An American Sunrise: Poems

Jossey-Bass

This volume provides the reader with an increased understanding of benchmarking in the community college sector. It should be of interest to community college faculty and staff engaged in continuous assessment and institutional improvement efforts, as well as university faculty and graduate students studying community college policy and practice. While giving an overview of benchmarking and illustrating its growth within community college assessment, this volume provides four examples of national benchmarking initiatives designed specifically for two-year institutions; describes how the data from those initiatives are being used for assessment, institutional improvement, planning, management, and decision making; and discusses benchmarking 's costs, benefits, and limitations. This is the 134th volume of New Directions for Community Colleges, a quarterly journal published by Jossey-Bass. Click here to view the entire list of New Directions for Community Colleges titles.

University of Oklahoma Press

On September

13, 1965, Tacoma Community College opened its doors to the public. The founding of the College was the culmination of four years of coordinated effort, steadfast leadership and grassroots community support. Built around the idea that educational opportunity is a critical component of a thriving community, TCC set forth on a mission to bring high-quality, affordable

education to all, without regard to means or circumstance. Over the next 50 years, as thousands of students passed through the open door to previously unavailable opportunity and achievement, the strength and resilience of this simple idea would be tested. Through economic hardship, social upheaval, changing job markets and times of crisis both global and local,

Tacoma Community College would prove to be an enduring educational institution. This is the story of TCC, as told by the students, faculty, staff and community leaders who helped to build, develop and defend Tacoma's open door college.

Springer Freeman, is your go-to resource for practical, up-to-date guidance on

ocular diseases, surgical procedures, medications, and equipment, as well as paramedical procedures and office management in the ophthalmology, optometry, opticianry or eye care settings. Thoroughly updated content and more than 1,000 full-color illustrations cover all the knowledge and skills you need for your day-to-day duties as well as success on

certification and recertification exams. This comprehensive text provides essential learning and practical guidance for ophthalmic assistants, technicians, medical technologists, physician assistants, and all others involved in ocular care, helping each become a valuable asset to the eye care team. Full-color visual guidance for identification of ophthalmic disorders,

explanations of difficult concepts, and depictions of the newest equipment used in ophthalmology and optometry. Quick-reference appendices provide hospital/practice forms for more efficient patient record keeping, conversion tables, and numerous language translations, plus information on ocular emergencies, pharmaceuticals, and more. Updated throughout

with the latest information on basic science, new testing procedures, new equipment, the role of the assistant in the practice, and an expanded chapter on OCT imaging. A new bonus color image atlas tests your clinical recognition of disease and disorders of the eye. Four brand-new chapters cover the latest industry advances regarding dry eye, vision function and impairment, uveitis, and

surgical correction of presbyopia. *The College Board College Cost & Financial Aid Handbook* W. A survey of life on the nation's campuses offers detailed profiles of the best colleges and rankings of colleges in sixty-two different categories, along with a wealth of information and applications tips. *Art is a Tyrant* Peterson's Concepts of Biology is designed for the single-semester introduction to biology course for non-science majors, which for many students is

their only college-level science course. As such, this course represents an important opportunity for students to develop the necessary knowledge, tools, and skills to make informed decisions as they continue with their lives. Rather than being mired down with facts and vocabulary, the typical non-science major student needs information presented in a way that is easy to read

and understand. Even more importantly, the content should be meaningful. Students do much better when they understand why biology is relevant to their everyday lives. For these reasons, Concepts of Biology is grounded on an evolutionary basis and includes exciting features that highlight careers in the biological sciences and everyday applications of the concepts

at hand. We also strive to show the interconnectedness of topics within this extremely broad discipline. In order to meet the needs of today's instructors and students, we maintain the overall organization and coverage found in most syllabi for this course. A strength of Concepts of Biology is that instructors can customize the book, adapting it to the approach that works best in their classroom.

Concepts of Biology also includes an innovative art program that incorporates critical thinking and clicker questions to help students understand-- and apply-- key concepts.

 In 1921 Tulsa's Greenwood District, known then as the nation's "Black Wall Street," was one of the most prosperous African

American communities in the United States. But on May 31 of that year, a white mob, inflamed by rumors that a young black man had attempted to rape a white teenage girl, invaded Greenwood. By the end of the following day, thousands of homes and businesses lay in ashes, and perhaps as many as three hundred people were dead. Tulsa, 1921 shines new light into the shadows that have long been cast over

this extraordinary instance of racial violence. With the clarity and descriptive power of a veteran journalist, author Randy Krehbiel digs deep into the events and their aftermath and investigates decades-old questions about the local culture at the root of what one writer has called a white-led pogrom. Krehbiel analyzes local newspaper accounts in an unprecedented effort to

gain insight into the minds of contemporary Tulsans. In the process he considers how the Tulsa World, the Tulsa Tribune, and other publications contributed to the circumstances that led to the disaster and helped solidify enduring white justifications for it. Some historians have dismissed local newspapers as too biased to be of value for an honest account, but by

contextualizing their reports, Krehbiel renders Tulsa's papers an invaluable resource, highlighting the influence of news media on our actions in the present and our memories of the past. The Tulsa Massacre was a result of racial animosity and mistrust within a culture of political and economic corruption. In its wake, black Tulsans were denied redress and even the right

to rebuild on their own property, yet they ultimately prevailed and even prospered despite systemic racism and the rise during the 1920s of the second Ku Klux Klan. As Krehbiel considers the context and consequences of the violence and devastation, he asks, Has the city—indeed, the nation—exorcised the prejudices that led to this tragedy? UN

 'A diligently researched, beautifully produced and insistently sympathetic biography.'
 Kathryn Hughes, Guardian A new biography

of the wildly unconventional 19th-century animal painter and gender equality pioneer Rosa Bonheur, from the author of the acclaimed *Mistress of Paris* and Renoir's *Dancer*. Rosa Bonheur was the very antithesis of the feminine ideal of 19th-century society. She was educated, she shunned traditional 'womanly' pursuits, she rejected marriage - and she wore trousers. But the society whose rules

she spurned accepted her as one of their own, because of her genius for painting animals. She shared an intimate relationship with the eccentric, self-styled inventor Nathalie Micas, who nurtured the artist like a wife. Together Rosa, Nathalie and Nathalie's mother bought a chateau and with Rosa's menagerie of animals the trio became one of the most extraordinary households of

the day. Catherine Hewitt's compelling new biography is an inspiring evocation of a life lived against the rules.

Based on a totally different way of thinking about, understanding, and acting to increase transfer student success, The

Transfer Experience goes far beyond the traditional, limited view of transfer as a technical process simply about articulating credits, a stage of student development, or a novel enrollment management strategy. Rather, the book introduces a stimulating array of new perspectives, resources, options, models, and recommendations for addressing the many

needs of this huge cohort - making the academic, civic, and social justice cases for improving transfer at both transfer-sending and transfer-receiving institutions.

Making College Affordability a Priority Icon Books

A stunning new volume from the first Native American Poet Laureate of the United States, informed by her tribal history and connection to the land. In

the early 1800s, the Mvskoke people were forcibly removed from their original lands east of the Mississippi to Indian Territory, which is now part of Oklahoma.

Two hundred years later, Joy Harjo returns to her family's lands and opens a dialogue with history. In *An American Sunrise*, Harjo finds blessings in the abundance of her homeland and confronts the site where her people, and other

indigenous families, essentially disappeared. From her memory of her mother's death, to her beginnings in the native rights movement, to the fresh road with her beloved, Harjo's personal life intertwines with tribal histories to create a space for renewed beginnings.
