This book explores Zambia's culture, through various topics, focusing on how "traditional" and "modern" interact, and sometimes collide. *Bemba* Greenwood In Congo's Shadow is the inspiring memoir of an intrepid teenager who abandoned her privileged life in Scotland to travel to Zambia as a gap year student where she found herself

inadvertently caught up in the fringe of the Congolese War. A 'skinny white muzungu with long angel hair', Louise was an anomaly in darkest Africa. Posted to a tiny village on the shores of Lake Tanganyika just miles from Congo, she became immersed in a remote world of unsurpassed natural beauty rife with hidden danger. Life was at first idyllic. As the weeks passed, Louise formed

close friendships with the Bemba people, learnt their language, and created a little school under the Mukusi tree. Still struggling with the untimely loss of her mother, Louise found comfort in her bond withimba, a six-year-old orphan girl who she came to love as her own. Monsoon season came and went, and just as normal life resumed Louise fell for a young German pilot, but their

courtship could not last. News of civil war was spreading down the lake as the Hutu-Tutsi conflict began to escalate... This compelling coming-of-age story is a tale of lost innocence and one daring young girl's bittersweet journey to heart of Africa as she conquers fear, breaks barriers and learns that friendship can transcend race, age, and history.

The Forgotten Soldiers by Elliam Moses Mulenga The Forgotten Soldiers gives information

about African Soldiers who served with the British Army in the Second World War, the King's African Rifles (KAR), whose regional Headquarters was in Nairobi, Kenya. The forces fought against Italian fascist forces in Somaliland and Ethiopia and engaged Japanese forces in Asia. The author's father was in the Northern Rhodesian (Zambia) contingent. At the end of the war, after their demobilisation

, most of these men ended up as paupers without any tangible benefits or support from the British Government. However, the author's father was employed back home as a messenger in the British colonial administration . Follow the author's childhood life both under colonial administration and independent Zambia and many former combatants and others who could not

be honoured by both the colonial and Zambian Governments. Witness the author's personal achievements as he later studied in Portugal and ended up going into Diplomatic Services. See how his experience caused him to excel. This book deals with the issues of his country Zambia, Africa, and the world at large. The author was kidnapped in the Democratic

Republic of Congo while serving as a diplomat before retiring into private life. *Satisfying Zambian Hunger for Culture* BRILL The definitive guide to this excellent country for wildlife watching and home to one of the jewels of Africa - Victoria Falls. Zambia
 Multilingual Matters
 Originally published in 1978, this volume is divided into 3 parts. Part 1 presents an overview of the linguistic situation in Zambia: who speaks which languages,

where they are spoken, what these languages are like. Special emphasis is given to the extensive survey of the languages of the Kafue basin, where extensive changes and relocations have taken place. Part 2 is on language use: patterns of competence and of extension for certain languages in urban settings, configurations of comprehension across language

boundaries, how selected groups of multilinguals employ each of their languages and for what purposes, what languages are used in radio and television broadcasting and how decisions to use or not use a language are made. Part 3 involves language and formal education: what languages, Zambian and foreign, are used at various levels in the schools, which are taught, with

what curricula, methods, how teachers are trained, how issues such as adult literacy are approached and with what success. higher education, there is a growing scholarly interest in communication issues and subjects, especially on the role of music, in the political arena. Music and Messaging in the African Political Arena provides innovative insights into providing music and songs as an integral part of sending political messages to a broader spectrum of audiences, especially during

political campaigns. The content within this publication covers such topics as framing theory, national identity, and ethnic politics, and is designed for politicians, campaign managers, political communication scholars, researchers, and students. Lulu.com Getting Zambia to Work examines some critical issues in Zambia's recent history, including the country's unhealthy dependency on 'foreign largess' and their implications for national self-assertion, social self-reliance and sustainable development. The book suggests practical and simple ways in which Zambia could lift itself out of its current underdevelop

ment trap. Though most of the proposed solutions do not require huge investments in new money, they do however require improved transparency and accountability in the use of existing resources. *Zambian Languages* Harlequin The aim of this book is to inform both scholars and the public about the nature and extent of the problem of language

decline and death in Africa. It resourcefully traces the main causes and circumstances of language endangerment, the processes and extent of language shift and death, and the consequences of language loss to the continent's rich linguistic and cultural heritage. The book outlines some of the challenges that have emerged out of the situation.

Intercultural Communicati

on Edinburgh University Press A New York Times Notable Book Chinese immigrants of the recent past and unfolding twenty-first century are in search of the African dream. So explains indefatigable traveler Howard W. French, prize-winning investigative journalist and former New York Times bureau chief in Africa and China, in the definitive account of this seismic geopolitical development.

China's burgeoning presence in Africa is already shaping, and reshaping, the future of millions of people. From Liberia to Senegal to Mozambique, in creaky trucks and by back roads, French introduces us to the characters who make up China's dogged emigrant population: entrepreneurs singlehandedly reshaping African infrastructure, and less-lucky migrants

barely scraping by but still convinced of Africa's opportunities. French's acute observations offer illuminating insight into the most pressing unknowns of modern Sino-African relations: Why China is making these cultural and economic incursions into the continent; what Africa's role is in this equation; and what the ramifications for both parties and their people—and

the watching world—will be in the foreseeable future.
