Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In Ditch That Textbook, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and

learning practices. He empowers them to evolve and improve on old, standard, teaching methods. Ditch That Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

A striking debut novel about a college freshman grappling with the challenges of attending an elite university with a disturbing racist history, which may not be as distant as it seems. "A searing debut."
-Entertainment Weekly Savannah Howard
thought everyone followed the same checklist to get into Wooddale University:

Take the hardest classes Get perfect grades Give up a social life to score a full ride to a top school But now that she's on campus, it's clear there's a different rule book. Take student body president, campus royalty, and racist jerk Lucas Cunningham. It's no secret money bought his acceptance letter. And he's not the only one. Savannah tries to keep to head down, but when the statue of the university's first Black president is vandalized, how can she look away? Someone has to put a stop to the injustice. But will telling the truth about Wooddale's racist past cost Savannah her own future?

First-time novelist Kristen R. Lee delivers a page-turning, thought-provoking story that exposes racism and hypocrisy on college campuses, and champions those who refuse to let it continue.

New York Times Bestseller "We all want to raise children with good values—children who are the opposite of spoiled—yet we often neglect to talk to our children about money. . . . From handling the tooth fairy, to tips on allowance, chores, charity, checking accounts, and part-time jobs, this engaging and important book is a must-read for parents." — Gretchen Rubin, author of *The Happiness Project* In the spirit of Wendy Mogel's *The Blessing of a Skinned Knee* and Po Bronson and Ashley Merryman's *Nurture Shock*, New York Times "Your Money" columnist Ron Lieber delivers a taboo-shattering manifesto that explains how talking openly to children about money can help parents raise modest, patient, grounded young adults who are financially wise beyond their

years For Ron Lieber, a personal finance columnist and father, good parenting means talking about money with our kids. Children are hyper-aware of money, and they have scores of questions about its nuances. But when parents shy away from the topic, they lose a tremendous opportunity—not just to model the basic financial behaviors that are increasingly important for young adults but also to imprint lessons about what the family truly values. Written in a warm, accessible voice, grounded in real-world experience and stories from families with a range of incomes, *The Opposite of Spoiled* is both a practical guidebook and a values-based philosophy. The foundation of the book is a detailed blueprint for the best ways to handle the basics: the tooth fairy, allowance, chores, charity, saving, birthdays, holidays, cell phones, checking accounts, clothing, cars, part-time jobs, and college tuition. It identifies a set of traits and virtues that embody the opposite of spoiled, and shares how to embrace the topic of money to help parents raise kids who are more generous and less materialistic. But *The Opposite of Spoiled* is also a promise to our kids that

we will make them better with money than we are. It is for all of the parents who know that honest conversations about money with their curious children can help them become more patient and prudent, but who don't know how and when to start.

After fifteen years of teaching anthropology at a large university, Rebekah Nathan had become baffled by her own students. Their strange behavior—eating meals at their desks, not completing reading assignments, remaining silent through class discussions—made her feel as if she were dealing with a completely foreign culture. So Nathan decided to do what anthropologists do when confused by a different culture: Go live with them. She enrolled as a freshman, moved into the dorm, ate in the dining hall, and took a full load of courses. And she came to understand that being a student is a pretty difficult job, too. Her discoveries about contemporary undergraduate culture are surprising and her observations are invaluable, making *My Freshman Year* essential reading for students, parents,

faculty, and anyone interested in educational policy.

Orphan Alexandra is about to be homeless, jobless, and magicless. Maybe signing up to hunt monsters wasn't a good idea. About to be kicked onto the streets, Alex has nowhere to turn until she learns what really lurks in the dark, and the magical powers that might be locked inside of her. Nearly eighteen and about to leave her hated foster home, Alex Kavanagh's plans go awry when a demon blows into her barista shift, leaving wreckage behind. Blamed for the destruction and fired, Alex doesn't know what to do or where to go, until a mysterious stranger appears and tells her

she's fated to be a demon-hunting witch. Desperate for any security, Alex agrees to attend an academy for demon hunters. There's just one problem, she doesn't have a magical bone in her body. Working hard doesn't stop her endless mistakes, or the torment from the school bullies. Alex fears the failures will lead to her losing the only secure place she's found, and she'll soon be thrown out, to the demons waiting to hunt her down. Join her as she discovers powers she didn't know she had, makes friends she didn't know she needed, and learns more about her parents who were taken from her at an early age.

Many parents of a teenager or young adult feel as though they're guessing about what to do next--with mixed results. We

want to stay connected with our maturing child, but we're not sure how. And deep down, we fear our child doesn't want or need us. Based on brand-new research and interviews with remarkable families, *Growing With* equips parents to take steps toward their teenagers and young adults in a mutual journey of intentional growth that trusts God to transform them all. By highlighting three groundbreaking family strategies, authors Kara Powell and Steven Argue show parents that it's never too early or too late to - accept the child you have, not the child you wish you had - work toward solutions rather than only identifying problems - develop empathy that nudges rather than judges - fight for your child, not against them - connect your children with a faith and church big enough to handle their doubts and struggles - dive into tough discussions about dating, career, and finances - and unleash your child's passions and talents to change our world For any parent who longs for their kids to keep their roots even as they spread their wings, *Growing With* offers practical help and hope for the days--and years--ahead.

Getting Ready for College Hanlon Creek Press

This fun and humorous manual was written from the experience and perspective of a well loved University Professor who didn't forget what being a freshman was like. It provides a tool box of concise and "real life" survival skills that will help freshmen navigate the waters of their first year experience, at any University, successfully. Within the tool box, students will find advice on negotiating schedules, classes, coursework and professors, balancing the social and academic aspects of college life, developing effective study and test taking skills, and intimate guidance on growth, transition, and self actualization. In addition, the manual also provides a section to help "Freshman parents" negotiate the parental transition and provide and balance their support for their college students. This book is definitely a "survival guide" that all new freshmen

should have!

Freshman Fears Cambridge University Press

The book's primary objectives are to welcome you to the abundant and meaningful international and multidisciplinary education discovery journey. You will grow from exposure to other cultures and their practices and I daresay, become better teachers in your local as well as on-line environments. Most every local classroom is multi-cultural as well. The students have different backgrounds and different ways of internalizing information meaningfully. The book will provide practical examples how to design, promote and teach various courses and seminars abroad. Examples are those the author experienced with a specific pedagogical idea that is successful in one system, however, the same concept may face unexpected challenges or fail in another system. Most importantly, the book will focus on applying feedback as vital tools that will guide us to the designing, promoting and teaching mathematics and multidisciplinary courses and seminars. The book's most important goal is to make international and

multidisciplinary education accessible to everyone. The book will compare several educational systems as well as their similarities and differences. These include different teaching and learning styles, students' preparation levels, and students' interests and value orientations. The goal is to inspire you to embark on your own innovative discovery journey, seek out multi-cultural and international teaching opportunities and to effectively reach, effectively communicate information and help students learn.

"The College Solution helps readers look beyond over-hyped admission rankings to discover schools that offer a quality education at affordable prices. Taking the guesswork out of saving and finding money for college, this is a practical and insightful must-have guide for every parent!" —Jaye J. Fenderson, *Seventeen's* College Columnist and Author, *Seventeen's Guide to Getting into College* "This book is a must read in an era of rising tuition and falling admission rates. O'Shaughnessy offers good advice with blessed clarity and brevity." —Jay

Mathews, Washington Post Education Writer and Columnist “I would recommend any parent of a college-bound student read *The College Solution*.” —Kal Chany, Author, *The Princeton Review’s Paying for College Without Going Broke* “*The College Solution* goes beyond other guidebooks in providing an abundance of information about how to afford college, in addition to how to approach the selection process by putting the student first.” —Martha “Marty” O’Connell, Executive Director, *Colleges That Change Lives* “Lynn O’Shaughnessy always focuses on what’s in the consumer’s best interest, telling families how to save money and avoid making costly mistakes.” —Mark Kantrowitz, Publisher, *FinAid.org* and Author, *FastWeb College Gold* “An antidote to the hype and hysteria about getting in and paying for college! O’Shaughnessy has produced an excellent overview that demystifies the college planning process for students and families.” —Barmak Nassirian, American Association of Collegiate Registrars and Admissions Officers For millions of families, the college planning experience has become extremely stressful. And, unless your child

is an elite student in the academic top 1%, most books on the subject won’t help you. Now, however, there’s a college guide for everyone. In *The College Solution*, top personal finance journalist Lynn O’Shaughnessy presents an easy-to-use roadmap to finding the right college program (not just the most hyped) and dramatically reducing the cost of college, too. Forget the rankings! Discover what really matters: the quality and value of the programs your child wants and deserves. O’Shaughnessy uncovers “industry secrets” on how colleges actually parcel out financial aid—and how even “average” students can maximize their share. Learn how to send your kids to expensive private schools for virtually the cost of an in-state public college...and how promising students can pay significantly less than the “sticker price” even at the best state universities. No other book offers this much practical guidance on choosing a college...and no other book will save you as much money! • Secrets your school’s guidance counselor doesn’t know yet The surprising ways colleges have changed how they do business • Get every dime of financial aid that’s out there for you Be a

100 Things Every College Freshman Ought to Know Penguin
When Texas Gov. Rick Perry signed a bill in May 2009 authorizing the Brazos River Authority to sell the entire inhabited shoreline of Possum Kingdom Lake, not many people questioned it. But the odd thing is that the property in question had been sold exactly one month earlier to a good ol boy that had earned the nickname the River Card. While the Texas legislature had been busy considering the will of the people, the Brazos River Authority had been busy selling the land. The final sale price was fifty million dollars. The estimated value of the land was one billion dollars. Playing Possum offers a detailed analysis of the most costly political scandal perpetrated in Texas since the Sharpstown Stock-Fraud scandal. It involved the states most powerful

politicians including the governor, the lieutenant governor, and the attorney general but to this day very few people know what really happened. It also involved the leading candidates for those same offices in 2014. This true account reveals how the taxpayers of Texas were cheated out of approximately one billion dollars worth of prime Texas real estate in a story of high-stakes real estate poker. *Questions I Ask when I Want to Talk about Myself* World Scientific

This text is designed for use in Freshman Orientation, Study/Survival Skills, College 101, The Freshman Experience, University Seminar, and Freshman Seminar. This text has a straight-forward, common sense style without being condescending. It is organized into eleven chapters based on questions first-year students might ask. Unlike many competitors, this text focuses on college success skills and includes very

little material on personal growth and wellness issues. Topics include: goal setting, time management, critical thinking, study and test taking skills, library research, writing and speaking skills, student-faculty relations, financial planning, multi-cultural sensitivity, career exploration and planning, and other issues.
