 La bellezza trasmessa da un gesto gentile, da un viso radioso, da una conversazione eloquente, da una mano curata, da un abito bello, da un biglietto scritto a penna o da una casa accogliente, è di considerevole importanza; è un marchio distintivo della donna. La

cura personale, la consapevolezza a di sé e il sapersi comportare, rappresentano le colonne portanti del fascino femminile. In Consigli da amica, l'autrice svela in maniera confidenziale le regole più importanti per imparare a diventare la versione migliore di noi stesse. Femmine nasciamo, donne diventiamo. (Imparando.)

 In the list of life's big questions, "What should I wear?" can loom surprisingly large in a woman's

mind. But for most of us today, "What should I wear to work?" looms even larger. When workplaces encompass everything from the thirtieth-floor boardroom to an open-plan loft to a desk in the corner of a studio, the question gets complicated indeed. Lands' End® Business Attire for Women will help you quickly and confidently assess your workplace and your style, so you'll always

know exactly what to wear to work. One size does not fit all, of course, and this book is full of self-assessment quizzes, sample outfits to inspire and inform, and a broad spectrum of choices so you can always be confident that you are appropriately dressed. Based on the ABC model, Lands' End® Business Attire for Women divides workplace style into Almost a Suit ensembles,

From “Pants to Avoid” to business travel checklists and advice for recent college grads, Lands’

End® Business Attire for Women will guide you toward a working wardrobe that is appropriate, flexible, and flattering. struggle to overcome their grief and reach out to one another before their love fades away. *A History of Maternity Wear* Bloomsbury Publishing USA The definitive career guide for grad students, adjuncts, post-docs and anyone else eager to get tenure or turn their Ph.D. into their ideal job Each year tens of thousands of students will, after years of hard work and enormous

amounts of money, earn their Ph.D. And each year only a small percentage of them will land a job that justifies and rewards their investment. For every comfortably tenured professor or well-paid former academic, there are countless underpaid and overworked adjuncts, and many more who simply give up in frustration. Those who do make it share an important asset that separates

them from the pack: they have a plan. They understand exactly what they need to do to set themselves up for success. They know what really moves the needle in academic job searches, how to avoid the all-too-common mistakes that sink so many of their peers, and how to decide when to point their Ph.D. toward other, non-academic options. Karen Kelsky has made it her mission to

help readers join the select few who get the most out of their Ph.D. As a former tenured professor and department head who oversaw numerous academic job searches, she knows from experience exactly what gets an academic applicant a job. And as the creator of the popular and widely respected advice site The Professor is In, she has helped countless Ph.D.'s turn themselves

into stronger applicants and land their dream careers. Now, for the first time ever, Karen has poured all her best advice into a single handy guide that addresses the most important issues facing any Ph.D., including: - When, where, and what to publish - Writing a foolproof grant application - Cultivating references and crafting the perfect CV - Acing the job talk and campus

interview - Avoiding the adjunct trap - Making the leap to nonacademic work, when the time is right The Professor Is In addresses all of these issues, and many more. This unique four-volume encyclopedia examines the historical significance of fashion

trends, revealing the social and cultural connections of clothing from the precolonial times to the present day. This sweeping overview of fashion and apparel covers several centuries of American history as seen through the lens of the clothes we wear—from the Native American moccasin to Manolo Blahnik's contribution to stiletto heels. Through four detailed volumes, this

work delves into what people wore in various periods in our country's past and why—from hand-crafted family garments in the 1600s, to the rough clothing of slaves, to the sophisticated textile designs of the 21st century. More than 100 fashion experts and clothing historians pay tribute to the most notable garments, accessories, and people comprising design and fashion. The

four volumes contain more than 800 alphabetical entries, with each volume representing a different era. Content includes fascinating information such as that beginning in 1619 through 1654, every man in Virginia was required to plant a number of mulberry trees to support the silk industry in England; what is known about the clothing of enslaved African Americans; and that there

were regulations placed on clothing design during World War II. The set also includes color inserts that better communicate the visual impact of clothing and fashion across eras. *Clothing and Fashion [4 volumes]* Kensington Books

Wear just 33 items for 3 months and get back all the JOY you were missing while you were worrying what to wear. In Project 333, minimalist

expert and author of *Soulful Simplicity* Courtney Carver takes a new approach to living simply--starting with your wardrobe. Project 333 promises that not only can you survive with just 33 items in your closet for 3 months, but you'll thrive just like the thousands of woman who have taken on the challenge and never looked back. Let the de-cluttering begin! Ever ask yourself

how many of the items in your closet you actually wear? In search of a way to pare down on her expensive shopping habit, consistent lack of satisfaction with her purchases, and ever-growing closet, Carver created Project 333. In this book, she guides readers through their closets item-by-item, sifting through all the emotional baggage associated

with those oh-so strappy high-heel sandals that cost a fortune but destroy your feet every time you walk more than a few steps to that extensive collection of never-worn little black dresses, to locate the items that actually look and feel like you. As Carver reveals in this book, once we finally release ourselves from the cyclical nature of consumerism and focus less on our shoes and more on

our self-care, we not only look great we feel great--and we can see a clear path to make other important changes in our lives that reach far beyond our closets. With tips, solutions, and a closet-full of inspiration, this life-changing minimalist manual shows readers that we are so much more than what we wear, and that who we are and what we have is so much more than enough.
