"These are the boys of Pointe du Hoc. These are the men who took the cliffs. These are the champions who helped free a continent. These are the heroes who helped end a war."—Ronald Reagan, June 6, 1984, Normandy, France

Acclaimed historian and author of the "New York Times" bestselling *Tour of Duty* Douglas Brinkley tells the riveting account of the brave U.S. Army Rangers who stormed the coast of Normandy on D-Day and the President, forty years later, who paid them homage. The importance of Pointe du Hoc to Allied planners like General Dwight Eisenhower cannot be overstated. The heavy U.S. and British warships poised in the English Channel had eighteen targets on their bombardment list for D-Day morning. The 100-foot promontory known as Pointe du Hoc -- where six big German guns were ensconced -- was number one. General Omar Bradley, in fact, called knocking out the Nazi defenses at the Pointe the toughest of any task assigned on June 6, 1944. Under the bulldogish command of Colonel James E. Rudder of Texas, who is profiled here, these elite forces "Rudder's Rangers" -- took control of the fortified cliff. The liberation of Europe was under way. Based upon recently released documents from the Ronald Reagan Presidential Library, the Eisenhower Center, Texas A & M University, and the U.S. Army Military History Institute, *The Boys of Pointe du Hoc* is the first in-depth, anecdotal remembrance of these fearless Army Rangers. With brilliant deftness, Brinkley

moves between two events four decades apart to tell the dual story of the making of Reagan's two uplifting 1984 speeches, considered by many to be among the best orations the Great Communicator ever gave, and the actual heroic event, which was indelibly captured as well in the opening scenes of Steven Spielberg's "Saving Private Ryan". Just as compellingly, Brinkley tells the story of how Lisa Zanatta Henn, the daughter of a D-Day veteran, forged a special friendship with President Reagan that changed public perceptions of World War II veterans forever. Two White House speechwriters -- Peggy Noonan and Tony Dolan -- emerge in the narrative as the master scribes whose ethereal prose helped Reagan become the spokesperson for the entire World War II generation.

One of the leading voices on national security issues in the U.S. Congress demonstrates how words have been sharp and powerful weapons of victory in this compilation of great military speeches that helped turn the tide of history. Among the dozens of inspirational speeches featured are: Moses instructing his followers to cross the Jordan River without him. . . Queen Elizabeth pledging to die with her soldiers as they faced the Spanish Armada. . . Patrick Henry choosing between liberty and death. . . Napoleon exhorting his troops as they marched on Egypt. . . Winston Churchill rallying his nation to victory. . . General Sir Montgomery refusing to retreat from Rommel. . . President Roosevelt preparing the American people for World War II. . . General Eisenhower fortifying

his troops for the invasion of Normandy. . . President Reagan demanding that Gorbachev tear down the Berlin Wall. . . President George W. Bush encouraging America after 9/11. . . and more. Congressman Israel has included speeches that have motivated and mobilized, challenged and comforted. Some were blurted in the heat of combat, others were carefully written in places far removed from the brutality of the battlefield, but all will inspire readers with the courage that moved people forward against all odds. Each speech is introduced with an insightful historic context. This dramatic sweep of military history in the words of history's military leaders serves to reinforce the concept that the pen is mightier than the sword.

Wars are fought on the home front as well as the battlefield. Spouses, family, friends, and communities are called upon to sacrifice and persevere in the face of a changed reality. *Hoosiers on the Home Front* explores the lives and experiences of ordinary Hoosiers from around Indiana who were left to fight at home during wartimes. Drawn from the rich holdings of the *Indiana Magazine of History*, a journal of state and midwestern history published since 1905, this collection includes original diaries, letters and memoirs, and research essays—all focused on Hoosiers on the home front of the Civil War through the Vietnam War. Readers will meet, among others, Joshua Jones of the 19th Indiana Volunteer Regiment and his wife, Celia; Attia Porter, a young resident of Corydon, Indiana, writing to her cousin about Morgan's Raid; Civil War and World War I veterans who came into conflict over the Indianapolis 500 and Memorial Day observances; Virginia

Mayberry, a wife and mother on the World War II home front; and university students and professors—including antiwar activist Howard Zinn and conservative writer R. Emmett Tyrrell Jr.—clashing over the Vietnam War. *Hoosiers on the Home Front* offers a compelling glimpse of how war impacts everyone, even those who never saw the front line.

The Teleological Discourse of Barack Obama American Bar Association

Based on a Navy SEAL's inspiring graduation speech, this #1 New York Times bestseller of powerful life lessons "should be read by every leader in America" (Wall Street Journal). If you

want to change the world, start off by making your bed. On May 17, 2014, Admiral William H. McRaven addressed the graduating class of the University of Texas at Austin on their Commencement day. Taking inspiration from the university's slogan, "What starts here changes the world," he shared the ten principles he learned during Navy Seal training that helped him overcome challenges not only in his training and long Naval career, but also throughout his life; and he explained how anyone can use these basic lessons to change themselves-and the world-for the better. Admiral McRaven's original speech went viral with over 10 million views. Building on the core tenets laid out in his speech, McRaven now recounts tales from his own life and from those of people he encountered during his military service who dealt with hardship and made tough decisions with determination, compassion, honor, and courage. Told with great humility and optimism, this timeless book provides simple wisdom, practical advice, and words of encouragement that will inspire readers to achieve more, even in life's darkest moments. "Powerful." --USA Today "Full of captivating personal anecdotes from inside the national security vault." -- Washington Post "Superb, smart, and succinct." --Forbes

In 1950, when he commissioned the first edition of *The Armed Forces Officer*, Secretary of Defense George C. Marshall told its author, S.L.A. Marshall, that "American military officers, of whatever service, should share common ground ethically and morally." In this new edition, the authors methodically explore that common ground, reflecting on the basics of the Profession of Arms, and the officer's special place and distinctive obligations within that profession and especially to the Constitution.

 Something about Ambrosia - Reminds me of PTSD June 27th "National PTSD Awareness Day", this book is about PTSD. You usually find Ambrosia in the first section of the cafeteria serving line,

but with PTSD you never know where it will pop up when you least expect it. Except for some senior citizens, most people just walk by ambrosia on their way to the meat & vegetables. Ambrosia is a unique and sometimes strange fruit salad concoction made up of grapes, pineapple, several types of oranges, marshmallows, coconuts, cherries, and lots of whipped cream. Most grandmothers have a special recipe for ambrosia. However, there is something uniquely odd about ambrosia that is so similar to PTSD. Let's take a look at ambrosia and PTSD. Ø Ambrosia, like PTSD, seems to have a way of choosing you to be the one to test out the recipe. Ø Ambrosia generally lacks any specific form and is never the same. Ø Ambrosia, like PTSD, is made up of some strange and confusing ingredients. Ø Ambrosia can be overpowering at times, like PTSD. No way, would you want to live off a steady diet of ambrosia. The ingredients in ambrosia are real, but the combination seems to defy reasoning. With ambrosia, one is never sure of the outcome. There are approximately 21.6 million veterans alive, who have served faithfully and honorably in our nation's armed forces. Out of that total, there are over 300,000 veterans that are afflicted with PTSD. Additionally, it has been reported that 20% of the returning Iraq and Afghanistan war veterans suffer from PTSD. These are Americans who have served faithfully and honorably in our country's military. They have truly borne the battle into harm's way. They would always certainly wish to live without the effects of PTSD, but they can only live day by day with the terrible symptoms. Here are several of their stories, told from their standpoint in the style of Biblical parables. From WWII to the present day, conflicts in the Middle

East, these parables will inform and educate what it's like to suffer from the debilitating effects of PTSD. For those who have endured the battle; wars, unlike fairy tales, rarely end happily-ever-after. For homecomings, victory speeches, and parades quickly fade and are replaced by the quotidian rhythms of life—rhythms consisting of conscious and unconscious memories that are simultaneously distant but ever-near. These are the memories that both reveal and hide the psychic, social, and spiritual wounds of war. Both the congressionally designated June 27th “National PTSD Awareness Day” and the National Center for PTSD’s designation of June as “PTSD Awareness Month” are powerful and timely reminders of this reality. A thoughtful reading of this book will foster a clear and deeper understanding and appreciation for the all too tragic, but at times hidden, wounds afflicting the lives of over 20% of our Iraq and Afghanistan veterans, as well as the lingering trauma of nearly 31% of Vietnam veterans. Awareness and understanding constitute the first step toward healing. A reading of “Something about Ambrosia ” is the best place to begin.

Near the Top of the Stairs begins as a poem and ends as a biography. It is a journey of specific memories during the times and locations of a young boy looking back at 80 years of a life. The author looks back through the eyes of his youth and reveals the remembered events that have become his life as he nears the top of the stairs. His early childhood and parents begin the journey followed by an uneventful telling of high school followed by revelations in college that exposes his sexuality and his joy of dance and learning. He learns responsibility as an army officer in South Korea where he learns to teach, and he learns compassion as a high school science teacher where he finds his worth through the development of innovative teaching techniques. His shyness gives way to questioning authority that leads to the revelation that his ego often gets in the way of accepting who he has become and what is important in this becoming. Now near the top of the stairs the young boy looking up the stairs acknowledges the creativity associated with dance that freed him to explore and develop to become the young man of 80 near the top of the stairs. And life still inspires him and maybe you to dance.

Over 1,300 total pages ... To the young man or woman choosing a Navy career field, whether for one enlistment or for 30 years, the journalist rating offers endless avenues for an imaginative, yet mature, thinker. Many of the duties and responsibilities of the journalist rank among Americans' favorite hobbies and pastimes, such as writing, broadcasting and photography. The Navy journalist learns and practices a distinguished profession and becomes an official representative of the Navy in public affairs matters. The first enlisted specialists to work full time in the field of Navy journalism were Naval Reserve personnel selected during the early years of World War II. They were designated Specialist X (Naval Correspondents). In 1948, under a major

overhaul affecting almost every enlisted rating, the journalist (JO) rating was established. MAJOR TASKS AND RESPONSIBILITIES LEARNING OBJECTIVE: Identify the major tasks and responsibilities of the Navy journalist, the personal traits required for one to best perform the duties of the rating, the applicable NECs, and the purpose of the JO 3 & 2 training manual (TRAMAN). In our democratic society, government depends on the consent of the governed. This important principle means that, in the long run, the United States

government does only what the people want it to do. Therefore, we can have a Navy only if the people know and understand the importance of the Navy and support it. The Navy, like the other services, depends on this country's citizens for the four key tools of its trade — personnel, money, materials and the authority to carry out its mission. As a Navy journalist, your main function will be to make the facts about your Navy available to the Navy's three main publics — the people at your ship or station, Navy people in general and the people of the United States as a whole.
