BUSINESS.
Let's Talk Business

Heinle & Heinle
Publishers
The book was written
out of Jason's passion
to want more students
and individuals to learn
to become
entrepreneurs. Jason
believes that the
African American
community can change
its paradigms by
learning to become
financially
independent.
AuthorHouse
Let's Talk Business is a
dynamic business ESL
text that combines
basic through

advanced business concepts with general and business-oriented communication skills. It can be used by students preparing to major in business, those in a business program, as well as those already in the workplace who want to improve their communication skills. It fills the gap in materials available to students whose main interest is to be successful in the international business world by combining traditional business content, such as economics, marketing, management, and written and oral communication with nontraditional content such as etiquette, corporate culture, and environmental

concerns. This text empowers students with the communication tool they need to succeed professionally and socially in the global marketplace.
