Alcoholism has been called a "family disease" and yet the family, in particular the wife, of the alcoholic seems to go unseen by the addiction and recovery communities. And what support, advice and programs there are for the women married to alcoholics tend to be alcoholic-centric. "The Alcoholic Husband

Primer" is advice for the wives of alcoholics based on their needs - not the needs of the alcoholic. It doesn't label women as "co-dependent." It doesn't accuse them of being "enablers." It's real, practical, everyday advice for the wives of alcoholics...written by the wife of an alcoholic.

For some forty years, my life was consumed by the effects of drugs and alcohol abuse. When life finally appeared, all was gone: jobs, family (wife and kids) were gone, so was my good health, money, my home. There was no other choice but to get help for my problems. Years passed before I received the help I really needed. So when

the time came to prepare of my new life, recovery had to be taken quite seriously. No more hanging out with the boozin' crowd. No more hanging out at the bars and nightclubs. No more deception dodging the truth. The story is one of hundreds thousands of stories told every day. This struggle all but killed me. It took the very soul of me. Helping other became an obsession to prove to the drug addicts and alcoholics that life will be better only if they would make up their minds to join others to form a strong support group of individuals who have experienced the same losses but gained their common sense approach by making positive lifestyle changes and encouraging others to

join in on the journey to a heavenly path to end the slavery and once and for all be able to accept freedom on its own terms. This story reaches out to all who search for an end but in the past was unable to find the peace and joy they yearned for. The positive is understanding why acceptance must be positive in order to give oneself the opportunity to pass on their blessings to others, which is a joy in itself to behold. This is meant to bless, not impress, to inspire the deepest desires of God's gift of love and freedom. Sobriety is a freedom of expression, fresh start approach to bringing misery, and paint to an end.

Destruction Has An Exit

A spirited new translation of a forgotten classic, shot through with timeless wisdom Is there an art to drinking alcohol? Can drinking ever be a virtue? The Renaissance humanist and neoclassical poet Vincent Obsopoeus (ca. 1498-1539) thought so. In the winelands of sixteenth-century Germany, he witnessed

the birth of a poisonous new culture of bingeing, hazing, peer pressure, and competitive drinking. Alarmed, and inspired by the Roman poet Ovid's *Art of Love*, he wrote *The Art of Drinking (De Arte Bibendi)* (1536), a how-to manual for drinking with pleasure and discrimination. In *How to Drink*, Michael Fontaine offers the first proper English translation of Obsopoeus's text, rendering his poetry into spirited, contemporary prose and uncorking a forgotten classic that will appeal to drinkers of all kinds and (legal) ages. Arguing that moderation, not abstinence, is the key to lasting sobriety, and that drinking can be a virtue if it is done with

rules and limits, Obsopoeus teaches us how to manage our drinking, how to win friends at social gatherings, and how to give a proper toast. But he also says that drinking to excess on occasion is okay—and he even tells us how to win drinking games, citing extensive personal experience. Complete with the original Latin on facing pages, this sparkling work is as intoxicating today as when it was first published.

Mr. Evans speaks out about alcoholism: I chose the title, 'THE GIFT...that keeps on giving' to illuminate that 'Once an alcoholic, always an alcoholic'. That does not mean one must die a drunk! It simply stresses that

alcoholism, like diabetes is a lifetime disease. And like diabetes, with proper care, diet and exercise...And abstaining from alcohol, alcoholism can be controlled. From around age 18 to 49, I suffered from the disease of alcoholism. A good portion of those years, I was not aware of my disease. I could not link my troubles, loss of family, homes, and jobs, and overall misery to alcohol. In the last 8 of those years, I (and others) just wrote me off as a hopeless misfit. I was homeless, unemployable, and a sad example of human existence. December first, 1983, I had my last drink of alcohol, checked myself in at a detox center in Orlando, Fl. I have not

had a drink of alcohol since. At first, my recovery process was not a pleasant one, but it was worth the misery of withdrawing from the demon alcohol. I attended Alcoholics Anonymous regularly, listened and absorbed other's experience, strength, and hope. I became teachable and returned to a beautiful life. After getting re-married I became employable and started my own business. I taught myself art, painting over 500 pieces of oil paintings. Attending the gym regularly has not just been healthful, it has been a tremendous joy, working out, meeting people, and socializing. I am retired now, living a beautiful life with my wife of 33 years, and 36 years sobriety, and

at age 86, am fit as a fiddle. I do have diabetes, high blood pressure, and a few other ailments, however, with diet, exercise, and following my doctor's advice, (and not drinking alcohol or smoking) I am very active and happy. Should I never have admitted I needed help, and joined Alcoholics Anonymous, I would not have re-learned honorable living and not have continued serenity... Is why I consider my alcoholism 'the gift that keeps on giving.'

At birth, I was brought home in a limousine. I was born into affluence, an influential family and a promising future. At age thirteen, I had my first drink. My high school years were

full of fun, friends, success in athletics and respect. I drank. In my twenties and thirties, I owned an advertising agency, a catering business, a used car dealership, acquired my pilot's license, a thirty foot Winnebago, sail boats, a home, a wife, and three kids. I drank more. In my forties, I lost my advertising business, my catering business, my car business, my pilot's license, my driver's license and got my first DUI. I drank more even after admitting I was an alcoholic. My early fifties found me becoming general manager and Vice President of a multi-million dollar manufacturing company. My drinking increased from alcoholism to

addiction. At age fifty-five I was cuffed and shackled in a caged bus to two years in prison with a felony 5 DUI record. My wife filed for divorce, I lost my job and lost my financial security through bad investments and legal fees. I found the exit off this road to destruction. At fifty-seven I am happy, spiritual, sober, believing in myself again and blessed with the return of my family, my home and my dreams. Get in and ride with me on my journey to sobriety and salvation.

Determine if your drinking is a problem, develop strategies for curbing your intake, and measure your

progress with this practical, engaging guide to taking care of yourself. Every day, millions of people drink a beer or two while watching a game, shake a cocktail at a party with friends, or enjoy a glass of wine with a good meal. For more than 30 percent of these drinkers, alcohol has begun to have a negative impact on their everyday lives. Yet, only a small number are true alcoholics--people who have completely lost control over their drinking and who need alcohol to function. The great majority are what Dr. Doyle and Dr. Nowinski call "Almost Alcoholics," a growing number of people whose excessive drinking contributes to a variety of problems in their lives. In Almost

Alcoholic, Dr. Doyle and Dr. Nowinski give the facts and guidance needed to address this often unrecognized and devastating condition. They provide the tools to identify and assess your patterns of alcohol use; evaluate its impact on your relationships, work, and personal well-being; develop strategies and goals for changing the amount and frequency of alcohol use; measure the results of applying these strategies; and make informed decisions about your next steps.

pages from *Waiting For His Heart*- God tells us to love our enemies. But what about loving and honoring a husband who chooses to walk away from his family, setting up residence in a prison of addiction? Seldom is there a faith with the tenacity that the author displayed during her twenty-two years of praying, enduring tremendous trials and sorrow. "I will honor my vow, no matter what," were words spoken by this young bride, believing in the promise of new life and vows spoken. The "no matter what" took this family on such a seemingly discouraging journey that even Christian family and friends believed restoration was impossible. Joy learned to place her

complete hope in Christ alone, believing that God's mercy and grace is sufficient to reach even the darkest and most hardened heart - including her own. A beautiful, transparent portrait of redemption as marriage is viewed as a living, breathing example of Christ and His bride. Readers will be encouraged and equipped to persevere through deep marital waters.

Fifteen million Americans a year are plagued with alcoholism. Five million of them are women. Many of them, like Caroline Knapp, started in their early teens and began to use alcohol as "liquid armor," a way to protect themselves against the difficult realities of life. In this extraordinarily candid and revealing memoir, Knapp offers important insights not only about alcoholism, but about life itself and how we learn to cope with it. It was love at first sight. The beads of moisture on a chilled bottle. The way the glasses clinked and the conversation flowed. Then it became obsession. The way she hid her bottles behind her lover's refrigerator. The way she slipped

from the dinner table to the bathroom, from work to the bar. And then, like so many love stories, it fell apart. Drinking is Caroline Kapp's harrowing chronicle of her twenty-year love affair with alcohol. Caroline had her first drink at fourteen. She drank through her yeras at an Ivy League college, and through an award-winning career as an editor and columnist. Publicly she was a dutiful daughter, a sophisticated professional. Privately she was drinking herself into oblivion. This startlingly honest memoir lays bare the secrecy, family myths, and destructive relationships that go hand in hand with drinking. And it is, above all, a love story for our times—full of

passion and heartbreak, betrayal and desire—a triumph over the pain and deception that mark an alcoholic life. Praise for Drinking “Quietly moving . . . Quit Like a Woman Dial Press Trade Paperback
Daddy, Daddy Please Stop Drinking chronicles the true life story of my personal fight from homeless alcoholic to living a life beyond my wildest dreams. My name is Dr. Robb Kelly and

today I run a successful alcohol and addiction recovery business but I had to travel to hell and back to make me the man I am today. I am not sure when I crossed the line from social drinking to alcoholism, I just know I did and my life would never be the same again. I was married with children and had a great career, life could not have been better. The only problem is that I drank too much, and when I did I lost control. When I enjoyed my drinking I couldn't control it, and when I controlled my drinking I couldn't enjoy it. Finally, alcoholism gripped me hard and like most people I sank really quickly. I lost everything: my business, my home, my wife, and most

importantly my two young daughters. I had a PhD from Oxford University but went from a comfortable home to homelessness and lived on the mean streets of Manchester England for a year asking for handouts to purchase liquor. While homeless, I was arrested several times, prone to blackouts that lasted for weeks, and was assaulted physically and sexually. I have had several near brushes with death, including an attempted suicide. So great was my despair of my alcoholic and addictive condition that I just wanted to die. On a cold and wet English night, I fell to my knees and begged God to help me find a way from the endless nightmare that was my existence and

moments later a man carrying a bible rounded the corner and offered me a helping hand. My plea that cold night opened the door to sobriety and I found the answer I was looking for. To my amazement it had been there all along, I just had to hit rock bottom before I would accept it. Since recovering from a hopeless state of alcoholism, it has become my life mission to assist other hopeless, chronic alcoholics and addicts and educate all I could on the dangers and warning signs of alcohol and addiction. That is my purpose and my passion, to assist the still struggling alcoholic and addict recover their lives. I was an alcoholic whose symptoms and not my

disease were treated every trip to hospital. My gripping story of success to failure to success proves that it's never too late to recover your life from alcoholism and addiction. Everyone had written me off as dead twenty years ago but I'm still standing and I have one hell of a story to share. If you're struggling with drug and alcohol abuse yourself or are the loved one of an alcoholic or addict, this book will inspire you to never give up hope. Today, I'm living the dream instead of dreaming to live.

For a decade, Lisa Livingston has watched her husband drown himself in booze. She's done everything she can to help him or, at least, understand why he can't embrace a sober life. They have, after all, everything they've ever dreamed of. As Jeff's drinking escalates, Lisa must make a decision. Lord, Please Make Him Stop Drinking Elsevier This eminently practical guide presents an empirically supported approach for treating people with substance abuse problems and their spouses or domestic partners. Behavioral couples therapy (BCT) explicitly focuses on both substance use and relationship issues, and is readily compatible with 12-step approaches. Doherty, PhD. In *Hold Me Tight*, Dr. Johnson shares her groundbreaking and

remarkably successful program for creating stronger, more secure relationships. The message of *Hold Me Tight* is simple: Forget about learning how to argue better, analyzing your early childhood, making grand romantic gestures, or experimenting with new sexual positions. Instead, get to the emotional underpinnings of your relationship by recognizing that you are emotionally attached to and dependent on your partner in much the same way that a child is on a parent for nurturing, soothing, and protection. Dr. Johnson teaches that the way to enhance or save a relationship is to be open, attuned, and responsive to each other and to

reestablish emotional connection. With this in mind, she focuses on key moments in a relationship and uses them as touch points for seven healing conversations, including: Recognizing the Demon Dialogues Finding the Raw Spots Revisiting a Rocky Moment Forgiving Injuries Keeping Your Love Alive These conversations give you

insight into the defining moments in your relationship and guide you in reshaping these moments to create a secure and lasting bond. Through stories from Dr. Johnson's practice, illuminating advice, and practical exercises, you will learn how to nurture, protect, and grow your relationship, ensuring a lifetime of love.
