As a cabin awaits its form  
 and purpose, an elk seeks

comfort in the tall grass, and a man ventures into the woods with his ax. His goal is to find logs that will help him build the walls, floor, and roof of his new home. At the end of the day, he returns to his wagon, his family, and his dreams. As he labors day after day, finally the cabin becomes a reality. He and his family have completed their journey toward a new life—and home. With his dream now fulfilled, Anviel welcomes his wife, Lakina, and their children, Svend and Astrid, to the cabin to laugh, cry, sing, dance, pray, and give thanks for the bounty given to them. As the family ekes out an existence in the serene valley they share with an owl—whose voice haunts Anviel—despair and tribulation eventually visit. Still, the family endures year after year. The children come of age and Anviel works hard to make ends meet—until the owl calls his wife’s name, leaving Anviel left wondering when his own time will come. In this poignant tale, an immigrant family embarks on a journey toward a new beginning where a lonely cabin beckons hope for the future and renews their spirit as life comes full circle.

The author shares in the book his life experiences emigrating from Bombay at the age of sixteen in 1960 with \$12 in his pocket and nowhere to go. His story takes us from London, where he meets his wife, to Toronto, where he establishes himself in the computer industry, then to America and Silicon Valley in 1980. There, he starts a communications networking company and later successfully sells his company to a corporate giant. As an immigrant, the author shares the hardships and challenges he faced in each country. As he travels across the world, the author also references the sights and scenes in each country and gives us a unique historical and political perspective. This is a fun book to read as the author brings you up close and personal with his authentic food and travel experiences in Bombay, London, Toronto, Bangalore, Shanghai, Beijing, Montreal, and Jerusalem. Finally, the author has drawn from his experience and documents historical facts on human rights,

immigration, racism and history in India, Britain, Canada and the United States. The book provides a human perspective, discussing character and integrity, giving back to the community, facing adversity, and dealing with personal identity. The book exposes some of the global challenges ahead of us and ends with solutions with the belief that the best is yet to come. This book has been five years in the making and can serve as a guide and an inspiration globally to all who start or are during their life journey. Enjoy and do give me your feedback.

"Anyone who has had their life completely gutted and rewired will adore this family story. Bradbury's dark humour and gloriously upbeat voice makes it the perfect antidote to a tough year. I loved it!" —Plum Johnson, author of *They Left Us Everything* The hilarious and moving story of how a modern woman's life can change utterly in a single year—and how, even when life whacks you in the head, you can find yourself rewarded with grace. Cathrin Bradbury's life imploded in the space of a few months. Her beloved parents died, her marriage limped to an end after twenty-five years, her heavily mortgaged house turned against her, and a promising new romance ended in crushing disappointment. But somewhere in that year, a new path, or three or four, began to open up. As Bradbury navigates the setbacks, her troubled brother makes an

astounding recovery to health and sobriety. She is reunited with her closest childhood friend after a long absence, with deeply satisfying results. She and her four siblings feel their way to becoming a new kind of family without their parents. And her adult children emerge into sharper focus, each gloriously and uniquely themselves. Slowly, she discovers that the path is steep, the view obscured, but there's light ahead. Cathartic, hilarious, and profoundly moving, *The Bright Side* broadens the way we think and talk to each other about the ordinary experiences we all share. A master of the uncomplaining voice, Bradbury combines grace and humanity to look at the world unflinchingly and see what makes it wonderful and absurd at the same time, and to let us all in on the secret.

Wyatt Buckhorn is only a pal. If sharing scorching kisses that leave a woman feeble-brained means they're pals! But that's all the oilman-slash-rancher can be to Natalie Lewis. Five months pregnant and recently jilted, Natalie refuses to trust any man, least of all a man who is

Besides, she knows Wyatt's secret—he's sterile, and so enforces a strict kid-free rule. Even for the casual viewer, the Netflix series *Stranger Things* will likely feel familiar, reminiscent of popular 1980s coming-of-age movies such as *The Goonies*, *E.T. the Extra-Terrestrial*, and *Stand by Me*. Throughout the series, nods to each movie are abundant. While *Stranger Things* and these classic 1980s films are all tales of childhood friendship and shared adventures, they are also narratives that reflect and shape the burgeoning cynicism of the 1980s. In *Ode to Gen X: Institutional*

*Cynicism in "Stranger Things" and 1980s Film*, author Melissa Vosen Callens explores the parallels between iconic films featuring children and teenagers and the first three seasons of *Stranger Things*, a series about a group of young friends set in 1980s Indiana. The text moves beyond the (at times) non-sequitur 1980s Easter eggs to a common underlying narrative: Generation X's growing distrust in American institutions. Despite Gen X's cynicism toward both informal and formal institutions, viewers also see a more positive characteristic of Gen X in these films and series: Gen X's fierce independence and ability to rebuild and redefine the family unit despite continued economic hardships. Vosen Callens demonstrates how *Stranger Things* draws on popular 1980s popular culture to pay tribute to Gen X's evolving outlook on three key and interwoven American institutions: family, economy, and government. *The Gazette of the Union, Golden Rule, and Odd Fellows' Family Companion* William Morrow

"Play nice!" "Be kind!" "Don't do that!" Every day, it seems half our conversations with young people is made up of commands dealing with character and niceties—all issues that need to be addressed and not ignored. But how is it working? Do you find yourself back at square one the next day, with a child acting as though they had no idea they shouldn't be lying? In *Parenting with a Story*, author Paul Smith, one of the world's leading experts in organizational storytelling, shows that when stories are used to illustrate to children how choices and consequences play out in the real world, with real people, the impact will be far more profound than the relentless commands that are forgotten or ignored as soon as the parent turns away. This collection of 101 narratives from people around the world and from all walks of life includes lessons that illuminate the power of character, integrity, curiosity, creativity, grit, kindness, patience, gratitude, and other essential characteristics every parent should be trying to instill in their children. Sometimes

heart-wrenching, sometimes funny, always compelling, these stories impart wisdom and help steer choices about:

- Resisting peer pressure
- Remaining open-minded
- Being humble
- Making courageous decisions
- Standing by their word
- Bouncing back from failure
- Showing compassion
- Picking friends wisely
- And more

Throughout all of history, stories have been used to help shape who we are and who we aspire to come. But effective storytelling doesn't have to be reserved for teachers, writers, and preachers. As a parent, learn how to share stories, discuss them with your child, and watch your child grow into the adult every parent would be proud of.

Seven-year-old Wen and her parents, Eric and Andrew, are vacationing at a remote cabin on a quiet New Hampshire lake. Their closest neighbors are more than two miles in either direction along a rutted dirt road. One afternoon, as Wen catches grasshoppers in the front yard, a stranger unexpectedly appears in the driveway. Leonard is the largest man Wen has ever seen but he is young, friendly, and he wins her over almost instantly. Leonard and Wen talk and play until Leonard abruptly apologizes and tells Wen, "None of what's going to happen is your fault". Three more

strangers then arrive at the cabin carrying unidentifiable, menacing objects. As Wen sprints inside to warn her parents, Leonard calls out: "Your dads won't want to let us in, Wen. But they have to. We need your help to save the world." Thus begins an unbearably tense, gripping tale of paranoia, sacrifice, apocalypse, and survival that escalates to a shattering conclusion, one in which the fate of a loving family and quite possibly all of humanity are entwined

**Two Kids Fate** Archway Publishing

In this book I wanted to express the loneliness and love two children had for their parents and how they suffered very much in finding themselves and the courage they had to find their loved ones. The parts about the grandparents was the words my grandparents would say, and how my great-grandmother would be on Sundays in the pulpit with the preacher because she also had the calling to preach and would tell the preacher that he had preached enough and it was her time to preach, right in front of the congregation. We would just laugh so hard and run out of the

little church and try to crack some hard black walnuts. My mother was a musician and played the piano in church; my stepfather was a preacher, and he had two churches, so I also remember church times. The rest of the book is fictional.

An astonishing memoir that "demonstrates the true meaning of family" from the author of *The Paris Wife* and *When the Stars Go Dark*, detailing the years Paula McLain and her two sisters spent as foster children after being abandoned by both parents in California in the early 1970s and (Chicago Tribune). As wards of the State, the sisters spent the next 14 years moving from foster home to foster home. The dislocations, confusions, and odd pleasures of an unrooted life form the basis of one of the most compelling memoirs in recent years -- a book the tradition of Jo Ann Beard's *The Boys of My Youth* and Mary Karr's *The Liar's Club*. McLain's beautiful writing and limber voice capture the intense loneliness, sadness, and determination of a young girl both on her own and responsible, with her siblings, for staying

together as a family. *The Giant Forest* AMACOM A New York Times Notable Book Winner of the Bram Stoker Award "One of the best collections of the 21st century." — Stephen King A chilling collection of psychological suspense and literary horror from the multiple award-winning author of the national bestseller *The Cabin at the End of the World* and *A Head Full of Ghosts*. A masterful anthology featuring nineteen pieces of short fiction, *Growing Things* is an exciting glimpse into Paul Tremblay's fantastically fertile imagination. In "The Teacher," a Bram Stoker Award nominee for best short story, a student is forced to watch a disturbing video that will haunt and torment her and her classmates' lives. Four men rob a pawn shop at gunpoint only to vanish, one-by-one, as they speed away from the crime scene in "The Getaway." In "Swim Wants to Know If It's as Bad as Swim Thinks," a meth addict kidnaps her daughter from her estranged mother as their town is terrorized by a giant monster . . . or not. Joining these haunting works are stories linked to Tremblay's previous

novels. The tour de force metafictional novella "Notes from the Dog Walkers" deconstructs horror and publishing, possibly bringing in a character from *A Head Full of Ghosts*, all while serving as a prequel to *Disappearance at Devil's Rock*. "The Thirteenth Temple" follows another character from *A Head Full of Ghosts*—Merry, who has published a tell-all memoir written years after the events of the novel. And the title story, "Growing Things," a shivery tale loosely shared between the sisters in *A Head Full of Ghosts*, is told here in full. From global catastrophe to the demons inside our heads, Tremblay illuminates our primal fears and darkest dreams in startlingly original fiction that leaves us unmoored. As he lowers the sky and yanks the ground from beneath our feet, we are compelled to contemplate the darkness inside our own hearts and minds.

Applying the ancient yet timeless 81 principles of Taoism to parenting, *The Tao Of Parenting* features instructive anecdotes from four families to demonstrate how Taoist

teachings help parents raise good, healthy children. The stories are just as diverse as the families who tell them (a blended family featuring children from separate marriages, a couple with different cultural and ethical backgrounds, a single parent of twin boys, and a couple with different parenting techniques learning to compromise). Some of the Taoist principles used by these families include:

- \*Do Not Think of Self. Shows the rewards parents receive by making their children their number one priority.
- \*The material is fleeting, the spiritual is everlasting. Demonstrates the rewards of caring for those in need.
- \*Do Not Be Authoritarian. Shows how to foster self-reliance and responsibility in children while supporting their efforts, rather than controlling their every move.
- \*Follow the middle road; it is the heart of knowing. Offers the benefits of parents being neither too permissive or too strict, but rather adjusting the rules for each child and each circumstance. There are many more valuable lessons in this special book which can be used by parents of all faiths to

help guide their lives and those of their children.
