(You're slow on the uptake) This book is an informal compendium of Indonesian expressions, including proverbs, slang, quotations and acronyms. The unique aspects of the Indonesian language offer one of the best windows into Indonesian culture. Slang, titles, proverbs, nicknames, acronyms, quotations and other expressions reveal its character, in

the words of its people and are a great way to learn Indonesian culture. This book of expressions looks at Indonesia with the help of its national language, bahasa Indonesia. It describes Indonesians and their fears, beliefs, history and politics, as well as how they live, fight, grieve and laugh. Indonesian is a variant of Malay, the national language of Malaysia, and many of its expressions come from the Malay heartland of Sumatra island. Indonesian has also incorporated terms from Javanese, the language of the dominant ethnic group in a huge nation of more than 17,000 islands. Although Indonesian is officially a young language,

it contains words from Sanskrit, Arabic, Chinese, Dutch, Portuguese and English, a legacy of the merchants, warriors, laborers and holy men who traveled to the archipelago over the centuries. The Indonesian language was a nationalist symbol during the campaign against Dutch rule in the 20th century. Indonesians who fought against colonialism made it the national language in their constitution when they declared independence in 1945. Two generations later, modern Indonesians love word play. The tongue slips and skids, chopping words, piling on syllables and flipping them. Indonesians turn phrases into acronyms, and construct double meanings. Their inventions reflect social trends, mock authority, or get a point across in a hurry. This book

divides Indonesian expressions into categories such as food and wisdom, politics and personalities. The format is the same in each chapter. An expression in Indonesian, or sometimes a regional language in Indonesia, is followed by a translation, an interpretation of the meaning, and usually a summary of the idiom's origin or background. Some translations are more literal than others, reflecting an effort to balance clarity of meaning with the flavor of the original words.

Bali's shadow puppet theater, like others in Southeast Asia, is a complex tradition with many conventions that puzzle Western observers. Mary Zurbuchen demonstrates how the linguistic codes of this rich art form mediate between social groups, cultural influences, historical periods, and conceptual schemes. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. First published in 1937, *Island of Bali* is still regarded by many as the most authoritative text on Bali and its fascinating people. Included is a wealth of information on the daily life, art, customs and religion of this magical Island of the Gods. In the author's own words it presents a bird's-eye view of Balinese life and culture. Miguel Covarrubias, the author, was a noted

painter and caricaturist as well as a student of anthropology. He lived in Bali for a total of three years in the early 1930s, and today his account is as fresh and insightful as it was when it was originally published. Introducing the island with a survey of its history, geography and social structure, Covarrubias goes on to present a captivating picture of Balinese art, music and drama. Religion, witchcraft, death and cremation are also covered. *Island of Bali* will appeal to anyone with interest in this unique island, from general readers to serious anthropologists alike. Complementing the text are 90 drawings by Covarrubias and countless others by Balinese artists. Also included are 114 half-tone photographs, and five full-color paintings by the

author.

This is a concise and user-friendly guide to the Balinese language. *Everyday Balinese* is targeted to anyone who wishes to learn to speak colloquial Balinese. There are 23 lessons in the book, each with a dialogue that centers around the Balinese daily life. These realistic beginner Balinese dialogues are a great way to learn Balinese as it is really spoken. The dialogue is presented twice: The first version representing the *lumrah* or common Balinese; the second the *alus* or refined Balinese. Both versions are exactly the same grammatically; the difference lies in the word choice. *Lumrah* or common words are used by participants of equal social status in a conversation, and it reflects

intimacy and informality among the users. Alus or refined words are associated with distancing and formality among users in a conversation. Each lesson contains a section on the grammar and word function, as well as a list of words in both the lumrah and alus forms, followed by their Indonesian and English equivalents. Each lesson ends with a section on sentence construction—how to use the structures taught to make simple sentences. The book has a pronunciation guide at the front, and a section on greeting, ordinal numbers and a handy dictionary at the end. The dictionary is arranged alphabetically by Balinese, followed by their Indonesian and English equivalents.

Originally published in 1963, *The Speech Chain* has been regarded as the classic, easy-to-read introduction to the fundamentals and complexities of speech communication. It provides a foundation for understanding the essential aspects of linguistics, acoustics and anatomy, and explores research and development into digital processing of speech and the use of computers for the generation of artificial speech and speech recognition. This interdisciplinary account will prove invaluable to students with little or no previous exposure to the

study of language.

This book explores how policies of decentralisation and community participation adopted in Cameroon in 1996 have played out on the ground since 2004. These reforms were carried out amid economic crisis, structural adjustment and political upheaval. At the time, popular sentiment was that change on the economic and political fronts was imperative. However, the ruling elite, some of whom had been shuttling around the state apparatus since

independence, feared that succumbing to popular demands for change was tantamount to political suicide, as was the case elsewhere on the continent. These elites thwarted opposition demands for a sovereign national conference to discuss constitutional reform. The Francophone-dominated elite fiercely objected to Anglophone demands for the restoration of the Federal state that was dissolved in 1972. Instead, decentralisation was presented as an authentic forum for grassroots autonomy and municipal councils as credible arenas for community participation in local development. This study adopts an interdisciplinary approach to unearth the permutations of decentralisation and community participation in Cameroon. It explores

how local actors have responded to the implementation of state policy of decentralisation. Further, it documents how local issues observed in Bali in the North West Region and Mbankomo in the Central Region of Cameroon impact and are impacted by national policies and processes.

The conversation in this book deals with the impact of modern life on Balinese society over the past 50 years. Eric Buvelot, journalist and 13 years' editor of La Gazette de Bali, interviews Jean Couteau, an observer of Bali for over 40 years, author of many books, and national columnist for Kompas. They discuss changes from sexual behavior to religious practices, the engagement of Balinese with foreigners and other

Indonesians, issues of tolerance, violence, economy, spirituality, cultural evolution, and the shift of mentality from myth to rational thinking. First published in French, this book was translated by Diana Darling, author of The Painted Alphabet, a classic novel of Bali. Bali: 50 Years is an exceptional book readable by all and dealing with the impact of fifty years of deep changes on Balinese society, culture, life and psyche. Jean Couteau, interviewed by Eric Buvelot, responds brilliantly to this important issue in a style accessible to all. - Georges Breguet (Anthropologist, Museum consultant) Jean, your book with Eric is fascinating. The information is fragmented because of the rapid-fire questions, but the [interview method] enables you to deliver an extraordinary

amount of knowledge: you have truly reflected on all aspects of Balinese life. - Henri Chambert Loir (Prof. Emeritus Ecole Française d'Extrême-Orient) Go beyond the usual clichés by reading Jean Couteau's in-depth analysis of the tremendous transformations Bali has known these past five decades: society, religion, economy, women's rights, environment... Nothing published so far approaches it. And I love the conversation format: very dynamic. - Cecile Collineau (Book reviewer, Le Petit Journal Jakarta) A unique insight into Bali written by two experts who have lived almost all their lives on the Island of the Gods, it will allow you a 360° trip into a society in full transformation, worth reading. -Eva Peel (Singer & DJ Producer)

The dead are potent and omnipresent in modern Indonesia. Presidents and peasants alike meditate before sacred graves to exploit the power they confer, and mediums do good business curing the sick by interpreting the wishes of deceased forebears. Among non-Muslims there are ritual burials of the bones of the dead in monuments both magnificent and modest. By promoting dead heroes to a nationalist pantheon, regions and ethnic groups establish their place within the national story. Although much has been written about the local forms of the scriptural religions to which modern Indonesians are required by law to adhere - Islam, Christianity, Hinduism and Buddhism - this is the first book to

assess the indigenous systems of belief in the spirits of ancestors. Sometimes these systems are condemned in the name of the formal religions, but more often the potent dead coexist as a private dimension of everyday religious practice. A unique team of anthropologists, historians and literary scholars from Europe, Australia and North America demonstrate the continuing importance of the potent dead for understanding contemporary Indonesia. At the same time, they help us understand historic processes of conversion to Islam and Christianity by examining the continuing interactions of the spirit world with formal religion.

This volume, originally published in

1970, presents a survey of the languages spoken in an area extending from the Atlantic coast at the Sengal River eastward to the Lake Chad region. The area covered by this volume is mainly a geographical one, so it follows that not all the languages included are related to one another, though a certain degree of homogeneity appears.

Contemporary Bali Nyonga is a rapidly growing town of over 80,000 in habitants, sixteen kilometres southwest of Bamenda, the capital of the North West region, Cameroon. If Cameroon has been aptly referred to in many circles as

Africa in miniature, then Bali Nyonga, since its founding in the mid 19th century is emblematic of this so-called multicultural region. This book is about change in Bali Nyonga, but it is also about change in a typical postcolonial African setting grappling with a challenging new world reality. It aims to provide cutting-edge analyses of cultural change in Bali as well as inspire a new kind of scholarship in the Cameroon Grasslands championed by indigenous intellectuals. The contributors to this volume come from diverse academic backgrounds and as will be evident in the various chapters, their disciplinary perspectives have largely shaped their approaches to the topics under study. Hence, this book draws on anthropological, theological, literary and

media studies perspective.
