This stunning collection of essays illuminates the lives and legacies of the most famous and powerful individuals, groups, and institutions in African American history. The three-volume *Icons of Black America: Breaking Barriers and Crossing Boundaries* is an exhaustive treatment of 100 African American people, groups, and organizations, viewed from a variety of perspectives. The alphabetically arranged entries illuminate the history of highly successful and influential individuals who have transcended mere celebrity to become representatives of their time. It offers analysis and perspective on some of the most influential black people, organizations, and institutions in American history, from the late 19th century to the present. Each chapter is a detailed exploration of the life and legacy of an individual icon. Through these portraits, readers will discover how these icons have shaped, and been shaped by, the dynamism of American culture, as well as the extent to which modern mass media and popular culture have contributed to the rise, and sometimes fall, of these powerful symbols of individual and group excellence.

Dating back to the blackface minstrel performances of Bert Williams and the trickster figure of Uncle Julius in Charles Chesnutt's *Conjure Tales*, black humorists have negotiated American racial ideologies as they reclaimed the ability to represent themselves in the changing landscape of the early 20th century. Marginalized communities routinely use humor, specifically satire, to subvert the political, social, and cultural realities of race and racism in America. Through contemporary examples in popular culture and politics, including the work of Kendrick Lamar, Key and Peele and the presidency of Barack Obama and many others, in *Played Out: The Race Man in 21st Century Satire* author Brandon J.

Manning examines how Black satirists create vulnerability to highlight the inner emotional lives of Black men. In focusing on vulnerability these satirists attend to America's most basic assumptions about Black men. Contemporary Black satire is a highly visible and celebrated site of black masculine self-expression. Black satirists leverage this visibility to trouble discourses on race and gender in the Post-Civil Rights era. More specifically, contemporary Black satire uses laughter to decenter Black men from the socio-political tradition of the Race Man.

Examines the significance of the 'hood in rap and hip hop The 'Hood Comes First looks at the increasingly specific emphasis on real neighborhoods and streets in rap music and hip hop culture as an urgent response to the cultural and geographical ghettoization of black urban communities. Examining rap music, along with ancillary hip hop media including radio, music videos, rap press and the cinematic 'hood genre, Murray Forman analyzes hip hop culture's varying articulations of the terms "ghetto," "inner-city," and "the 'hood," and how these spaces, both real and imaginary, are used to define individual and collective identity. Negotiating academic, corporate, and "street" discourses, Forman assesses the dynamics between race, social space and youth. Race, class and national identification are recast and revised within rap's spatial discourse, concluding with the construction of "the 'hood," a social and geographic symbol that has become central to concepts of hip hop authenticity. Additionally, the book analyzes the processes within the music and culture industries through which hip hop has been amplified and disseminated from the 'hood to

international audiences.

A series of movies that share images, characters, settings, plots, or themes, film cycles have been an industrial strategy since the beginning of cinema. While some have viewed them as "subgenres," mini-genres, or nascent film genres, Amanda Ann Klein argues that film cycles are an entity in their own right and a subject worthy of their own study. She posits that film cycles retain the marks of their historical, economic, and generic contexts and therefore can reveal much about the state of contemporary politics, prevalent social ideologies, aesthetic trends, popular desires, and anxieties. *American Film Cycles* presents a series of case studies

of successful film cycles, including the melodramatic gangster films of the 1920s, the 1930s Dead End Kids cycle, the 1950s juvenile delinquent teenpic cycle, and the 1990s ghetto action cycle. Klein situates these films in several historical trajectories—the Progressive movement of the 1910s and 1920s, the beginnings of America's involvement in World War II, the "birth" of the teenager in the 1950s, and the drug and gangbanger crises of the early 1990s. She shows how filmmakers, audiences, film reviewers, advertisements, and cultural discourses interact with and have an impact on the film texts. Her findings illustrate the utility of the film cycle in broadening our understanding of established film genres, articulating and building upon beliefs about contemporary social problems, shaping and disseminating deviant subcultures, and exploiting and reflecting upon racial and political upheaval.

On 4 July, 1910, in 100-degree heat at an outdoor boxing ring near Reno, Nevada, film cameras recorded—and thousands of fans witnessed—former heavyweight champion Jim Jeffries' reluctant return from retirement to fight Jack Johnson, a black man. After 14 grueling rounds, Johnson knocked out Jeffries and for the first time in history, there was a black heavyweight champion of the world. At least 10 people lost their lives because of Johnson's victory and hundreds more were injured due to white retaliation and wild celebrations in the streets. Public screenings received instantaneous protests and hundreds of cities barred the film from being shown. Congress even passed a law making it a federal offense to transport moving pictures of prizefights across state lines, and thus

the most powerful portrayal of a black man ever recorded on film was made virtually invisible. This is but one of the hundreds of films covered in *The A to Z of African American Cinema*, which includes everything from *The Birth of a Nation* to *Crash*. In addition to the films, brief biographies of African American actors and actresses such as Sidney Poitier, James Earl Jones, Halle Berry, Eddie Murphy, Whoopi Goldberg, Denzel Washington, and Jamie Foxx can be found in this reference. Through a chronology, a list of acronyms and abbreviations, an introductory essay, a bibliography, appendixes, black-&-white photos, and hundreds of cross-referenced dictionary entries on actors, actresses, movies, producers, organizations, awards, film credits, and terminology, this book provides a better understanding of the role African Americans played in film history.

America's foremost authorities on dog care and training distill decades of experience in a comprehensive "foundational" guide for dog owners. No matter what training method or techniques you use with your dog, the training is unlikely to be optimally successful unless it is predicated on an understanding of the dog's true nature. Dogs need food, water, exercise and play, rest, veterinary care--the basics. But since dogs naturally want to be led, they also need focused and compassionate guidance. Through abundant stories and case studies, the authors reveal how canine nature manifests itself in various behaviors, some potentially disruptive to domestic accord, and show how in addressing these behaviors you can strengthen the bond with your dog as well as keep the peace. The promise of this book is that, especially in an ever-accelerating world filled with digital distractions, you can learn from your dog's example how to live in the moment, thereby enriching your life immeasurably.
