Postsecondary Admissions & Financial Assistance Handbook Empowering Students Through Enhanced Financial Counseling Act Strengthening Transparency in Higher Education Act Financial Assistance by Geographic Area Keeping College Within Reach Financial Aid for College Students: Undergraduate This bulletin reports information about scholarships, loans, and opportunities for employment available to undergraduate students at colleges and universities throughout the country for the year 1955-56. It is the third in a series of reports based on a current study which the Office of Education is making in response

to continuing demand for information about financial aids available to students in institutions of higher education. The data for the individual institutions in the present bulletin were obtained by means of a questionnaire, a copy which was sent to 1,848 institutions listed in the 1955-56 Directory. An index is included. Individual sections contain footnotes. [Best copy available has been provided.]. institutions in the United States and its outlying areas that offer at least a 2-year program of college-level studies in residence or, if nonresident in nature, that are accredited or pre-accredited by an accrediting agency recognized for such purpose by the U.S. Commissioner of Education. Higher Education: Handbook of Theory and Research 13

The credentials environment grows more complicated by the day, but key questions help us understand why we need this book to help us grapple with those complexities: • Given the expansion in the variety of higher education credentials and in approaches to earning them, why are

so many students disappointed with their post-secondary credentials? • Despite the proliferation of credentials tailored to specific careers, why do so many employers complain that the preparation of their new hires is inadequate? • Despite their investment in new programs meant to attract new enrollees, why are so many colleges and universities facing issues with student persistence, timely credential completion, and career success? The plan of the book reflects the authors' practical aim. In the first of three parts, they offer a broad view of the credentials environment—how credentials work, how a proliferation in

credentials has created an unprecedented array of educational choices, and why this abundance is a mixed blessing. In the second part, they focus on categories of credentials, from the associate degree to doctoral degrees to non-degree credentials. The book concludes with two chapters that consider the implications of the information the authors provide for leadership in volatile times: one discusses the importance of maintaining a priority on equity; the other offers 12 propositions for action. To help make the book useful, each chapter begins with a paragraph that summarizes the emphases to follow, and ends with a list of initiatives, i.e.,

“takeaways,” that leaders (and those attentive to what leaders are doing) should consider.

The Michigan Transfer Scholarship

Guide Springer

Science & Business Media

Lists institutions in the United States and its outlying areas that offer at least a 2-year program of college-level studies in residence or, if nonresident in nature, that are accredited or pre-accredited by an accrediting agency recognized for such purpose by the U.S. Commissioner of Education.

Consumer Education in the Human Services

Rowman & Littlefield Publishers

Describes the financial aid opportunities at more than three

thousand two- and four-year colleges, accompanied by additional resources, a planning calendar, worksheets, itemized charts, and cost-saving tips.

Green Careers in Energy: 25 Two-Year Schools with Great Green Energy-Related Programs

Peterson's

Consumer Education in the Human Services: A Social Policy Book focuses on the trends in consumer education and inclusion of the human services sector, aside from budgeting and purchase of goods, among the considerations in consumer education. The selection first offers information on consumers in the service society and consumer education and advocacy,

including the service society, activating consumers, and models of consumer education. The text also looks at consumer education from the feminist perspective. Topics include feminist housing, transportation, and medical care. The manuscript ponders on low-income consumers and disabled consumers as enabled producers, as well as facts regarding low-income service consumers and poor consumers in the 1970s. The text also concentrates on health care, self-care and health planning, and costs of medical care. Private insurance discrimination, flaws of family-related insurance coverage, and women and the health delivery system

are discussed. The book is a valuable source of information for readers interested in consumer education.

Decision Making for Student Success

Routledge

The MICHIGAN

TRANSFER

SCHOLARSHIP GUIDE

helps people plan their college education and

better make the

decision to transfer

between schools.

Everyone seeking a

college education--

from older non-

traditional students, to

high school graduates--

can benefit from the

information in this

book. In today's world

most college students

do not stay at on

institution for their

entire education.

Transferring for better

programs, better

prices, and better

living arrangements is

becoming much more common. The transfer system and how it can benefit the average person is described here. Available scholarships, housing requirements, tuition prices, and how credits transfer are discussed in great detail.

Financial Aid handbook

featuring over three

thousand four-year and two-year colleges, descriptions of their financial aid packages, tuition costs, and scholarship programs.

Education Directory

Andrew Watts

Each year, many students with affordable college options and the academic skills needed to succeed do not enroll at all, enroll at institutions where they are not well-positioned for success, or drop out of college before earning a credential. Efforts to address these challenges have included changes in financial aid policy, increased availability of information, and enhanced academic support. This volume argues that the efficacy of these strategies can be improved by taking

account of contemporary research on how students make choices. In *Decision Making for Student Success*, scholars from the fields of behavioral economics, education, and public policy explore contemporary research on decision-making and highlight behavioral insights that can improve postsecondary access and success. This exciting volume will provide scholars, researchers, and higher education administrators with valuable perspectives and low-cost strategies that they can employ to improve outcomes for underserved populations.

Green Careers in Energy

This bulletin reports information about scholarships, loans,

and opportunities for employment available to undergraduate students at colleges and universities throughout the country for the year 1955-56. It is the third in a series of reports based on a current study which the Office of Education is making in response to continuing demand for information about financial aids available to students in institutions of higher education. The data for the individual institutions in the present bulletin were obtained by means of a questionnaire, a copy which was sent to 1,848 institutions listed in the 1955-56 Directory. Resources in Education

Looking for a two-year school with great green programs? As part of Peterson's Green Careers in Energy, this eBook offers profiles of 25 community colleges from throughout the United States-all with notable campus sustainability programs as well as "green" energy-related academic programs. *Reviving Our Economy* Published annually since 1985, the Handbook series provides a compendium of thorough and integrative literature reviews on a diverse array of topics of interest to the higher education scholarly and policy communities. *Two-Year Colleges - 2010* Peterson's Two-Year

Colleges 2011 includes information on nearly 2,000 accredited two-year undergraduate institutions in the United States and Canada, as well as some international schools. It also includes scores of detailed two-page descriptions written by admissions personnel. College-bound students and their parents can research two-year colleges and universities for information on campus setting, enrollment, majors, expenses, student-faculty ratio, application deadline, and contact information. SELLING POINTS: Helpful articles on what you need to know about two-year colleges: advice on transferring and returning to school for adult students; how to survive standardized tests; what international students need to know about admission to U.S. colleges; and how to manage paying for college State-by-state summary table allows comparison of institutions by a variety of characteristics, including enrollment, application requirements, types of financial aid available, and numbers of sports and majors offered Informative data profiles for nearly 2,000 institutions, listed alphabetically by state (and followed by other countries) with facts and figures on majors, academic programs, student life, standardized tests, financial aid, and applying and contact information Exclusive two-page in-depth

descriptions written by college administrators for Peterson's Indexes offering valuable information on associate degree programs at two-year colleges and four-year colleges-easy to search alphabetically

College Board Guide to Getting Financial Aid

This book analyzes the emerging body of research on student success in an accessible and readable way that community college

leaders will find interesting and relevant. To illustrate the connections between research and practice, case studies are drawn from community colleges that are engaging in reform.
