Nursing Home Federal Requirements, 8th Edition Springer Publishing Company

"This book is an excellent resource for students, educators, and long-term care administrators. This engaging eighth edition provides useful knowledge and up-to-date information to all those interested in long-term care management." --Doody's Review Service, 5 stars Now in its eighth edition, *Nursing Home Administration* remains the authoritative textbook detailing the nursing facility administrator role, what they do, how they think, and how they lead. By breaking down the art of administration into its basic, need-to-know tasks—forecasting, planning, organizing, staffing, directing, controlling quality, innovating, and marketing—this text provides the essential context for managing and leading nursing homes and skilled nursing facilities. Thoroughly updated to include the four domains of practice as put forth by the National Association of Long-Term Care Administrator Boards (NAB) for 2022 licensure examination and beyond, this textbook is complete

with essential context for the domains and associated competencies to better prepare students for the required NAB examination. With revised sections addressing new federal regulations and laws affecting the field, best practices in residential care, and refreshed examples and cases, this text continues to set students up for success in working as a nursing facility administrator. Updated sections address changes within the residential care continuum, provide further information on patient-driven payment models and value-based care, and inform current practices for marketing and controlling quality within the long-term care facility. Chapter boxes reflect common pitfalls in practice while real-life case studies and critical thinking exercises, including a "What Do I Do Now?" section that concludes all chapters, encourage students to consider challenges they may experience in the field. In addition to updated domains of practice—care, services, and supports; operations; environmental and quality; and leadership and strategy—the book describes how core components fit together. New to the Eighth Edition: Includes the updated 2022 domains of practice as they relate to the licensing examination standards of the National Association of Long-Term Care Administrator Boards (NAB) Replete with information on new federal laws, requirements, and

regulations including links to important resources such as the Minimum Data Set 3.0 Provides insight into the impact the COVID-19 pandemic has and will create for managing a long-term care facility Introduces Common Pitfalls in Practice sections and "What Do I Do Now?" boxes in each chapter, designed to spark critical thinking and discussion Updated figures, tables, and references throughout Key Features: Provides an in-depth discussion of nursing facility administration Utilizes current data of nursing facility administration and skilled nursing care within the context of the larger long-term care field Case studies throughout the textbook address real-world situations and experiences for administrators and managers in nursing facility administration and skilled nursing care Purchase includes digital access for use on most mobile devices or computers Qualified Instructors can gain access to the book's accompanying Instructor's Manual **"Code of Massachusetts regulations, 2014"** Springer Publishing Company Archival snapshot of entire looseleaf Code of Massachusetts Regulations held by the Social Law Library of Massachusetts as of January 2020. **"Code of Massachusetts regulations, 2003"** Springer Publishing Company

[The book] lists all the federal requirements that are evaluated by state surveyors during the annual survey visit to nursing homes and for complaint visits. The exhibit section contains forms used by surveyors to gather data during the survey visit. Visually, the format makes the regulations easy to read. If nursing home staff used the book to prepare for a survey, they would be well prepared. Marcia Flesner, PhD, RN, MHCA University of Missouri-Columbia From Doody's Review The Federal government, together with more than 50 advocacy groups, has spent the past 40 years writing and refining the rules and guidelines in this manual. This book presents the latest federal guidelines and protocols used by federal surveyors in certifying facilities for participation in Medicare and Medicaid funding. It is an essential resource for long-term care facilities to have on hand to be ready for a survey at any time. It provides information straight from CMS's Internet-Only Manual-in print and at your fingertips for easy access. Divided into four accessible and user-friendly parts, this manual includes: Federal requirements and interpretive guidelines Rules for conducting the survey Summary of the requirements for long-term care facilities and surveyors CMS forms commonly used by surveyors This newly updated and revised edition spans every aspect and service of a nursing home and represents the latest requirements to ensure that outstanding quality assurance and risk management programs are in place. New to This Edition: Section on how to use manual Summarization of federal requirements Updated definitions of Medicare and Medicaid Compliance requirements with Title VI of the Civil Rights Act of 1964 SNF/Hospice requirements when SNF serves hospice patients SNF-based home health agencies Life safety code requirements Changes in SNF provider status Surveyor qualifications standards Management of complaints and incidents New medical director guidelines

Named a 2013 Doody's Essential Purchase! The sixth edition of Nursing Home Administration contains essential information to prepare an individual for licensure and employment as a nursing home administrator. This book addresses all regulatory pieces of information to provide readers with an overview of the entire process of managing a nursing facility. This edition has been updated to reflect the most accurate and up-to-date information to reflect new legislation and regulations passed since previous edition in 2008. This textbook serves as a roadmap for studying

and understanding all the various requirements-management, human resources, finance and business, industry laws and regulations, and patient care. It demonstrates how all components fit together to form the coordinated activity set required of a successful nursing home administrator. Key Features: Formatted according to licensing examination and guidelines of the National Association of Boards of Examiners of Nursing Home Administrators New federal guidelines to surveyors New resident assessment instrument Updated figures and tables New life safety code inspection processes New ICDM-10 (International Classification of Diseases-Modified) Sub-set of federal forms included in appendices Web references to enable the reader to successfully navigate the nursing home administration field

Managing the Long-Term Care Facility

Contains more than 300 practice questions and answers! Assisted Living Administration and Management Review is the first practical question-based study guide for anyone preparing for certification or licensure exams in residential care and assisted living (RC/AL) administration. Organized according to the original five domains of practice established by the National Association of Long-Term Care Administrator Boards (NAB) and used in Assisted Living Administration and Management: Effective Practices and Model Programs in Elder Care, Second Edition, the book reflects the type of questions seen on the state and national exams. Answers and brief rationales have been provided in a final chapter organized according to the five domains of practice or knowledge areas of responsibility - Organizational Management, Human Resources Management, Business and Financial Management, Environmental Management, and Resident Care Management. Written by certified assisted living administrators and licensed health professionals and featuring questions relevant to all state-based exams, this is the authoritative study guide for anyone seeking professional certification/licensure in this growing line of service. The review begins with a comprehensive introduction to the current professional landscape of residential care and assisted living administration in addition to coverage of the different certification and licensure programs available. The following domain-based chapters feature multiple-choice, single-best answer questions, covering all core knowledge areas of responsibility that one is likely to see when taking state or national exams. Containing over 300 practice questions with rationales to encourage self-assessment and further learning, this is a must-have resource for students and professionals seeking RC/AL administrator certification or licensure. Key Features: Over 300 multiple-choice, single-best answer questions with answers and rationales Prepares students to study for Residential Care/Assisted Living (RC/AL) administrator certification and licensure exams administered at the state or national level Organized according to five domains of practice - Organizational Management, Human Resources Management, Business and Financial Management, Environmental Management, and Resident Care Management Written by certified assisted living administrators and licensed health professionals
