The main purpose of the book is to explore basic music theory so thoroughly that the interested student will then be able to easily pick up whatever further theory is wanted. Music history and the physics of sound are included to the extent that they shed light on music theory. The main premise of this course is that a better understanding of where the basics come from will lead to better and faster comprehension of more complex ideas. It also helps to remember, however, that music theory is a bit like grammar. Catherine Schmidt-Hones is a music teacher from Champaign, Illinois and she has been a pioneer in open education since 2004. She is currently a doctoral candidate at the University of Illinois in the Open Online Education program with a focus in Curriculum and Instruction.

Guitar for the Absolute Beginner, Complete Hal Leonard Corporation

This series isn't intended for a self-instructional setting; the exercises include accompaniments for a teacher to play along with the student(s) but its content is comprehensive enough that it could be used for self-instruction as well. The writing is basic and straightforward, without the pally or occasionally hackneyed presentation of some of the other series profiled here. Of all these series, this along with Carl Fischer's "ABC's of Strings" book and DVD series by Janice Tucker Rhoda (which is an ongoing series but has no new or forthcoming 2009 titles) is probably the most traditional in instructional style. For adults. New for 2009: Bass 101 (ISBN 978-0-7390-5695-0), Guitar 101 (ISBN 978-0-7390-5694-3), and Keyboard 101 (ISBN 978-0-7390-5693-6).
