Originally published in 1994. In this pathbreaking book Alan Tully offers an unprecedented comparative study of colonial political life and a rethinking of the foundations of American political culture. Tully chooses for his comparison the two colonies that arguably had the most profound impact on American political history—New York and Pennsylvania, the rich and varied colonies at the geographical and ideological center of British colonial America. Fundamental to the book is Tully's argument that out of Anglo-American influences and the cumulative character of each colonial experience, New York and Pennsylvania developed their own distinctive but complementary characteristics. In making this case Tully enters—from a new perspective—the prominent argument between the "classical republican" and "liberal" views of early American public thought. He contends that the radical Whig element of classical republicanism was far less influential than historians have believed and that the political experience of New York and Pennsylvania led to their role as innovators of liberal political concepts and discourse. In a conclusion that pursues his insights into the revolutionary and early republican years, Tully underlines a paradox in American political development: not only were the pathbreaking liberal politicians of New York and Pennsylvania the least inclined towards revolutionary fervor, but their political language and concepts—integral to an emerging liberal democratic order—were rooted in oligarchical political practice. "A momentous contribution to the burgeoning literature on the middle Atlantic region, and to the vexed question of whether it constitutes a coherent cultural configuration. Tully argues persuasively that it does, and his arguments will have to be reckoned with like few that have gone before, even as he develops an array of differences between the two colonies more subtle and penetrating than any of his predecessors has ever put forth."—Michael Zuckerman, University of Pennsylvania.

When Emma Everett arrives in Breezy Bay on Vancouver Island, all she wants to do is forget about Hunter, the man who broke her heart, and start a new life helping her sister Amanda launch her bed and breakfast. Emma finds the best way to escape the pain of her past relationship is by hunting truffles with Amanda's faithful German Shepherds, King and Flare. One day, while Emma is out searching for the delicate fungi on the local trail, King unearths not the hoped-for truffles but a body. When Constable Logan Wilson shows up on the scene, Emma thinks she has found an ally in the handsome cop, but his partner, Constable Brendan, isn't so sure of Emma's innocence. To help restore a sense of community after the grisly discovery, Amanda begins to plan The First Annual Breezy Bay Truffle Festival. But days later, when prominent citizen Trinity Wheeler falls from the same trail down an embankment and dies, Emma is there to witness it. This causes further suspicion in Constable Brendan's mind. All plans to forget her old life fail when Hunter shows up in town to

help his grieving uncle come to terms with Aunt Trinity's untimely death. But something isn't right about the way that Trinity died, and Emma saw something she can't easily put out of her mind. As the Breezy Bay Truffle Festival nears, the trufflers become the target of those who would cause malice, and Emma is running out of time to prove her innocence and, more importantly, to find out who has committed the murders and why.

23 very well-known people from the arts, sport, and business worlds talk about how dyslexia affected their childhood, how they were able to overcome the challenges and use the special strengths of dyslexia to achieve great success in adulthood. Darcey Bussell CBE, Eddie Izzard, Sir Richard Branson, Meg Mathews, Zoe Wanamaker CBE, Richard Rogers, Benjamin Zephaniah, Steven Naismith, Lynda La Plante CBE, Sir Jackie Stewart OBE, Sophie Conran and others share their stories, and their advice. All reveal the enormous difficulties they faced, the strength required to overcome them, the crucial importance of adult support, and how 'the different way the brain is wired' in dyslexia has enabled them to see something different in the world and to use their creativity in an exceptional way. They talk about 'thinking sideways', and the ability to look at a bigger picture, the often strong visual strength, and the ability to listen, and to grasp simplicity where other people see only complexity. They also talk about how dyslexia continues to challenge them, and the ways they have found to work around this. An introduction, and final section that includes practical information about dyslexia, are written with the support of Dyslexia Action, and a percentage of profit from the book is going to The British Dyslexia Association. The book will be essential reading for teachers and other professionals, and for families affected by dyslexia, and inspirational for people with dyslexia.

Celebrity and Mediated Social Connections is a critical examination of the multiple realities of the mediated culture we traverse, extending from our imaginary inner worlds to the imagined communities of digital media. Chapters explore the dialogic at work when we connect with celebrities and internalize aspects of their personas due to the various social roles they serve within our everyday lives. What might begin as strong identification and internalization within our imaginary worlds, in this digital age, sometimes seeps out as we connect to celebrities, their fans, friends and followers in ways that were not formerly possible. The book contains topics that range from the degradation of micro-celebrities, the role of celebrities in promoting prescription drugs and their role in contemporary social movements. The common thread that runs through the book presents a mediated world that paradoxically allows if not encourages people to daydream, engage in stream of consciousness thinking and fantasize about celebrities, all while concurrently compelling us to engage in a digitally based objective world. The possibility of interaction on and through digital media intensifies the emotional connection between celebrity and fan. The more personal details one gives up, the closer we feel we become—digital intimacy based on the excessive self. Digital media entice us to engage and remain tethered to technology, staying continuously connected so as not to miss the latest post or meme. To suggest we should build a proverbial wall between the two—imaginary and objective worlds—runs counter to the reality of an always on, always connected culture in which we presently live.

Ghost and his crew are the real deal; this is no work of fiction. The "first hand" accounts of Special projects from the UK, Sierra Leone, and Afghanistan are already well known to many, but those are the "official" versions. This has got to be one of the best, if not the best non fiction book on the market. This incredible story will make you laugh, it will make you cry, and hopefully at the end, it will motivate you into doing something, which you have never done before.

The Best American Magazine Writing 2022 presents a range of outstanding writing on timely topics, from in-depth reporting to incisive criticism: Kristin Canning calls for a change in how we talk about abortion (Women's Health), and Ed Yong warns us about the next pandemic (The Atlantic). Matthieu Aikins provides a gripping eyewitness account of the Taliban's seizure of Kabul (New York Times Magazine). Heidi Blake and Katie J. M. Baker's "Beyond Britney" examines how people placed under legal guardianship are deprived of their autonomy (BuzzFeed News). Rachel Aviv profiles a psychologist who studies the fallibility of memory—and has testified for defendants including Harvey Weinstein and Bill Cosby (The New Yorker). The anthology includes dispatches from the frontiers of science, exploring why Venus turned out so hellishly unlike Earth (Popular Science) and detailing the potential of NASA's James Webb Space Telescope (Quanta). It features celebrated writers, including Harper's magazine pieces by Ann Patchett, whose "These Precious Days" is a powerful story of

friendship during the pandemic, and Vivian Gornick, who offers "notes on humiliation." Carina del Valle Schorske depicts the power of public dance after pandemic isolation (New York Times Magazine). And the NBA icon Kareem Abdul-Jabbar lauds the Black athletes who fought for social justice (AARP the Magazine). Amid the continuing reckoning with racism, authors reconsider tarnished figures. The Black ornithologist and birder J. Drew Lanham assesses the legacy of John James Audubon in the magazine that bears his name, and Jeremy Atherton Lin questions his youthful enthusiasm for Morrissey (Yale Review). Jennifer Senior writes about memory and the lingering grief felt for a friend killed on 9/11 (The Atlantic). Video Marketing is literally on fire! Embrace the Power and Potential of Video Marketing And use this medium to catapult your web business to the next level. Check out on " Video Marketing Made Simple For Business Owners " Finally, you have this once in lifetime opportunity to get your hands on the video marketing tools & Strategies that are generating million dollar revenues . Businesses invest a lot of time determining who their target demographic is, and for good reason. When a business knows which demographic is buying and using their product, it's going to be easier to market to that demographic. Middle-aged women are going to respond to ads differently than millennials; and what one group finds engaging and interesting, another may not. So it's important for businesses to understand what demographic they are targeting so they get the marketing just right for them. But, businesses don't have to go to such trouble when they're using video marketing because video marketing reaches every demographic and is interesting to every demographic. And this is because men and women, and people of every age, love video. As long as it's interesting and creative, people will like a video regardless of their background or history. This can be a bonus for businesses that know who their demographic is, simply because more people will share it and like it, even if they don't make up part of the business' demographic. But it's also especially good news for businesses with a shifting demographic, or for those that don't know how makes up their demographic. That happens sometimes when a business changes directions or changes their product or service slightly, and then they have to start back at square one with their marketing efforts. But when a business has already created videos as part of their marketing plan, they don't have to change a thing because those videos will already be suitable for every demographic. Imagine one type of marketing that appeals to every single demographic. It seems too good to be true, but it's not. That type of marketing is video marketing, and reaching every demographic is just one very good reason why every business should be investing in it.

Bill Sloan, a former British Army intelligence officer and Shahid Al Sheehi, the son of a Pakistani British immigrant are caught up in a breathtakingly ambitious plan for a small Middle Eastern

Emirate to seize regional power by acquiring weapons of mass destruction. The destinies of Sloan and Al Sheehi are irrevocably entwined. This novel draws the reader into a realm of political intrigue, characterized by thwarted terrorist plots, international duplicity, and a host of anxious preoccupations including the threat of WMDs. Incredibly timely, as these issues still continue to feature in contemporary headlines, this work acts to set our current perceptions of such issues in context. Well-developed characters populate the pages, living very different lives but influenced by similar factors; a writer in command of his subject matter details their parallel agendas and overlapping imperatives with ease. Informed by his own personal experiences, this novel has a real feel of authenticity, offering an unrivalled insight into the Middle Eastern tensions, which have simmered over the past thirty years, and seeking to illuminate the paradoxes and oppositions of lives ensnared in such realities.

National Book Critics Circle Award Winner: Biography Category National Book Award Finalist 2015 Winner of the Sheridan Morley Prize for Theatre Biography American Academy of Arts and Letters' Harold D. Vursell Memorial Award A Chicago Tribune 'Best Books of 2014' USA Today: 10 Books We Loved Reading Washington Post, 10 Best Books of 2014 The definitive biography of America's greatest playwright from the celebrated drama critic of *The New Yorker*. John Lahr has produced a theater biography like no other. *Tennessee Williams: Mad Pilgrimage of the Flesh* gives intimate access to the mind of one of the most brilliant dramatists of his century, whose plays reshaped the American theater and the nation's sense of itself. This astute, deeply researched biography sheds a light on Tennessee Williams's warring family, his guilt, his creative triumphs and failures, his sexuality and numerous affairs, his misreported death, even the shenanigans surrounding his estate. With vivid cameos of the formative influences in Williams's life—his fierce, belittling father Cornelius; his puritanical, domineering mother Edwina; his demented sister Rose, who was lobotomized at the age of thirty-three; his beloved grandfather, the Reverend Walter Dakin—*Tennessee Williams: Mad Pilgrimage of the Flesh* is as much a biography of the man who created *A Streetcar Named Desire*, *The Glass Menagerie*, and *Cat on a Hot Tin Roof* as it is a trenchant exploration of Williams's plays and the tortured process of bringing them to stage and screen. The portrait of Williams himself is unforgettable: a virgin until he was twenty-six, he had serial homosexual affairs thereafter as well as long-time, bruising relationships with Pancho Gonzalez and Frank Merlo. With compassion and verve, Lahr explores how Williams's relationships informed his work and how the resulting success brought turmoil to his personal life. Lahr captures not just Williams's tempestuous public persona but also his backstage life, where his agent Audrey Wood and the director Elia Kazan play major roles, and Marlon Brando, Anna Magnani, Bette Davis, Maureen Stapleton, Diana Barrymore, and Tallulah Bankhead have scintillating walk-on parts. This is a biography of the highest order: a book about the major American playwright of his time written by the major American drama critic of his time.
