Here's a marvelous picture book, charmingly written and beautifully illustrated, about the power of memory and the magic of friendship. Llewellyn, a little rabbit, is a collector. He gathers things in jars--ordinary things like buttercups, feathers, and heart-shaped stones. Then he

meets another rabbit, Evelyn, and together they begin to collect extraordinary things--like rainbows, the sound of the ocean, and the wind just before snow falls. And, best of all, when they hold the jars and peer inside, they remember all the wonderful things they've seen and done. But one day, Evelyn has sad news: Her family is moving away. How can the two friends continue their magical collection--and their special friendship--from afar?

In this classic Irish legend, two harpists -- merry-hearted Old Pat and ill-spirited Young Tom -- set off for a contest to name the finest harpist in all of Ireland. When Young Tom realizes that Old Pat is truly the better musician, he schemes to be the winner -- but he doesn't reckon with the clever trickery of a mischievous little leprechaun. Noted picture book creators Pamela Duncan Edwards and Henry Cole have imagined a joyful and fanciful tale with a priceless lesson.

Because of Mr. Terupt Scholastic Inc. Kindergarten is a time for

The Morning Meeting Book Yearling

Today's classrooms reimagined If you're looking for a book on how to "control" your students, this isn't it! Instead, this is a book on what classroom learning could be if we aspire to co-create more culturally responsive and equitable environments—environments that are safe, affirming, learner-centered, intellectually challenging, and engaging. If we create the kind of places where our students want to be . . . A critically important resource for teachers and

administrators alike, "These Kids Are Out of Control" details the specific practices, tools, beliefs, dispositions, and mindsets that are essential to better serving the complex needs of our diverse learners, especially our marginalized students. Gain expert insight on: What it means to be culturally responsive in today's classroom environments, even in schools at large How to decide what to teach, understand the curriculum, build relationships in and outside of school, and assess student development and learning The four best practices for building a classroom culture that is both nurturing and rigorous, and where all students are seen, heard, and respected Alternatives to punitive disciplinary action that too often sustains the cradle-to-prison pipeline Classroom "management" takes care of itself when you engage students, help them see links and alignment of the curriculum to their lives, build on and from student identity and culture, and recognize the many ways instructional practices can shift. "These Kids Are Out of Control" is your

opportunity to get started right away!
