The Law And The Promise: Man is all Imagination!

(1st edition, 12pt/Georgia font.) by Neville

Goddard. The future will not be fundamentally different from the imaginal activities of man; therefore, the individual who can summon at will whatever imaginal activity he pleases and to whom the visions of his imagination are as real as the forms of nature, is master of his fate. The future is the imaginal activity of man in its creative march. Imagining is the creative power not only of the poet, the artist, the actor and orator, but of the scientist, the inventor, the merchant and the artisan. Its abuse in unrestrained unlovely image-making is obvious; but its abuse in undue repression breeds a sterility which robs man of actual wealth of

experience. Imagining novel solutions to ever more complex problems is far more noble than to run from problems. Life is the continual solution of a continuously synthetic problem. Imagining creates events. The world, created out of men's imagining, comprises unnumbered warring beliefs; therefore, there can never be a perfectly stable or static state. Today's events are bound to disturb yesterday's established order. Imaginative men and women invariably unsettle a pre-existing peace of mind. "Neville may eventually be recognized as one of the world's great mystics." -Joseph Murphy, author of *The Power of Your Subconscious Mind* "A popular speaker on metaphysical themes from the late '30s until his death in 1972, Neville authored ten books in which he captured the sheer logic of creative mind principles. His work has impacted me in a very profound way; in fact, he's been a great mentor to me in the past few years." -Dr. Wayne Dyer in *Wishes Fulfilled* "Neville may be the positive-thinking movement's most radical and subtly influential

voice." -Mitch Horowitz, Time.com "Of all the metaphysical systems with which I am acquainted, Neville's is the most magical." -Israel Regardie "The words of spiritual teacher Neville Goddard retain their power to electrify... Neville captured the sheer logic of creative mind principles as perhaps no other figure of his era." - Science of Mind magazine

An anthology of the greatest writings of modern mystic, Neville Goddard, who has enthralled a new generation of readers with his simple but radical principle that your imagination is God. This broad-ranging anthology assembles the greatest works of Neville Goddard,

who, writing under the sole name Neville, became one of the most quietly seismic spiritual philosophers of the modern age. From the late 1930s until his death in 1972, Neville promulgated one basic, extraordinary idea, which he restated with freshness and verve in more than ten books and hundreds of lectures: The human imagination is the Jesus Christ of Scripture, and the world around you is the out-picturing of your emotionalized thoughts. Here is an unparalleled journey into the ideas and methods of a profoundly practical spiritual thinker whose vision of life can challenge your concept of what it means to be human. This volume features a rare personal portrait of Neville by journalist and philosopher Israel Regardie. Includes these classic works: Introduction: Neville: A Portrait by Israel Regardie (1947) Your Faith Is Your Fortune (1941) Freedom for All: A Practical Application of the Bible (1942) Feeling is the Secret (1944) Prayer: The Art of Believing (1945) The Search (1946) Out of this World: Thinking Fourth-Dimensionally (1949) The Power of Awareness (1952)

Awakened Imagination (1954) Seedtime and Harvest: A Mystical View of the Scriptures (1956) The Law and the Promise (1961)

Before The Law of Attraction there was Neville Goddard and his message about changing reality through the power of the imagination. The author of ten inspirational books, Goddard was a popular speaker on metaphysical themes. In his 1952 publication The Power of Awareness, he voiced many of the ideas that are now in the mainstream of contemporary self-help circles, including the concept that your thoughts control your destiny and that in order to change your current physical state you must first change your mind. His ten easy exercises help readers cultivate a positive attitude that makes all things possible. This edition features another of Goddard's empowering titles, Awakened Imagination, in which the author expounds upon his belief that Christ is within each of us and can help us achieve our desires through imaginative effort. Goddard

illuminates his philosophy with quotations from Yeats, Blake, and the Bible as well as inspiring anecdotes of his personal experiences.

This book offers a compact guide and an explanation of how we can best use the Law of Assumption according to Neville Goddard for ourselves and the life of our dreams. Those who study the Law of Assumption face many questions: What is the best method for me? When should I use it? How often and for how long? Lullaby or scene technique? Congratulatory scene or telephone technique? What is the first principle? What pearl is Neville talking about and why should I buy it? What does it mean that there is only one cause? How am I to know what the fulfilled wish feels like? Neville Goddard's texts are often difficult to understand - especially for beginners. The two authors have therefore endeavoured to make Goddard's texts more accessible and have answered many of the questions that may arise. *The Law and the Promise (Includes Rare Lecture, "Sami's Question."*

Includes two bonus Lectures (The Spiritual Cause, The Second Vision) Neville Goddard (Born February, 15, 1905 in Barbados) was known as one of the most influential teachers in the New Thought movement for many years. He gave hundreds of lectures all over the United States and even had his own TV show in Los Angeles in the 50's! His philosophy states that we create our reality by our thoughts or by the human imagination. The Second Vision: No matter what it is, start with a job or a house that seems beyond your reach, and then live in the feeling that you have it. In the degree that you are faithful to these images you are preparing the way for the coming of the Child. I place my image in a garden (Eden), and then out of it comes a river and it parts into four sections. It is not actually water. If I wanted to realize my dream, what must I do to make it real so I can share

it with this, my shadow world called man? I must know the taste and touch and sight and sound of what it would be if it were true.

Only as one is willing to give up his present limitations and identity can he become that which he desires to be.-Neville Goddard Neville Goddard (1905-1972) was among the last century's most articulate, profoundly influential teacher, new thought author and mystic who wrote on the Bible, esotericism and is considered to be one of the pioneers of the "law of assumption". Possessed of a self-educated and uncommonly sharp intellect, Neville captured the sheer logic of creative-mind principles as perhaps no other figure of his era. This collection

The Law And The Promise (Includes Rare Lecture, "Sami's Question.") (1st edition, 12pt/Georgia font.) by Neville Goddard. 7x10 Paperback, matte finish cover. Sami's Question Snippet: Sami: I have been living by your teachings, and have had many wonderful things that I imagined come to pass. I imagined financial prosperity and it doesn't seem to have come to pass, at least not as I imagined it. What should I do? Neville: This question is not just Sami's question; it is a question we all must answer, as every day all of us are called upon to witness to the truth of God. And when something doesn't

seem to happen as we expected and imagined it to be, then we have to find out what has happened and do the right thing to get a better result. The word Satan means doubt. Desiring a certain state, reason may tell you it will be difficult to attain. If you listen to your reason, and doubt your desires, Satan has made himself known to you. And this happens to all of us.  Neville Goddard (Born February, 15, 1905 in Barbados) was a metaphysical teacher who taught the law of attraction through lectures given on television, radio, books, and live in front of an audience. For years he was one of the most influential teachers on manifestation or on how our imagination creates reality in an almost literal way. Snippet: At the end of my day, I review the day; I don't judge it, I simply review it. I look over the entire day, all

the episodes, all the events, all the conversations, all the meetings, and then as I see it clearly in my mind's eye, I rewrite it. I rewrite it and make it conform to the ideal day I wish I had experienced. I take scene after scene and rewrite it, revise it, and having revised my day, then in my imagination I relive that day, the revised day, and I do it over and over in my imagination until this seeming imagined state begins to take on to me the tones of reality. It seems that it's real, that I actually did experience it and I have found from experience that these revised days, if really lived, will change my tomorrows.
