In the middle years of the Great Depression, Erskine Caldwell and photographer Margaret Bourke-White spent eighteen months traveling across the back roads of the Deep South--from South Carolina to Arkansas--to document the living conditions of the sharecropper. Their collaboration resulted in *You Have Seen Their Faces*, a graphic portrayal of America's desperately poor rural underclass. First published in 1937, it is a classic comparable to Jacob Riis's *How the Other Half Lives*, and James Agee and Walker Evans's *Let Us Now Praise Famous Men*, which it preceded by more than three years. Caldwell lets the poor speak for themselves. Supported by his commentary, they tell how the tenant system exploited whites and blacks alike and fostered animosity between them. Bourke-White, who sometimes waited hours for the right moment, captures her subjects in the shacks where they lived, the depleted fields where they plowed, and the churches where they worshipped.

This day in June... Parade starts soon... Rainbow arches... Joyful marches! In a wildly whimsical, validating, and exuberant reflection of the LGBT community, *This Day In June* welcomes readers to experience a pride celebration and share in a day when we are all united. Also included is a Reading Guide chock-full of facts about LGBT history and culture, as well as a Note to Parents and Caregivers with information on how to talk to children about sexual orientation and gender identity in age-appropriate ways. *This Day In June* is an excellent tool for teaching respect, acceptance, and understanding of lesbian, gay, bisexual, and transgender people.

[You Have Seen Their Faces](#) Simon and Schuster

The preeminent chronicle of the most important day in the twentieth century.

[D-Day](#) Simon and Schuster

On the basis of 1,400 oral histories from the men who were there, bestselling author and World War II historian Stephen E. Ambrose reveals for the first time anywhere that the intricate plan for the invasion of France in June 1944 had to be abandoned before the first shot was fired. The true story of D-Day, as Ambrose relates it, is about the citizen soldiers - junior officers and enlisted men - taking the initiative to act on their own to break through Hitler's Atlantic Wall when they realised that nothing was as they had been told it would be. D-DAY is the brilliant, no holds barred, telling of the battles of Omaha and Utah beaches. Ambrose relives the epic victory of democracy on the most important day of the twentieth century.

\*\*\* 'If you only read one book about the Falklands make sure it's this one.' - Soldier magazine 'An extraordinarily detailed account of the bloodiest battle of the Falklands war.' - Major General Jonathan Shaw CB CBE When 3 Para began their assault under cover of darkness on Mount Longdon in June 1982, nobody knew what to expect. The three platoons of B Company each approached the mountain silently, treading carefully through a series of defensive minefields. But following an explosion, fighting quickly escalated with shocking speed and severity, resulting in some of the bloodiest close hand fighting, terrible injuries, and shocking loss of life experienced by British troops since the Korean war. Recreating 3 Para's bloody Falklands battle from multiple angles, James O'Connell - who fought there and was seriously injured himself - has written a gut-wrenching 360 degree classic. Frustrated by highly inaccurate books about the battle, O'Connell decided to set the record straight. What he did next was extraordinary - he revisited the Falkland's five times with comrades and Argentine soldiers and literally walked through the battle with them, step-by-step, creating an unprecedented masterpiece of immersive military publishing. Combined with rare access to the Battalion's records and radio logs, the resulting book is the last word on Mount Longdon, and might be the most harrowingly realistic description of modern warfare you will ever read.

*Yoghurt: A Global History* is a fascinating look at the rich history of yoghurt, from its earliest awakenings in Neolithic times to the modern-day culinary phenomenon it has become. The book delves into its nutritious properties, analyzes worldwide consumption, and explores the new developments in yoghurts, including non-dairy varieties, on-the-go options, and its impact in China, Europe, and North America. Highlighting scientific studies and offering practical guidance, June Hersh helps us better understand the plethora of yoghurt products available. She also provides step by step instructions on how to make foolproof homemade yoghurt, as well as mouthwatering international recipes.

"So you're the little woman who wrote the book that made this great war." -Abraham Lincoln to Harriet Beecher Stowe *Uncle Tom's Cabin* is an anti-slavery novel published in 1852, which had a profound effect on attitudes toward African Americans and slavery in the U.S. and is said to have "helped lay the groundwork for the Civil War". When a compassionate landowner decides to sell two slaves-Uncle Tom and Eliza-in order to raise funds, the lives of the two slaves follow divergent paths. While Eliza escapes to eventual freedom, Uncle Tom is repeatedly sold until he ends up working on the prosperous Legree plantation, where his very life becomes forfeit to his violent master. This book is credited with helping fuel the abolitionist cause in the 1850s. A True Classic and Required Reading

for all Lovers of American History!

*American History a Day at a Time - June* Gray Rabbit Publishing

Chronicles the events, politics, and personalities of this pivotal day in World War II, shedding light on the strategies of commanders on both sides and the ramifications of the battle.

**A Great Day in the History of Berlin** Pacifica Press

NEW YORK TIMES BESTSELLER • The first comprehensive account of the epoch-making Six-Day War, from the author of *Ally*—now featuring a fiftieth-anniversary retrospective Though it lasted for only six tense days in June, the 1967 Arab-Israeli war never really ended. Every crisis that has ripped through this region in the ensuing decades, from the Yom Kippur War of 1973 to the ongoing intifada, is a direct consequence of those six days of fighting. Writing with a novelist's command of narrative and a historian's grasp of fact and motive, Michael B. Oren reconstructs both the lightning-fast action on the battlefields and the political shocks that electrified the world. Extraordinary personalities—Moshe Dayan and Gamal Abdul Nasser, Lyndon Johnson and Alexei Kosygin—rose and toppled from power as a result of this war; borders were redrawn; daring strategies brilliantly succeeded or disastrously failed in a matter of hours. And the balance of power changed—in the Middle East and in the world. A towering work of history and an enthralling human narrative, *Six Days of War* is the most important book on the Middle East conflict to appear in a generation. Praise for *Six Days of War* "Powerful . . . A highly readable, even gripping account of the 1967 conflict . . . [Oren] has woven a seamless narrative out of a staggering variety of diplomatic and military strands."—The New York Times "With a remarkably assured style, Oren elucidates nearly every aspect of the conflict. . . . Oren's [book] will remain the authoritative chronicle of the war. His achievement as a writer and a historian is awesome."—The Atlantic Monthly "This is not only the best book so far written on the six-day war, it is likely to remain the best."—The Washington Post Book World "Phenomenal . . . breathtaking history . . . a profoundly talented writer. . . . This book is not only one of the best books on this critical episode in Middle East history; it's one of the best-written books I've read this year, in any genre."—The Jerusalem Post "[In] Michael Oren's richly detailed and lucid account, the familiar story is thrilling once again. . . . What makes this book important is the breadth and depth of the research."—The New York Times Book Review "A first-rate new account of the conflict."—The Washington Post "The definitive history of the Six-Day War . . . [Oren's] narrative is precise but written with great literary flair. In no one else's study is there more understanding or more surprise."—Martin Peretz, Publisher, The New Republic "Compelling, perhaps even vital, reading."—San Jose Mercury News

Births, deaths and marriages, No1 singles, drug busts and arrests, famous gigs and awards... all these and much more appear in this fascinating 50 year almanac. Using a page for every day of the calendar year, the author records a variety of rock and pop events that took place on a given day of the month across the years. *This Day in Music* is fully illustrated with hundreds of pictures, cuttings and album covers, making this the must-have book for any pop music fan.

**On This Date** iMinds Pty Ltd

On two consecutive days in June 1963, in two lyrical speeches, John F. Kennedy pivots dramatically and boldly on the two greatest issues of his time: nuclear arms and civil rights. In language unheard

in lily white, Cold War America, he appeals to Americans to see both the Russians and the "Negroes" as human beings. His speech on June 10 leads to the Limited Nuclear Test Ban Treaty of 1963; his speech on June 11 to the Civil Rights Act of 1964. Based on new material—hours of recently uncovered documentary film shot in the White House and the Justice Department, fresh interviews, and a rediscovered draft speech—*Two Days in June* captures Kennedy at the high noon of his presidency in startling, granular detail which biographer Sally Bedell Smith calls "a seamless and riveting narrative, beautifully written, weaving together the consequential and the quotidian, with verve and authority." Moment by moment, JFK's feverish forty-eight hours unspools in cinematic clarity as he addresses "peace and freedom." In the tick-tock of the American presidency, we see Kennedy facing down George Wallace over the integration of the University of Alabama, talking obsessively about sex and politics at a dinner party in Georgetown, recoiling at a newspaper photograph of a burning monk in Saigon, planning a secret diplomatic mission to Indonesia, and reeling from the midnight murder of Medgar Evers. There were 1,036 days in the presidency of John F. Kennedy. This is the story of two of them.

**Two Days in June** Createspace Independent Publishing Platform

Settling America - A Pioneer History of America has one history lesson a day in the settlement of early America. This June edition covers the historical events of June. The stories include both famous historical events and many little known, obscure facts. This frontier history includes the following articles about America's origins: June 6, 1586 - Sir Francis Drake Raid on St. Augustine June 7, 1767 - Daniel Boone First Sights Kentucky June 12, 1771 - Patrick Gass Born - Lewis and Clark Expedition June 19, 1754 - Franklin Heads Pennsylvania Delegation to Albany Congress June 25, 1758 - Lunar Eclipse - First Astronomical Event Recorded In American Colonies

*The Longest Day* Wentworth Press

The story behind D-Day begins in 1939 when Nazi Germany, led by Adolf Hitler, attacked Poland and ignited World War Two. The following year, the Germans occupied France and Western Europe and launched a vicious air war against Britain. In 1941, they invaded the Soviet Union. Seemingly

unstoppable, the Nazis now held virtually all of Europe. They imposed a ruthless system of control and unleashed the horror of the Holocaust. However, by 1943, the tide had begun to turn in favor of the Allies, the forces opposed to Germany. In the east, despite huge losses, the Soviets began to force the Germans back.

This Day in June

[Andrew Carnegie Speaks to the 1%](#) Createspace Independent Publishing Platform

Learn the history of the American colonies and its frontier by reading a daily lesson in American colonial history each day. This is the June installment of the 2015 edition of the series *American History a Day at a Time*. This edition covers the historical events of the American colonial frontier that happened in June. *American History a Day at a Time - June 2015* focuses on the colonial period of American history. During this time, the British, Spanish and French established colonies on the North American frontier. The establishment of these colonies had profound effects on the local Amerindian population. The colonies also played a role in European Wars as the powers jockeyed for supremacy. The European colonial history of the North American frontier began in the Fifteenth century. It continued until the beginning of the American Revolution in 1775. The history of the colonial frontier era of settlement is one of histories' most fascinating stories. If you have ever read those "This Day in History" headings in newspapers and on a multitude of websites, you may wonder at the stories behind those brief headlines. *American History a Day at a Time - June 2015* seeks to do just that, explore the story behind the headlines. Humankind has a history stretching back thousands of years. During this time a huge accumulation of historical events has occurred. This volume deals with dates in June and focuses on the Colonial frontier period of American History. The history series, *American History a Day at a Time* seeks to make this vast accumulation of historical knowledge less intimidating. It does this by reducing it to a history lesson a day. By reading and contemplating one event a day, we have the time to try to understand those events that unfolded on those long ago days. Further volumes will cover American history as it unfolds, day by day.
