 The SSBCI provides funding to states, territories, and eligible municipalities to expand existing or to create new state small business investment programs, including state capital access

programs, collateral support programs, loan participation programs, loan guarantee programs, and venture capital programs. This book examines the SSBCI and its implementation, including Treasury's response to initial program audits conducted by the U.S. Government Accountability Office and Treasury's Office of Inspector General. These audits suggested that SSBCI participants were generally complying with the statute's requirements, but that some compliance problems existed, in that, the Treasury's oversight of the program could be improved; and performance measures were needed to assess the program's efficacy.

Few needs are more important to a nonprofit organization than funding for operating costs. In this new directory, nonprofits and other organizations seeking grants and funding opportunities to support general operating expenses will find over 1,300 current operating grants—organized by state—with contact and requirement information for each. Three user-friendly indexes (subject, sponsor, and geographic restriction) help grantseekers quickly find the ideal funding opportunity.

Grants are available from thousands of sources, both private and public. To the grantseeker, however, this wealth of sources appears like an impenetrable jungle. "Where are the grants I need and what do I need to do to submit my ideas and proposals?" This book is designed to answer these questions by aiming the grantseeker to both the grant givers and by providing a bibliography of book for further research.
