Records management helps users address evolving governance mandates to meet regulatory, legal, and fiduciary requirements. Proactive adherence to information retention policies and procedures is a critical facet of any compliance strategy. IBM®

Enterprise Records helps organizations enforce centralized policy management for file plans, retention schedules, legal preservation holds, and auditing. IBM Enterprise Records enables your organization to securely capture, declare, classify, store, and dispose of electronic and physical records. In this IBM Redbooks® publication, we introduce the records management concept and provide an overview of IBM Enterprise Records. We address records management topics, including the retention schedule, file plan, records ingestion and declaration, records disposition, records hold, and Enterprise Records application programming interfaces (APIs). We also use a case study to describe step-by-step instructions to implement a sample records management solution using Enterprise Records. We provide concrete examples of how to perform tasks, such as file plan creation, records ingestion and declaration, records disposition, and records hold. This book helps you to understand the records management concept, the IBM Enterprise Records features and capabilities, and its use.

DO NOT READ THIS BOOK IF YOU WANT TO JUST "MANAGE" YOUR ANXIETY There's a new and faster way for anxiety relief, but few have ever heard it. Most people are advised to either just "manage" their anxiety or medicate it away. If you're tired of just managing your anxiety and want a powerful natural solution, then apply the 'Dare' technique as explained in Barry McDonagh's latest book. Based on hard science and over 10 years helping people who suffer from anxiety, Barry McDonagh shares his most effective technique in this new book. The DARE technique can be used by everyone, regardless of age or background, to live a life free from anxiety or panic attacks. In this step-by-step guide you will discover how to: -Stop panic attacks and end feelings of general anxiety. -Face any anxious situation you've been avoiding (driving/flying/shopping etc.). -Put an end to anxious or intrusive thoughts. -Use the CORRECT natural supplements to relieve anxiety. -Boost your confidence and feel like your old self again. -Fall asleep faster and with less

anxiety each night. -Live a more bold and adventurous life again!
IMPORTANT: THIS IS MUCH MORE THAN JUST A BOOK It also comes with a free App for your smartphone as well as four audios for quick anxiety relief. With these new tools you can apply the DARE Response in any situation that makes you anxious (e.g. driving/shopping/traveling). Help is now just a click away. You can learn more at: <http://www.DareResponse.com>

Improving Behaviour Management in Your School provides a common sense approach to understanding the causes and triggers of students' challenging behaviour and equips teachers and school leaders with simple tools that can be easily implemented in any school. In his accessible and upbeat style, Tim Dansie uses case studies throughout the book which draw on strategies based on CBT and mindfulness. These strategies have proven to make a huge difference to school life and to how challenging students are managed. Teachers are encouraged to question how schools and classrooms are structured, in order to create environments where all students have the greatest possible opportunity to learn and grow as individuals. This resource includes accessible chapters about: What are the challenging behaviours? What are the causes of challenging behaviours in students? How to work with parents How to get staff on board This is a must-read for all practising and training teachers who wish to understand the reasons for challenging

behaviour and how to improve it.

Today, online technologies are at the core of most fields of engineering and society as a whole . This book discusses the fundamentals, applications and lessons learned in the field of online and remote engineering, virtual instrumentation, and other related technologies like Cross Reality, Data Science & Big Data, Internet of Things & Industrial Internet of Things, Industry 4.0, Cyber Security, and M2M & Smart Objects. Since the first Remote Engineering and Virtual Instrumentation (REV) conference in

2004, the event has focused on the use of the Internet for engineering tasks, as well as the related opportunities and challenges. In a globally connected world, interest in online collaboration, teleworking, remote services, and other digital working environments is rapidly increasing. In this context, the REV conferences discuss fundamentals, applications and experiences in the field of Online and Remote Engineering as well as Virtual Instrumentation. Furthermore, the conferences focus on guidelines and new concepts for engineering education in higher and vocational education institutions, including emerging technologies in learning, MOOCs & MOOLs, and open resources. This book presents the proceedings of REV2020 on “Cross Reality and Data Science in Engineering” which was held as the 17th in series of annual events. It was organized in cooperation with the Engineering Education Transformations Institute and the Georgia Informatics Institutes for Research and Education and was held at the College of Engineering at the University of Georgia in Athens (GA), USA, from February 26 to 28, 2020.
