What really happened? Were those historical events really that glamorous, that glorifying, and that exciting? We know they were not; at least not at the time. When Custer's 7th cavalry regiment was wiped out at the battle of the Little Big Horn, it was reported that there were no survivors. There were over 5000 survivors - all Native Americans. Their story reveals the truth of that battle. According to their

testimony Custer was probably the first to die, forever debunking the picture of him on a hilltop fighting to the last. Was Lincoln concerned with preserving the union or ending slavery? What were Nixon's crimes? How did so many Nazis escape justice? How did The Declaration of Independence written by Thomas Jefferson finally get edited to its present form? What is the truth behind the Roswell stories? Was it a government cover-up? Do we really have an alien spacecraft and alien bodies? What did they use before toilet paper? What were the first laws? Who wrote them? How long ago? Was

Spartacus the man portrayed by Kirk Douglas? Would you be surprised to find out that Cleopatra was neither beautiful nor Egyptian? If not, why were men so attracted to her? She was a red head and there are no aspens in Egypt. She used a cobra and it had nothing to do with learning that Marc Antony was dead. When did it become the White House and was there always an oval office? How close did gangster Bugsy Siegel come to killing both Herman Goering and Josef Goebbels? Who was the major league baseball star who parachuted behind enemy lines to spy on the Nazis? Did Dwight Eisenhower really

have a mistress? Was Harry S. Truman chosen to run as vice president or chosen to become the next president? These questions and more, much much more, are the essence of this book.

Michael Jackson: Exceptional Artist or Genius? Points to consider. Springer Winner of the Management and Leadership Textbook category at the CMI Management Book of the Year Awards 2013/14, International Management explores management opportunities in encounters across the world between national, organizational, political, professional and social cultures. It is soundly based theoretically and supported with real-life international examples from contemporary events and situations, exploring contemporary and historical material to provide insights for today's managers who find themselves dealing with diversity and difference. From a historical perspective and a uniquely cross-disciplinary approach, Elizabeth Christopher identifies the major leadership styles that continue to characterise people across regions, nations, communities and organisations, within groups and as individuals. International Management is a

practical and comprehensive textbook for successful negotiation in a world rich not only in cultural diversity but also in convergence. It also covers the ethical, moral and environmental ramifications of business today and the corporate leaders who are learning to manage their businesses across nations and continents, not only profitably but in ways that contribute to societies overall through economic, environmental and social action. International Management is an indispensable guide for students and practitioners to key issues of cross-cultural management, suitable to accompany online or private studies, or a teaching unit within professional and university graduate studies of international management. Online supporting resources for this book include lecture slides and notes for academics.

It's here and it's queer - popular culture inhabits all our lives, whether it comes in the form of movies or magazines, TV or shopping. A Queer Romance brings together critics, writers and artists to debate the possibilities of popular culture for lesbians and gay men. In a collection

that is in-er-face but never out-to-lunch, the contributors variously revisit debates about the gaze to provide a new theory of Queer viewing; discuss texts coded as queer - from lesbian vampires to Hollywood's use of gay codes in mainstream films such as Top Gun and Black Widow; consider the sexual and cultural narratives at play in the world of home shopping catalogues; explore the pleasures and perils of gay cultural production, from the radically queer film-making of Monika Treut to the wild world of homocore fanzines, and address the possibilities of texts claiming to be for the gay spectator - from pornography 'by women, for women and about women' to 'Out' TV. The contributors to A Queer Romance don't all agree but, taken together, the collection argues strongly that everyone can have their queer moments.

Behind the Mask In the 21st century celebrities and celebrity culture thrives. This book explores the much noted but little analyzed relationship between celebrity and crime. Criminals who become celebrities and celebrities who become criminals are examined, drawing on Foucault's theory of governance. [The Dangerous Philosophies of Michael Jackson](#) Authors On Line Ltd Chronicles the life and career of Michael Jackson from his years with the Jackson 5 to his rise as a global superstar, as told by his mother. [A Queer Romance](#) NYU Press Please note: this edition is text only and does not contain images. This is the full story of every single song that Michael Jackson recorded and released during his long and remarkable solo career. With fascinating stories and detailed

information on every track - as well as key early songs with The Jackson Five and his legendary dance moves and videos - All the Songs is the complete history of one of the greatest musical legacies of all time. Arranged chronologically by album, expert authors Lecocq and Allard explore the details behind early hits such as ABC and I Want You Back, to solo masterpieces such as Don't Stop 'Til You Get Enough, Billie Jean, Beat It, Smooth Criminal, Black or White, This Is It and more - including outtakes, duets and rare tracks. Explore the magic behind the King of Pop's music with this in-depth, captivating book. *Freakery* Createspace Independent Pub A biography of the entertainer and TV personality who is perhaps the most famous woman in America, and without doubt the most famous black woman. A volume in the Melrose Square Black American Series. **MJ: The Genius of Michael Jackson** Grand Central Publishing Blackface minstrelsy, the nineteenth-century performance practice in which ideas and images of blackness were constructed and theatricalized by and for whites, continues to permeate

contemporary popular music and its audience. Harriet J. Manning argues that this legacy is nowhere more evident than with Michael Jackson in whom minstrelsy's gestures and tropes are embedded. During the nineteenth century, blackface minstrelsy held together a multitude of meanings and when black entertainers took to the stage this complexity was compounded: minstrelsy became an arena in which black stereotypes were at once enforced and critiqued. This body of contradiction behind the blackface mask provides an effective approach to try and understand Jackson, a cultural figure about whom more questions than answers have been generated. Symbolized by his own whiteface mask, Jackson was at once 'raced' and raceless and this ambiguity allowed him to serve a whole host of others' needs - a function of the mask that has run long and deep through its tortuous history. Indeed, Manning argues that minstrelsy's assumptions and uses have been fundamental to the troubles and controversies with which Jackson was beset.

Michael Jackson's Body Language  
*Elizabeth U* of Minnesota Press

This major biography includes the behind-the-scenes story to many of the landmarks in Jackson's life: his legal and commercial battles, his marriages to Lisa Marie Presley and Debbie Rowe, his passions and addictions, his children; objective and revealing, it carries the hallmarks of all of Taraborrelli's best-sellers: impeccable research, brilliant storytelling and definitive documentation. So much has how been said and written about the life and career of Michael Jackson that it has become almost impossible to disentangle the man from the myth. This book is the fruit of over 30 years of research and hundreds of exclusive interviews with a remarkable level of access to the very closest circles of the Jackson family - including Michael himself. Cutting through tabloid rumours, J. Randy Taraborrelli traces the real story behind Michael Jackson, from his drilling as a child star through the blooming of his talent to his ever-changing personal appearance and bizarre publicity stunts.

[Michael Jackson](#) Crown Archetype  
Analyzing the career of Michael Jackson,

Franck Vidiella questions the sensitive nature of the term "Genius." Based upon a study that confirms that the great geniuses are, nearly in their totality, creative, brilliant, obstinate and multifaceted, each one of the issues are analyzed by studying the career of the Star of Pop, in such a way that they offer elements to answer the following question: Was Michael Jackson an exceptional artist or an absolute Genius? The answer, as you will be able to see, allows a passionate debate.

A close examination of the complexity inherent in Michael Jackson's ambiguous racial identity. In *Michael Jackson and the Quandary of a Black Identity*, Sherrow O. Pinder explores the ways in which the late singer's racial identification process problematizes conceptualizations of race and the presentation of blackness that reduces blacks to a bodily mark. Pinder is particularly interested in how Michael Jackson simultaneously performs his racial identity and posits it against strict binary racial definitions, neither black nor white. While Jackson's self-fashioning

deconstructs and challenges the corporeal notions of "natural bodies" and fixed identities, negative readings of the King of Pop fuel epithets such as "weird" or "freak," subjecting him to a form of antagonism that denies the black body its self-determination. Thus, for Jackson, racial identification becomes a deeply ambivalent process, which leads to the fragmentation of his identity into plural identities. Pinder shows how Jackson as a racialized subject is discursively confined to a "third space," a liminal space of ambivalence. Sherrow O. Pinder is Professor of Political Science and Multicultural and Gender Studies at California State University, Chico. She has published several books, including *Black Political Thought: From David Walker to the Present*.

**Michael Jackson the Solo Years** SAGE Publications

For half a century, Michael Jackson's music has been an indelible part of our cultural consciousness. Landmark albums such as *Off the Wall* and *Thriller* shattered records, broke racial barriers, amassed awards, and set a new standard for popular music. While his songs continue to be played in

nearly every corner of the world, however, they have rarely been given serious critical attention. The first book dedicated solely to exploring his creative work, *Man in the Music* guides us through an unparalleled analysis of Jackson's recordings, album by album, from his trailblazing work with Quincy Jones to his later collaborations with Teddy Riley, Jimmy Jam, Terry Lewis, and Rodney Jerkins. Drawing on rare archival material and on dozens of original interviews with the collaborators, engineers, producers, and songwriters who helped bring the artist's music into the world, Jackson expert and acclaimed cultural critic Joseph Vogel reveals the inspirations, demos, studio sessions, technological advances, setbacks and breakthroughs, failures and triumphs, that gave rise to an immortal body of work.

**Michael Jackson: All the Songs** Vintage Throughout his 40-year career, Michael Jackson intrigued and captivated public imagination through musical ingenuity, sexual and racial spectacle, savvy publicity stunts, odd behaviours, and a seemingly apolitical (yet always political) offering of popular art. A consistent player

on the public stage from the age of eight, his consciousness was no doubt shaped by his countless public appearances, both designed and serendipitous. The artefacts he left behind - music, interviews, books written by and about him, and commercial products including dolls, buttons, posters, and photographs, videos, movies - will all become data in our cultural conversation about who Michael Jackson was, who he wanted to be, who we made him to be, and why. *Michael Jackson: Grasping the Spectacle* includes essays that aim to understand Jackson from multiple perspectives: critical cultural theory, musicology, art history, media studies, cultural anthropology, sociology, philosophy, religious studies, literary theory, gender studies, performance studies, disability studies, film studies, and African-American studies. Intended for classroom use as well as research and general interest, this book expands our understanding both of this fascinating figure himself and of gender, sexuality, celebrity, and popular culture.

**Behind the Mask** Simon and Schuster A Simon & Schuster eBook. Simon & Schuster has a great book for every

reader.

**Never Can Say Goodbye** Infobase Learning

The first comprehensive biography of one of the most admired public figures of our time, by the most widely read biographer of our era. Anyone who is a fan of Oprah Winfrey or who has followed her extraordinary life and career will be fascinated by this exhaustively researched book.

*International Management* Michael O'Mara Books

Michael Jackson was more than just an important figure in popular music; he was an international icon who took the world by storm at eight years old and never looked back.

[Otherness and Power: Michael Jackson and His Media Critics](#) Yale University Press

*Otherness and Power: Michael Jackson and His Media Critics* is an innovative study of the cultural impact of Michael Jackson.

Jackson had millions of ardent fans around the world, but from the early days of his adult career many in the media mocked and reviled him. How did such divergent attitudes come about? This book examines the origins and psychological underpinnings of the media's hostility by closely analyzing some of the most harshly critical writings about Jackson. While racism and discomfort with Jackson's "otherness" have previously been recognized as the elements that fueled media criticisms, Susan Woodward reveals another important factor: the perception that Jackson was extraordinarily powerful, in ways that went beyond celebrity and wealth. Through research and careful analysis, Woodward explores the ways in which Jackson's power was seen, the largely unconscious response to his power, the functions of the media's criticisms and the origins of the perceptions of Jackson's

power.

Journalism permeates our lives and shapes our thoughts in ways that we have long taken for granted. Whether it is National Public Radio in the morning or the lead story on the Today show, the morning newspaper headlines, up-to-the-minute Internet news, grocery store tabloids, Time magazine in our mailbox, or the nightly news on television, journalism pervades our lives. The Encyclopedia of Journalism covers all significant dimensions of journalism, such as print, broadcast, and Internet journalism; U.S. and international perspectives; and history, technology, legal issues and court cases, ownership, and economics. The encyclopedia will consist of approximately 500 signed entries from scholars, experts, and journalists, under the direction of lead editor Gregory Borchard of University of Nevada, Las Vegas.
