PRECIOUS TALAN

TLA Video & DVD Guide 2005 Macmillan Wisconsin has become a laboratory for antidemocratic maneuvers that have considerably reduced citizen participation. This pocket-sized handbook is essential for politically aware citizens who want to reinstate constituent control of government as well as for journalists and organizers watching this crucial battleground state and political bellwether.

Our Military Families Macmillan

A comprehensive critical reference guide for film, video, and DVD discusses both popular movies and independent and international movies; reviews more than 9,500 films, including films from more than fifty countries; offers five different indexes; and much more. Original.

Twelve Ways to Save Democracy in Wisconsin Routledge

Following the great success of *Pioneers of the Possible* (2012)--featuring revolutionary female figures such as Ella Fitzgerald, Frida Kahlo, Simone de Beauvoir, Wangari Maathai, and Zaha Hadid--Angella Nazarian returns with an extraordinary sequel, *Visionary Women*. This new title highlights twenty innovative and forward-thinking women, celebrating their great achievements and their contributions to science, media, politics, the arts, and social change. These women demonstrate passion, fearlessness, and an insatiable curiosity that led each to harness her talents and achieve her goals, no matter how improbable. From Malala Yousafzai as the youngest Nobel Prize laureate and Carmen Amaya beginning her remarkable dance career at four years old to swimmer Diana Nyad breaking a world record at age sixty-four and Doris Lessing still penning stories into her

nineties, this inspiring volume will compel readers to reconnect with their own dreams and envision new goals to challenge themselves at any stage of life. Women profiled in this book include Helen Keller, Amelia Earhart, Sandra Day O'Connor, Maya Angelou, and Marie Curie, with a foreword by the executive director of the Georgetown Institute for Women, Melanne Verveer. AUTHOR: Angella Nazarian is a best-selling author and noted speaker. She was a professor of psychology at Mount Saint Mary's College, California State University Long Beach, and Los Angeles Valley College for eleven years. She has been a keynote speaker at events including the YPO-WPO Global Leadership Conference in Los Angeles and the YPO Women's Lean In Conference in Miami and has conducted various workshops and seminars on topics related to women's personal growth, innovation, and leadership. Nazarian is the co-founder and president of Visionary Women, a nonprofit women's leadership organisation in Los Angeles that brings together some of the world's most dynamic leaders. 100 illustrations

Wilmington University of Georgia Press New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

Cape Fear Lost OECD Publishing

A groundbreaking look at marriage, one of the most basic and universal of all

human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to individuals and society as a whole. The Case for Marriage is a critically important intervention in the national debate about the future of family. Based on the authoritative research of family sociologist Linda J. Waite, journalist Maggie Gallagher, and a number of other scholars, this book's findings dramatically contradict the anti-marriage myths that have become the common sense of most Americans. Today a broad consensus holds that marriage is a bad deal for women, that divorce is better for children when parents are unhappy, and that marriage is essentially a private choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing instead that by a broad range of indices, marriage is actually better for you than being single or divorced- physically, materially, and spiritually. They contend that married people live longer, have better health, earn more money, accumulate more wealth, feel more fulfillment in their lives, enjoy more satisfying sexual relationships, and have happier and more successful children than those who remain single, cohabit, or get divorced. The Case for Marriage combines clearheaded analysis, penetrating cultural criticism, and practical advice for strengthening the institution of marriage, and provides clear, essential guidelines for reestablishing marriage as the foundation for a healthy and happy society. "A compelling defense of a sacred union. The Case for Marriage is well written and well argued, empirically rigorous and learned, practical and commonsensical." -- William J. Bennett, author of The Book of Virtues "Makes the absolutely critical point that marriage

has been misrepresented and misunderstood." -- The Wall Street Journal www.broadwaybooks.com

Lakes Superior and Michigan have long played a vital role in shaping our state's history, culture and economy. For forty

years, the Wisconsin Coastal Management Program has collaborated with governments and nonprofit

organizations to preserve and protect this crucial resource, and, since 2002, has promoted public awareness of issues

affecting the lakes in its annual Wisconsin Great Lakes Chronicle. Great

Lakes Chronicle: Essays on Coastal Wisconsin brings together more than one hundred articles by coastal

management practitioners, providing a broad perspective on issues affecting Wisconsin's Great Lakes shorelines, and advocating for the wise and balanced use of our coastal environment for the benefit of people now and in the future.

Visionary Women DRAM Tree Books
Is regarded as the most important response to the philosophies of desire, as expounded by thinkers such as de Sade, Nietzsche, Bataille, Foucault and Deleuze and Guattari. It is a major work not only of philosophy, but of sexual politics, semiotics and literary theory, that signals the passage to postmodern philosophy.

The New York Times Page One, 1851-2004 The Case for Marriage
Progress is a contradictory term, one that inherently means an improvement of luxury and an advancement of technology, yet usually at the expense of a community's identity, traditions, and history. Though many buildings survived Civil War skirmishes and Northern occupation during Reconstruction, these same structures did not escape the plans of ambitious entrepreneurs and thus disappeared from Wilmington's landscape, only to be replaced, over time, by shopping plazas and nationally recognizable commercial facades. Cape Fear Lost celebrates places that have vanished from presentday Wilmington. In this volume of more than 200 photographs, you will be able to explore the Wilmington of a bygone era, one punctuated by unpaved tree-lined streets and architecturally diverse dwellings. As you thumb through these pages, you will experience firsthand the beauty of many former mansions scattered throughout the downtown area, familiar churches, civic buildings and schools that once dotted the cityscape, the many businesses that

utilized the pedestrian, horse-and-wagon, and shipping traffic along Market Street, and the transformation of Wrightsville Beach and Carolina Beach from humble summer bungalows into major tourist retreats. These varied scenes allow you an extraordinary insight into this coastal community's changing character over the past century and a half.

The Wisconsin Blue Book Crown

A guide for students and professionals in the field, offering information on chemical properties of hazardous materials and wastes; legal requirements for handling, storage, transportation, and disposal; and

essentials of managing hazardous materials and wastes for protection of employees, facilities, and communities. Includes bandw photos and diagrams, real-life examples of policies and legal instruments, checklists, and tables. Suggested readership includes environmental health specialists, corporate employees, attorneys, engineers, students, and laypeople. Annotation copyrighted by Book News, Inc., Portland, OR

Gender Analysis in Papua New Guinea Arcadia Publishing

Research on gene drive systems is rapidly advancing. Many proposed applications of gene drive research aim to solve environmental and public health challenges, including the reduction of poverty and the burden of vector-borne diseases, such as malaria and dengue, which disproportionately impact low and middle income countries. However, due to their intrinsic qualities of rapid spread and irreversibility, gene drive systems raise many questions with respect to their safety relative to public and environmental health. Because gene drive systems are designed to alter the environments we share in ways that will be hard to anticipate and impossible to completely roll back, questions about the ethics surrounding use of this research are complex and will require very careful exploration. *Gene Drives on the Horizon* outlines the state of knowledge relative to the science, ethics, public engagement, and risk assessment as they pertain to research directions of gene drive systems and governance of the research process. This report offers principles for responsible practices of gene drive research and related applications for use by investigators, their institutions, the research funders, and regulators.

Getting Ready for the 4th Grade Assessment Test: Help Improve Your Child's Math and English Skills – Many parents are expressing a demand for books that will help their children succeed and excel on the fourth grade assessment tests in math and English –especially in areas where children have limited access to computers. This book will help students practice basic math concepts, i.e., number sense and applications as well as more difficult math, such as patterns, functions, and algebra. English skills will include practice in reading comprehension, writing, and vocabulary. Rubrics are included for self-evaluation.

TLA Film and Video Guide Marquis Who's Who

The Gullah people are one of our most distinctive cultural groups. Isolated off the South Carolina-Georgia coast for nearly three centuries, the native black population of the Sea Islands has developed a vibrant way of life that remains, in many ways, as African as it is American. This landmark volume tells a multifaceted story of this venerable society, emphasizing its roots in Africa, its unique imprint on America, and current threats to its survival. With a keen sense of the limits to establishing origins and tracing adaptations, William S. Pollitzer discusses such aspects of Gullah history and culture as language, religion, family and social relationships, music, folklore, trades and skills, and arts and crafts. Readers will learn of the indigo- and rice-growing skills that slaves taught to their masters, the echoes of an African past that are woven into baskets and stitched into quilts, the forms and phrasings that identify Gullah speech, and much more. Pollitzer also presents a wealth of data on blood composition,

bone structure, disease, and other biological factors. This research not only underscores ongoing health challenges to the Gullah people but also helps to highlight their complex ties to various African peoples. Drawing on fields from archaeology and anthropology to linguistics and medicine, *The Gullah People and Their African Heritage* celebrates a remarkable people and calls on us to help protect their irreplaceable culture.

Language of Space Routledge

This report presents a comprehensive assessment of the policy instruments adopted by the Netherlands to reach carbon neutrality in its manufacturing sector by 2050. The analysis illustrates the strength of combining a strong commitment to raising carbon prices with ambitious technology support, uncovers the pervasiveness of competitiveness provisions, and highlights the trade-off between short-term emissions cuts and longer-term technology shift.

Who's Who of American Women

2004-2005 Wisconsin Historical Society

This book argues that - in terms of

institutional design, the allocation of power and privilege, and the lived experiences of citizens - democracy often does not restart the political game after displacing authoritarianism.

Democratic institutions are frequently designed by the outgoing authoritarian regime to shield incumbent elites from the rule of law and give them an unfair advantage over politics and the economy after democratization.

Authoritarianism and the Elite Origins of Democracy systematically documents and analyzes the constitutional tools that outgoing authoritarian elites use to accomplish these ends, such as electoral system design, legislative appointments, federalism, legal immunities, constitutional tribunal design, and supermajority thresholds for change. The study provides wide-ranging evidence for these claims using data that spans the globe and dates from 1800 to the present. Albertus and Menaldo also conduct detailed case studies of Chile and Sweden. In doing so, they explain why some democracies successfully overhaul their elite-biased constitutions for more egalitarian social contracts.
