Between Breaths Penguin

From tips on life, love, and everything in between; to original DIYs, recipes, and style hacks; to the incredible story of a girl next door turned Internet sensation, *Make Your Mind Up* is the ultimate guide to rocking your look and ruling your world—from inspirational YouTuber, designer, entrepreneur, and digital influencer, Bethany Mota. When Bethany first propped her camera on a stack of books and pressed record on her family's handheld camera in 2009, she didn't realize her life was about to change—forever. After uploading her first video to YouTube at just thirteen years old, Bethany quickly became one of the Internet's go-to beauty, style, and lifestyle vloggers. Since then, she has filmed countless room tours and tutorials, traveled the world, experimented with hundreds of DIYs, designed her own clothing line, gone on an international tour, competed on *Dancing with the Stars*, and created health, beauty, and wellness content for multiple platforms. But before Bethany found her #MotaFam online, life wasn't looking so great: After being intensely bullied in school, the already shy Bethany retreated further into her shell, suffering from crippling anxiety and a lack of self-confidence she just couldn't shake. From growing up on a dairy farm in small-town Los Banos, California, to figuring out how to overcome anxiety and find her voice, to finally breaking out of her shell and learning to forge her own positive path, *Make Your Mind Up* is more than just a heartwarming memoir or lifestyle guide—this is a portrait of Bethany's life, exactly how she lives it.

Just Try One Bite Simon and Schuster

The first in an epic new fantasy series, introducing an unforgettable new heroine and a stunningly original dystopian steampunk world with a flavor of feudal Japan. *A DYING LAND* The Shima Imperium verges on the brink of environmental collapse; an island nation once rich in tradition and myth, now decimated by clockwork industrialization and the machine-worshippers of the Lotus Guild. The skies are red as blood, the land is choked with toxic pollution, and the great spirit animals that once roamed its wilds have departed forever. *AN IMPOSSIBLE QUEST* The hunters of Shima's imperial court are charged by their Shogun to capture a thunder tiger – a legendary creature, half-eagle, half-tiger. But any fool knows the beasts have been extinct for more than a century, and the price of failing the Shogun is death. *A HIDDEN GIFT* Yukiko is a child of the Fox clan, possessed of a talent that if discovered, would see her executed by the Lotus Guild. Accompanying her father on the Shogun's hunt, she finds herself stranded: a young woman alone in Shima's last wilderness, with only a furious, crippled thunder tiger for company. Even though she can hear his thoughts, even though she saved his life, all she knows for certain is he'd rather see her dead than help her. But together, the pair will form an indomitable friendship, and rise to challenge the might of an empire.

Heart Talk Threshold Editions

"Hilarious and Heartbreaking. Comedy shouldn't take courage, but it made an exception for Bassem." --Jon Stewart "The Jon Stewart of the Arabic World"—the creator of *The Program*, the most popular television show in Egypt's history—chronicles his transformation from heart surgeon to political satirist, and offers crucial insight into the Arab Spring, the Egyptian Revolution, and the turmoil roiling the modern Middle East, all of which inspired

the documentary about his life, *Tickling Giants*. Bassem Youssef's incendiary satirical news program, *Al-Bernameg* (The Program), chronicled the events of the 2011 Egyptian Revolution, the fall of President Hosni Mubarak, and the rise of Mubarak's successor, Mohamed Morsi. Youssef not only captured his nation's dissent but stamped it with his own brand of humorous political criticism, in which the Egyptian government became the prime laughing stock. So potent were Youssef's skits, jokes, and commentary, the authoritarian government accused him of insulting the Egyptian presidency and Islam. After a six-hour long police interrogation, Youssef was released. While his case was eventually dismissed, his television show was terminated, and Youssef, fearful for his safety, fled his homeland. In *Revolution for Dummies*, Youssef recounts his life and offers hysterical riffs on the hypocrisy, instability, and corruption that has long animated Egyptian politics. From the attempted cover-up of the violent clashes in Tahrir Square to the government's announcement that it had created the world's first "AIDS cure" machine, to the conviction of officials that Youssef was a CIA operative—recruited by Jon Stewart—to bring down the country through sarcasm. There's much more—and it's all insanely true. Interweaving the dramatic and inspiring stories of the development of his popular television show and his rise as the most contentious funny-man in Egypt, Youssef's humorous, fast-paced takes on dictatorship, revolution, and the unforeseeable destiny of democracy in the Modern Middle East offers much needed hope and more than a few healing laughs. A documentary about his life, *Tickling Giants*, debuted at the Tribeca Film Festival in 2016, and is now scheduled for major release.

Revolution for Dummies Harper Collins

The world needs a strong America, and America needs an economic revival after the Coronavirus season of shutdowns. Can the playbook that resulted in the greatest job market in history put Americans back to work? From the first moments of his presidency, Donald J. Trump put US economic revival at the top of his agenda. Cutting red tape and slashing business tax rates made companies eager to locate in America again. A surge in corporate investment led to record numbers of US job openings. But there was also another force at work at the start of the Trump era, and it's impossible to provide a fair accounting of Trump's governance without noting the unique obstacles he's faced. The President's critics styled themselves "The Resistance," as if they were confronting a tyrant at the head of an invading army rather than their duly elected President. Much of the media establishment regularly—and wrongly—accused him of betraying the country. Most disturbing was the resistance movement inside government, formed even before the 2016 election, which unleashed unprecedented surveillance against Donald Trump. The political and media warfare has never ended. Just as an impeachment case collapsed in the Senate earlier this year, the world was beginning to realize how large a threat the Chinese communist government had become—and what it had been hiding in Wuhan. The destruction caused by the coronavirus is the latest and greatest test for the Trump prosperity agenda. Once again the health and wealth of the world depend on US leadership for economic revival. This is the story of the man US voters chose to lead in 2016 and will soon consider to lead again.

Hillary Clinton said that Find a Way would stay with her through the general election: "When you're facing big challenges in your life, you can think about Diana Nyad getting attacked by the lethal sting of box jellyfishes. And nearly anything else seems doable in comparison." On September 2, 2013, at the age of sixty-four, Diana Nyad emerged onto the sands of Key West after swimming 111 miles, nation to nation, Cuba to Florida, in an epic feat of both endurance and human will, in fifty-three hours. Diana carried three poignant messages on her way across this stretch of shark-infested waters, and she spoke them to the crowd in her moment of final triumph: 1. Never, ever give up. 2. You're never too old to chase your dreams. 3. It looks like a solitary sport, but it's a Team. Millions of people around the world cheered this maverick on, moved by her undeniable tenacity to be the first to make the historic crossing without the aid of a shark cage. At the end of her magnificent journey, after thirty-five years and four crushing failures, the public found hope in Diana's perseverance. They were inspired by her mantra—find a way—that led her to realize a dream in her sixties that had eluded her as a young champion in peak form. In *Find a Way*, Diana engages us with a unique, passionate story of this heroic adventure and the extraordinary life experiences that have served to carve her unwavering spirit. Diana was a world champion in her twenties, setting the record for

swimming around Manhattan Island, along with other ocean-swim achievements, all of which rendered her a star at the time. Back then, she made the first attempt at the Mount Everest of swims, the Cuba Swim, but after forty-two hours and seventy-nine miles she was blown desperately off course. Her dream unfulfilled, she didn't swim another stroke for three decades. Why, at sixty-four, was she able to achieve what she could not at thirty? How did her dramatic failures push her to success? What inner resources did Diana draw on during her long days and nights of training, and how did the power of the human spirit trump both the limitations of the body and the forces of nature across this vast, dangerous wilderness? This is the gripping story of an athlete, of a hero, of a bold mind. This is a galvanizing meditation on facing fears, engaging in our lives full throttle, and living each day with no regrets.

It's All Love St. Martin's Press

Over twenty years ago a gentleman in Asbury Park, N. J. began manufacturing and advertising a preparation for the immediate and unflinching straightening of the most stubborn Negro hair. This preparation was called Kink-No-More, a name not wholly accurate since users of it were forced to renew the treatment every fortnight. During the intervening years many chemists, professional and amateur, have been seeking the means of making the downtrodden Aframerican resemble as closely as possible his white fellow citizen. The temporarily effective preparations placed on the market have so far proved exceedingly profitable to manufacturers, advertising agencies, Negro newspapers and beauty culturists, while millions of users have registered great satisfaction at the opportunity to rid themselves of kinky hair and grow several shades lighter in color, if only for a brief time. With America's constant reiteration of the superiority of whiteness, the avid search on the part of the black masses for some key to chromatic perfection is easily understood. Now it would seem that science is on the verge of satisfying them.

Jimmy Fallon is very thankful. And in this first book to come from his TV show, he expresses his gratitude for everything from the light bulb he's too lazy to replace to the F12 button on his computer's keyboard. He thanks microbreweries for making his alcoholism seem like a neat hobby. He thanks the name "Lloyd" for having two L's. Otherwise it would just sound like "Loyd." He thanks the slow-moving family walking in front of him on the sidewalk. Without this "barricade of idiots," he might never have been forced to walk in the street and risk getting hit by a car in order to get around them. He's thankful to you, the person reading this right now. It means you're considering buying this book. You should do it. You will be thankful that you did.

The Late Shift Random House Books for Young Readers

A Wall Street Journal and Washington Post Bestseller, Own It is a new kind of career playbook for a new era of feminism, offering women a new set of rules for professional success: one that plays to their strengths and builds on the power they already have. Weren't women supposed to have "arrived"? Perhaps with the nation's first female President, equal pay on the horizon, true diversity in the workplace to come thereafter? Or, at least the end of "fat-shaming" and "locker room talk"? Well, we aren't quite there yet. But does that mean that progress for women in business has come to a screeching halt? It's true that the old rules didn't get us as far as we hoped. But we can go the distance, and we can close the gaps that still exist. We just need a new way. In fact, there are many reasons to be optimistic about the future, says former Wall Street powerhouse-turned-entrepreneur Sallie Krawcheck. That's because the business world is changing fast --driven largely by technology - and it's changing in ways that give us more power and opportunities than ever...and even more than we yet realize. Success for professional women will no longer be about trying to compete at the men's version of the game, she says. And it will no longer be about contorting ourselves to men's expectations of how powerful people behave. Instead, it's about embracing and investing in our innate strengths as women - and bringing them proudly and unapologetically, to work. When we do, she says, we gain the power to advance in our careers in more natural ways. We gain the power to initiate courageous conversations in the workplace. We gain the power to forge non-traditional career paths; to leave companies that don't respect our worth, and instead, go start our own. And we gain the power to invest our economic muscle in making our lives, and the world, better. Here Krawcheck draws on her experiences at the highest levels of business, both as one of the few women at the top rungs of the biggest boy's club in the world, and as an entrepreneur, to show women how to seize this seismic shift in power to take their careers to the next level. This change is real, and it's coming fast. It's time to own it.
