The second edition of *College Writing* is based on the premise that writing is a varied and imaginative process, not a rigid adherence to a set of conventions. Like the original text, it continually exhorts students to find and celebrate their own voice. Indeed, it is this affirmation of individual creativity that sets *College Writing* apart from other process-oriented rhetorics. Among the book's new features are an up-to-date electronic reference section, expanded discussions on research writing strategies, new presentations on argumentative and interpretive writing, and a review of creative revision techniques.

The affirmation of individual creativity in writing is what sets this book apart from other process-oriented rhetorics.

Conversational in tone, the book's third edition boasts a writer-to-writer perspective that will put students at ease. The book "walks" students through the main elements of writing from discovery and research to revising and editing. At the same time, it allows for many detours in its step-by-step approach, with frequent reminders that everyone's processes are unique and that establishing and maintaining a personal voice can be achieved while meeting conventional academic expectations. The book examines the different, yet overlapping stages of writing. It addresses rhetorical issues of audience, purpose, and voice, as well as the details of field, library, and Internet research, with particular attention to evaluating sources. It also offers these new features to keep students and teachers up to date: new Web-based research information; the most recent Modern Language Association guidelines; increased coverage of visual elements of texts; more on approaches to writing "alternative" pieces; and a look at the role of creative nonfiction in an academic setting. The book includes examples of the best of undergraduate writing for inspiration, student statements about their writing problems for reassurance, and guidelines for writing groups, portfolios, publishing class books and Web pages, writing essay examinations, and punctuation. Writing an amazing college admission essay is easier than you think! So you're a high school senior given the task of writing a 650-word personal statement for your college application. Do you tell the story of your life, or a story from your life? Do you choose a single moment? If so, which one? The options seem endless. Lucky for you, they're not. College counselor Ethan Sawyer (aka The College Essay Guy) will show you that there are only four (really, four!) types of college admission essays. And all you have to do to figure out which type is best for you is answer two simple questions: 1. Have you experienced significant challenges in your life? 2. Do you know what you want to be or do in the future? With these questions providing the building blocks for your essay, Sawyer guides you through the rest of the process, from choosing a structure to revising your essay, and answers the big questions that have probably been keeping you up at night: How do I brag in a way that doesn't sound like bragging? and How do I make my essay, like, deep? Packed with tips, tricks, exercises, and sample essays from real students who got into their dream schools, *College Essay Essentials* is the only college essay guide to make this complicated process logical, simple, and (dare we say it?) a little bit fun.

Based on Wardle and Downs' research, the first edition of *Writing about Writing* marked a milestone in the field of

composition. By showing students how to draw on what they know in order to contribute to ongoing conversations about writing and literacy, it helped them transfer their writing-related skills from first-year composition to other courses and contexts. Now used by tens of thousands of students, *Writing about Writing* presents accessible writing studies research by authors such as Mike Rose, Deborah Brandt, John Swales, and Nancy Sommers, together with popular texts by authors such as Malcolm X and Anne Lamott, and texts from student writers. Throughout the book, friendly explanations and scaffolded activities and questions help students connect to readings and develop knowledge about writing that they can use at work, in their everyday lives, and in college. The new edition builds on this success and refines the approach to make it even more teachable. The second edition includes more help for understanding the rhetorical situation and an exciting new chapter on multimodal composing. The print text is now integrated with e-Pages for *Writing about Writing*, designed to take advantage of what the Web can do. The conversation on writing about writing continues on the authors' blog, *Write On: Notes on Writing about Writing* (a channel on Bedford Bits, the Bedford/St. Martin's blog for teachers of writing).

For courses in Developmental Writing, his version of IDEAS & Aims has been updated to reflect the 8th edition of the *MLA Handbook* (April 2016) * A unique aims/purposes-based developmental writing program IDEAS and Aims fulfills a growing need in classrooms for a more contemporary approach, and a different type of writing textbook specifically developed with course redesign in mind. Its consistent focus on subject, purpose, audience, and genre leads students to effectively analyze the writing situations they will encounter in their college courses and in their everyday lives. This is accomplished through the use of an easy to remember template tool called IDEAS (Interest, Details, Explanation, Audience, and Style) that helps students see writing not only as an important academic and lifelong skill. *The 8th edition introduces sweeping changes to the philosophy and details of MLA works cited entries. Responding to the "increasing mobility of texts," MLA now encourages writers to focus on the process of crafting the citation, beginning with the same questions for any source. These changes, then, align with current best practices in

the teaching of writing which privilege inquiry and critical thinking over rote recall and rule-following.
