*The Pegan Diet* Rodale

In this book, Olympian Jeff Galloway details how to set up a training program,

how to monitor progress, and how to schedule each workout. Included are 52 weeks of daily journal entries, with data analysis tables. Jeff Galloway tells how to set up a successful training program to avoid injury, improve endurance, and run faster. Galloway's "magic mile" is used to predict performance and set a safe pace for long runs. Specific run-walk-run strategies are set up based upon the runner's current ability. Galloway details how to use the training journal to schedule long runs, drills, speed workouts, rest days, etc. The 52-week journal is easy to use and easy to analyze. This new edition is characterized by a modern and more practice-oriented design that facilitates logging your progress as a runner. In this way, it might help you to keep your motivation.

Twelve-time New York Times bestselling author Mark Hyman, MD, presents his unique Pegan diet—including meal plans, recipes, and shopping lists. For decades, the diet wars have pitted advocates for the low-carb, high-fat

paleo diet against advocates of the exclusively plant-based vegan diet and dozens of other diets leaving most of us bewildered and confused. For those of us on the sidelines, trying to figure out which approach is best has been nearly impossible—both extreme diets have unique benefits and drawbacks. But how can it be, we've asked desperately, that our only options are bacon and butter three times a day or endless kale salads? How do we eat to reverse disease, optimal health, longevity and performance. How do we eat to reverse climate change? There must be a better way! Fortunately, there is. With The Pegan Diet's food-is-medicine approach, Mark Hyman explains how to take the best aspects of the paleo diet (good fats, limited refined carbs, limited sugar) and combine them with the vegan diet (lots and lots of fresh, healthy veggies) to create a delicious diet that is not only good for your brain and your body, but also good for the planet. Featuring thirty recipes and plenty of infographics illustrating the concepts, The Pegan Diet offers a balanced and easy-to-follow approach to eating

that will help you get, and stay, fit, healthy, focused, and happy—for life.

Have you always wanted to learn to run and experience the life-changing benefits of running? Or have you tried to start running in the past, but just couldn't stick with it? Maybe you thought you weren't meant to be a runner, or just didn't have the time, energy, motivation, or willpower to keep running. Whether you're brand-new to running, tried it in the past without much success, or you just can't get into a running groove, RUN FOR GOOD gives you a comprehensive roadmap to starting and maintaining a lifelong running habit. Based on her years of experience as a runner, certified running coach and trainer, and fitness writer/researcher, author Christine Luff gives you an expert-guided, step-by-step plan for creating an enduring running habit. In this book, you'll learn: -Tips on how to run, what to wear, and how to make running easier -How to establish a habit loop to make running part of your regular routine -How to deal with inevitable setbacks and roadblocks that pop up -How to run

smartly and safely with the right training schedules -Tips, tricks, and effective strategies to stay motivated to keep running -Strategies for racing, proper nutrition, injury prevention to keep your running habit going - How to avoid issues and problems that have derailed your healthy habits in the past -Advice on how to make running a rewarding and fun part of your life. This ultimate guide to running will get you started on the right foot with running, help you develop (or re-discover) a love and gratitude for running, and inspire and motivate you to keep running - for good.

In the RUNNING society most people will tell you what 9-MILERS are doing is IMPOSSIBLE. Running

solid marathons without those endless long and slow 18+ mile training runs. Yet it's happening EVERY DAY! 9-Milers are the REBELS. The 'Crazy Ones'. The round pegs in the square holes. They're NOT fond of the traditional running rules. 9-Milers CHANGE things. They PUSH things FORWARD. You can't ignore them. 9-MILERS want to HAVING IT ALL. Living a busy LIFE with work, FAMILY and friends, AND enjoy the THRILL of running marathons at THE BIG EVENTS. Feeling GREAT. POWERFUL. Finish STRONG. FIT. Maybe even FASTER than they EVER thought POSSIBLE. Author and founder of 9MILER4LIFE Marlies Kort, 2h47 marathon finisher and Ironman 70.3 World Champion F40-44, doesn't want to CHANGE the way you're training today. With The 9-Mile Marathon Training System Marlies Kort wants to replace it with something TOTALLY NEW; training, running and 'living' The 9-Miler Way.

**Formula** Rodale Shed unwanted pounds and keep them off ONCE AND FOR ALL with Run Your Butt Off!, a back-to-basics, test panel-approved weight-

loss plan and beginners' running program that yields sustainable, healthy results. The Run Your Butt Off! program is founded on the simple concept that in order to lose weight, calories burned must exceed calories consumed. No gimmicks, no shortcuts, no silver bullets can circumvent that reality. With this program, you'll learn to burn fat from both sides of the weight-loss equation—the calories in and the calories out—at the same time. Run Your Butt Off! will make you fitter, stronger, and leaner.

Human Kinetics For any runner considering training for a half marathon, author and running coach Jeff Galloway can help you prepare to train, enjoy training, and cross the finish line strong. In this book, Olympian Jeff Galloway outlines for each runner how to select a realistic goal and what workouts to use to best prepare for the race. He includes tips for staying motivated while at the same time eliminating aches, pains, and injuries. He also assures runners that their training will not completely consume their time so that they can

train successfully while still enjoying other aspects of life. The author's successful and unique run-walk-run training method has helped thousands of average people train for half marathons, even if they have never run before. Using this program, even veteran runners can improve their personal bests. With this book, every runner will be given a step-by-step guide on setting up their training each week so that they will finish the half marathon strong!

Old-school marathon training plans ask runners to crank out 70 to 100 miles a week. It's no wonder those who make it to the start line are running ragged. Smart Marathon Training maps out a healthier, more economical approach to training that emphasizes quality over quantity. With more than 75 detailed exercises plus six easy-to-follow training plans for half and full marathons, Smart Marathon Training will get you to the starting line feeling refreshed and ready to run your best race yet. This innovative program eliminates junk

miles, paring down training to three essential runs per week and adding a dynamic strength and cross-training program to build overall fitness.

Runners will train for their best performance in less time and avoid the injuries, overtraining, and burnout that come from running too much. Smart Marathon Training builds up a runner's body to resist injury. Runners gain the strength they need to run long using functional exercises that target the hips, glutes, and quads. Running is a full-body sport, so this training program also builds a strong core and upper body to avoid injuries that begin above the waist. No one fakes a marathon or half-marathon--everyone has to do the work. But Smart Marathon Training replaces long, grinding miles with low-impact cross-training. Horowitz outlines a cycling plan to complement run workouts, boosting base fitness while saving runners' bodies for their best runs.

Fuel up like 2017 New York City Marathon Champion Shalane Flanagan. From world-class marathoner and 4-time Olympian Shalane Flanagan and chef Elyse Kopecky comes a whole foods, flavor-forward cookbook—and New York Times bestseller—that proves food can be indulgent and nourishing at the same time. Finally here's a cookbook for runners that shows fat is essential for flavor and performance and that counting calories, obsessing over protein, and restrictive dieting does more harm than good. Packed with more than 100 recipes for every part of your day, mind-blowing nutritional wisdom, and inspiring stories from two fitness-crazed women that became fast friends over 15 years ago, Run Fast. Eat Slow. has all the bases covered. You'll find no shortage of delicious meals, satisfying snacks, thirst-quenching drinks, and wholesome treats—all made without refined sugar and flour. Fan favorites include Can't Beet Me Smoothie, Arugula Cashew Pesto,

High-Altitude Bison Meatballs, Superhero Muffins, Kale Radicchio Salad with Farro, and Double Chocolate Teff Cookies.

In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls “grit.”

“Inspiration for non-geniuses everywhere” (People). The daughter of a scientist who frequently noted her lack of “genius,” Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In *Grit*, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating

insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she’s learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. “Duckworth’s ideas about the cultivation of tenacity have clearly changed some lives for the better” (The New York Times Book Review). Among *Grit*’s most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Winningly personal, insightful, and even life-changing, *Grit* is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is “a fascinating tour of the psychological research on success” (The Wall Street Journal).

“I don’t have time to run.” “The run will hurt or make me tired.” “I don’t have my running shoes with me.” “I’ve got too much work to do.” If you’re always looking for any excuse to not go running, this book is for you! Whether you’re an athlete or just want to stay fit and exercise, you need to train your mind just as much as you train your body! It’s easy to find excuses and stay at home, but with Jeff Galloway’s mental training strategies you will find yourself staying motivated and setting and reaching new goals in no time. Jeff will help you break down your challenges into smaller steps so your next goal seems more achievable. You will learn to overcome each challenge and problem and reduce stress. You will be able to go out for your run even on tough days, after an injury or illness, or when your running buddy isn’t around. In the end, you will break through barriers and stay in control and at the top. In this book, you will find many useful tips on how to deal with stress. Jeff describes typical everyday situations and how to go out and run even if your brain is making up

excuses; he explains drills to help you rehearse a good response to those excuses so that over time you will change your habits; he presents training tools that will lower your stress and help you learn to set realistic goals. In addition, Jeff posits that in order to stay motivated, it is important to have good running technique. A section on better technique will help you run better and achieve your next goal. Finally, Jeff shows how using a journal can benefit your exercise regime and assist you in keeping track of your progress and the highs and lows of your training schedules. Mental Training for Runners will put you on the path to a positive mental environment and will turn your mind, body, and spirit into a powerful team and tool. After reading and learning from this book, there will only ever be one answer to any challenge: "I can do it!"

Chi Marathon Rodale Books

Inspiration and practical tips for runners who prioritize enjoyment over pace and embrace their place as an "average" runner In her first book, popular runner blogger Amanda Brooks lays out the path to finding greater

fulfillment in running for those who consider themselves "middle of the pack runners" -- they're not trying to win Boston (or even qualify for Boston); they just want to get strong and stay injury-free so they can continue to enjoy running. Run to the Finish is not your typical running book. While it is filled with useful strategic training advice throughout, at its core, it is about embracing your place in the middle of the pack with humor and learning to love the run you've got without comparing yourself to other runners. Mixing practical advice like understanding the discomfort vs. pain, the mental side of running, and movements to treat the most common injuries with more playful elements such as "Favorite hilarious marathon signs" and "Weird Thoughts We all Have at the Start Line," Brooks is the down-to-earth, inspiring guide for everyone who wants to be happier with their run.

Finally, runners at all levels can improve their race times while training less, with the revolutionary Furman Institute of Running and

Scientific Training (FIRST) program. Hailed by the Wall Street Journal and featured twice in six months in cover stories in Runner's World magazine, FIRST's unique training philosophy makes running easier and more accessible, limits overtraining and burnout, and substantially cuts the risk of injury, while producing faster race times. The key feature is the "3 plus 2" program, which each week consists of: -3 quality runs, including track repeats, the tempo run, and the long run, which are designed to work together to improve endurance, lactate-threshold running pace, and leg speed -2 aerobic cross-training workouts, such as swimming, rowing, or pedaling a stationary bike, which are designed to improve endurance while helping to avoid burnout With detailed training plans for 5K, 10K, half marathon, and marathon, plus tips for goal-setting, rest, recovery, injury rehab and prevention, strength training, and nutrition, this program will change the way runners think about and train for competitive races. Amby Burfoot, Runner's World executive editor and

Boston Marathon winner, calls the FIRST training program "the most detailed, well-organized, and scientific training program for runners that I have ever seen."
