Confronting the Challenges of Participatory Culture University of Oklahoma Press
 'Wonderfully dark, extremely funny' proclaimed ADAM KAY, author of the No.1 bestselling *This is Going to Hurt* 'A filmic romp with great characters, a jet-propelled plot, and a winning premise' said the GUARDIAN JASON MANFORD thinks it's 'Hilarious. You'll never look at Manchester the same way again.' The Chronicles of St Mary's series author JODI TAYLOR declared 'I loved this . . . great premise - great story - great characters . . . hugely enjoyable.' And THE TIMES called it 'ripping entertainment from start to finish.' There are dark forces at work in our world (and in Manchester in particular), so thank God *The Stranger Times* is on hand to report them . . . A weekly newspaper dedicated to the weird and the wonderful (but mostly the weird), it is the go-to publication for the unexplained and inexplicable. At least that's their pitch. The reality is rather less auspicious. Their editor is a drunken, foul-tempered and foul-mouthed husk of a man who thinks little of the publication he edits. His staff are a ragtag group of misfits. And as for the assistant editor . . . well, that job is a revolving door - and it has just revolved to reveal Hannah Willis, who's got problems of her own. When tragedy strikes in her first week on the job *The Stranger Times* is forced to do some serious investigating. What they discover leads to a shocking realisation: some of the stories they'd previously dismissed as nonsense are in fact terrifyingly real. Soon they come face-to-face with darker forces than they could ever have imagined. *The Stranger Times* is the first novel from C.K. McDonnell, the pen name of Caimh McDonnell. It combines his distinctive dark wit with his love of the weird and wonderful to deliver a joyous celebration of how truth really can be stranger than fiction. Readers love *The Stranger Times*: ***** 'A delight from start to finish - laugh out loud funny yet with plenty of thrills.' ***** 'Full of wit and humour, and knows how to keep the reader hooked.' ***** 'You'll soon fall in love . . . fans of Pratchett, Gaiman, Aaronovich will be blown away.'

The establishment of South Africa's Truth and Reconciliation Commission was a pioneering international event. Never had any country sought to move forward from despotism to democracy both by exposing the atrocities committed in the past and achieving reconciliation with its former oppressors. At the center of this unprecedented attempt at healing a nation has been Archbishop Desmond Tutu, whom President Nelson Mandela named as Chairman of the Truth and Reconciliation Commission. With the final report of the Commission just published, Archbishop Tutu offers his reflections on the profound wisdom he has gained by helping usher South Africa through this painful experience. In *No Future Without Forgiveness*, Tutu argues that true reconciliation cannot be achieved by denying the past. But nor is it easy to reconcile when a nation "looks the beast in the eye." Rather than repeat platitudes about forgiveness, he presents a bold spirituality that recognizes

the horrors people can inflict upon one another, and yet retains a sense of idealism about reconciliation. With a clarity of pitch born out of decades of experience, Tutu shows readers how to move forward with honesty and compassion to build a newer and more humane world.

 The creators of the cult-hit podcast *Chapo Trap House* deliver a manifesto for everyone who feels orphaned and alienated—politically, culturally, and economically—by the lanyard-wearing Wall Street centrism of the left and the lizard-brained atavism of the right: there is a better way, the Chapo Way. In a guide that reads like "a weirder, smarter, and deliciously meaner version of *The Daily Show's 2004 America (The Book)*" (Paste), *Chapo Trap House* shows you that you don't have to

side with either sinking ships. These self-described “assholes from the internet” offer a fully ironic ideology for all who feel politically hopeless and prefer broadsides and tirades to reasoned debate. Learn the “secret” history of the world, politics, media, and everything in-between that THEY don’t want you to know and chart a course from our wretched present to a utopian future where one can post in the morning, game in the afternoon, and podcast after dinner without ever becoming a poster, gamer, or podcaster. A book that’s “as intellectually serious and analytically original as it is irreverent and funny” (Glenn Greenwald, New York Times bestselling author of *No Place to Hide*) The *Chapo Guide to Revolution* features illustrated taxonomies of contemporary liberal and conservative characters, biographies of important thought leaders, “never before seen” drafts of Aaron Sorkin’s Newsroom manga, and the ten new laws that govern *Chapo Year Zero* (everyone gets a dog, billionaires are turned into Soylent, and logic is outlawed). If you’re a fan of sacred cows, prisoners being taken, and holds being barred, then this book is NOT for you. However, if you feel disenfranchised from the political and cultural nightmare we’re in, then *Chapo*, let’s go...

A seasoned political analyst and strategist argues why the U.S. must elect a woman president now and lays out a plan of action to make it happen. Yes. She. Can. *Vote Her In* addresses the unrealized dream of millions of American women: electing our first woman president. It makes the case for the urgency of women attaining equal executive power at all levels, including the presidency, and offers a comprehensive strategy for every woman to be a part of this campaign—the most important of our lifetimes. Women are wildly underrepresented at every level of the U.S. government: federal, state, and local. Research has shown that women in executive government positions are far more likely than men to commit to policies that benefit women, girls, and other marginalized groups. So, after centuries of underrepresentation, it’s clear: our best bet for creating a system that is more fair, balanced, and just for everyone is electing our first Madam President—as soon as we can. *Vote Her In* is organized around the inspirational messages seen on protest signs carried at the record-breaking 2017 Chicago Women’s March. Part One outlines the case for why we need to mobilize now, and Part Two provides a clear strategy for how to do it. Each chapter in Part Two includes an action plan that women can complete to help each other (or themselves) attain political power and work toward electing our first woman president. Author Rebecca Sive draws on her decades of political experience to create this crucial book, which empowers every American man, woman, and child who cares about our nation’s democratic future to harness their collective power in the run-up to 2020 and, at last, form a more perfect union. Praise for Rebecca Sive’s *Vote Her In* “Rebecca astutely explores a critical question: If we believe in justice for every American, will we work to elect women to public offices across the country, including the presidency? We must!” —Lisa Madigan, former attorney general, Illinois “Sive takes her years of dedication to advancing women’s political careers and causes and turns them into a call to action along with some of the practical tools needed for real and rapid progress.” —Katherine Baicker, dean, University of Chicago Harris School of Public Policy “Far too few women, especially women of color, have the opportunity to become political leaders. Let’s #VoteHerIn, as Sive’s inspirational guide so powerfully argues.” —Kimberly M. Foxx, state’s attorney, Cook County, Illinois

The Way of the Strangers Random House

“An illuminating work of massive insight” on the complex ideas and events that initiated the historical shift between the 19th and 20th centuries (Alan Moore, author of *V for Vendetta* and *Watchmen*). “An always-provocative view of an era that many people would just as soon forget . . . an absorbing tour of the 20th century.” —Kirkus Reviews In *Stranger Than We Can Imagine*, John Higgs argues that before 1900, history seemed to make sense. We can understand innovations like electricity, agriculture, and democracy. The twentieth century, in contrast, gave us relativity, cubism, quantum mechanics, the id, existentialism, Stalin, psychedelics, chaos mathematics, climate change and postmodernism. In order to understand such a disorienting barrage of unfamiliar and knotty ideas, Higgs shows us, we need to shift the framework of our interpretation and view these concepts within the context of a new kind of historical narrative. Instead of looking at it as another step forward in a stable path, we need to look at the twentieth century as a chaotic seismic shift, upending all linear narratives. Higgs invites us along as he journeys across a century “about which we know too much” in order to grant us a new perspective on it. He brings a refreshingly non-academic, eclectic and infectiously energetic approach to his subjects as well as a unique ability to explain how complex ideas connect and intersect—whether he’s discussing Einstein’s theories of relativity, the Beat poets’ interest in Eastern thought or the bright spots and pitfalls of the American Dream.

The Breakfast Club meets *Saved!* in debut author Katie Henry’s hilarious novel about a band of misfits who set out to challenge their school, one nun at a time. Perfect for fans of Becky Albertalli and Robyn Schneider. When Michael walks through the doors of Catholic school, things can’t get much worse. But when Michael takes one mission too far—putting the other Heretics at risk—he must decide whether to fight for his own freedom or rely on faith, whatever that means, in God, his friends, or himself.

Americans are losing touch with reality. On virtually every issue, from climate change to immigration, tens of millions of Americans have opinions and beliefs wildly at odds with fact, rendering them unable to think sensibly about politics. In *How America Lost Its Mind*, Thomas E. Patterson explains the rise of a world of “alternative facts” and the slow-motion cultural and political calamity unfolding around us. We don’t have to search far for the forces that are misleading us and tearing us apart: politicians for whom division is a strategy; talk show hosts who have made an industry of outrage; news outlets that wield conflict as a marketing tool; and partisan organizations and foreign agents who spew disinformation to advance a cause, make a buck, or simply amuse themselves. The consequences are severe. *How America Lost Its Mind* maps a political landscape convulsed with distrust, gridlock, brinkmanship, petty feuding, and deceptive messaging. As dire as this picture is, and as unlikely as immediate relief might be, Patterson sees a way forward and underscores its urgency. A call to action, his book encourages us to wrest institutional power from ideologues and disruptors and entrust it to sensible citizens and leaders, to restore our commitment to mutual tolerance and restraint, to cleanse the Internet of fake news and disinformation, and to demand a steady supply of trustworthy and relevant information from our news sources. As philosopher Hannah Arendt wrote decades ago, the rise of demagogues is abetted by “people for whom the distinction between fact and fiction, true and false, no longer exists.” In *How America Lost Its Mind*, Thomas E. Patterson makes a passionate case for fully and fiercely engaging on the side of truth and mutual respect in our present arms race between fact and fake, unity and division, civility and incivility.

A REESE’S BOOK CLUB PICK * NEW YORK TIMES BESTSELLER The refreshingly original and “startlingly hopeful” (Lisa Taddeo) debut memoir of an over-achieving young lawyer who reluctantly agrees to group therapy and gets psychologically and emotionally naked in a room of six complete strangers—and finds human connection, and herself. Christie Tate had just been named the top student in her law school class and finally had her eating disorder under control. Why then was she driving through Chicago fantasizing about her own death? Why was she envisioning putting an end to the isolation and sadness that still plagued her despite her achievements? Enter Dr. Rosen, a therapist who calmly assures her that if she joins one of his psychotherapy groups, he can transform her life. All she has to do is show up and be honest. About everything—her eating habits, childhood, sexual history, etc. Christie is skeptical, insisting that that she is defective, beyond cure. But Dr. Rosen issues a nine-word prescription that will change everything: “You don’t need a cure. You need a witness.” So begins her entry into the strange, terrifying, and ultimately life-changing world of group therapy. Christie is initially put off by Dr. Rosen’s outlandish directives, but as her defenses break down and she comes to trust Dr. Rosen and to depend on the sessions and the prescribed nightly phone calls with various group members, she begins to understand what it means to connect. “Often hilarious, and ultimately very touching” (People), Group is “a wild ride” (The Boston Globe), and with Christie as our guide, we are given a front row seat to the daring, exhilarating, painful, and hilarious journey that is group therapy—an under-explored process that breaks you down, and then reassembles you so that all the pieces finally fit.

Many teens today who use the Internet are actively involved in participatory cultures—joining online communities (Facebook, message boards, game clans), producing creative work in new forms (digital sampling, modding, fan videomaking, fan fiction), working in teams to complete tasks and develop new knowledge (as in Wikipedia), and shaping the flow of media (as in blogging or podcasting). A growing body of scholarship suggests potential benefits of these activities, including opportunities for peer-to-peer learning, development of skills useful in the modern workplace, and a more empowered conception of citizenship. Some argue that young people pick up these key skills and competencies on their own by interacting with popular culture; but the problems of unequal access, lack of media transparency, and the breakdown of traditional forms of socialization and professional training suggest a role for policy and pedagogical intervention. This report aims to shift the conversation about the “digital divide” from questions about access to technology to questions about access to opportunities for involvement in participatory culture and how to provide all young people with the chance to develop the cultural competencies and social skills needed. Fostering these skills, the authors argue, requires a systemic approach to media education; schools, afterschool programs, and parents all have distinctive roles to play. The John D. and Catherine T. MacArthur Foundation Reports on Digital Media and Learning
