universe Organization, and the death of child pageant-winner JonBenét Ramsey. Presenting a more complex narrative than what's been previously portrayed, *Here She Is* shows that as American women continue to evolve, so too will beauty pageants.
