Women's sport in general has gained an increasingly higher profile and level of respect in recent years, and it is becoming widely acknowledged that a female athlete's training programmes will differ in several respects from that of their male counterparts. Despite this, there is a dearth of research evidence available to coaches and athletes to guide the planning and programming process, with limited comparisons of training adaptations between the genders and in particular, a lack of investigation into elite female performers. *Strength and Conditioning for Female Athletes* contains insights from various experts in this specialised area. This text outlines specifically what is and what isn't known regarding female athlete development, and exposes the gaps that currently exist in the academic literature, with practical examples of applied practice. Coaches, sports scientists and athletes themselves will find here a wealth of useful information, with topics including: needs analysis; programme design for the basic biomotor abilities; speed and agility; long-term athlete development; the menstrual cycle and gender-specific injuries.

This book was written for both hockey player and coach. Hockey has been a passion of mine since early childhood. I was born and raised in Canada and relocated to the United States in 1990. Hockey has been the fabric of our family tree. From youth hockey to having the opportunity to play at the minor professional level, I have enjoyed this great game and the life lessons it has instilled along the way. It was during my career in university where coaching became a passion. I loved the weight room, the preparation, and the process. It was, and still is, a place of solace for me—a classroom. My love for strength and conditioning was born in the sweaty confines of the Miami (OH) strength and conditioning facility located in Oxford, Ohio, and run by then strength and conditioning coach Dan Dalrymple. Coach D instilled pride, work ethic, and belief in his athletes. Our two-thousand-square foot weight room was a place of preparation, competition, and embodied the team-first spirit. At that instant, I knew my calling was to serve as a coach. I owe much gratitude and appreciation to Coach D. He was a mentor to me! Thanks, Coach, your imprint has

left an indelible mark.
