History in a Post-Truth World Cirrus Test Prep History in a Post-Truth World: Theory and Praxis explores one of the most significant paradigm shifts in public discourse. A post-truth environment that appeals primarily to emotion, elevates personal belief, and devalues expert opinion has important implications far beyond

Brexit or the election of Donald Trump, and has a profound impact on how history is produced and consumed. Post-truth history is not merely a synonym for lies. This book argues that indifference to historicity by both the purveyor and the recipient, contempt for expert opinion that contradicts it, and ideological motivation are its key characteristics. Taking a multidisciplinary approach,

this work explores some of the following questions: What exactly is post-truth history? Does it represent a new phenomenon? Does the historian have a special role to play in preserving public memory from 'alternative facts'? Do academics more generally have an obligation to combat fake news and fake history both in universities and on social media? How has a 'post-

truth culture' impacted professional and popular historical discourse? Looking at theoretical dimensions and case studies from around the world, this book explores the violent potential of post-truth history and calls on readers to resist. It is instantiated by sites of both hope and horror. Within progressive thought, "revolution" often perpetuates entrenched philosophical problems: a teleological philosophy of history,

economic reductionism, and normative paternalism. At a time of resurgent uprisings, how can revolution be reconceptualized to grasp the dynamics of social transformation and disentangle revolutionary practice from authoritarian usurpation? Eva von Redecker reconsiders critical theory's understanding of radical change in order to offer a bold new account of how revolution

occurs. She argues that revolutions are not singular events but extended processes: beginning from the interstices of society, they succeed by gradually rearticulating social structures toward a new paradigm. Developing a theoretical account of social transformation, *Praxis and Revolution* incorporates a wide range of insights, from the Frankfurt School to queer theory

and intersectionality. Its revised materialism furnishes prefigurative politics with their social conditions and performative critique with its collective force. Von Redecker revisits the French Revolution to show how change arises from struggle in everyday social practice. She illustrates the argument through rich literary examples—a ménage à trois inside a prison, a radical

knitting circle, a queer affinity group, and petitioners pleading with the executioner—that forge a feminist, open-ended model of revolution. *Praxis and Revolution* urges readers not only to understand revolutions differently but also to situate them elsewhere: in collective contexts that aim to storm manifold Bastilles—but from within. <p><u>Knowledge (0081)</u> Cirrus Test Prep In Radical Writing Center Praxis Laura Greenfield calls for a paradigm change in writing centers, imagining a field whose very reason for being is to facilitate justice and peace. The book calls on readers to more critically examine power and agency in writing centers and to imagine new possibilities for the field's theories and practices.</p>	<p>Large, intersecting systems of oppression manifest in the everyday practices of institutions, classrooms, and writing centers. Local practices in turn influence the surrounding world. Radical Writing Center Praxis therefore challenges the writing center field to resist assumptions of political neutrality and instead to redefine itself in terms of more explicit ethical commitments. In this</p>	<p>paradigm it is clear that to engage in anti-oppression work is not merely a special interest but rather a vital interest to all. Introducing the concepts and vocabulary of radical politics, Radical Writing Center Praxis examines the tensions between the field's professed beliefs and everyday practices and offers a process by which the writing center</p>

discipline as a whole might rebuild itself anew. It will be invaluable to writing center directors, tutors, scholars, and students as well as to administrators and compositionists.
