The Remingtons are the third installment of the Love in Bloom Series (Voted BEST BOOK SERIES of 2013 by Supportive Business Moms, UK) written by New York Times & USA Today bestselling and award-winning author Melissa Foster. This 5-book contemporary romance series features alpha male heroes and sexy, empowered women. They're flawed, funny, passionate, and relatable to readers who enjoy new adult romance, contemporary romance, and women's fiction. While each book may be read as a standalone, you might enjoy reading the entire Love in Bloom series. IN FLAMES OF LOVE... As one of New York's Finest,

firefighter Cash Ryder is always prepared. When a woman's car skids off the side of a mountain during a snowstorm, he's there to rescue her. Cash is totally focused on the woman's well-being, but within minutes of getting her to safety, he realizes that he's nowhere near prepared for the heat that rolls off of sensual, smart-mouthed, and stubborn Siena Remington. As a model, Siena Remington has dated some of the wealthiest, most handsome men in the industry, and she's made peace with the idea that most men are just looking for eye candy and they wouldn't know how to romance a woman to save their lives. When she's rescued by a tall, handsome stranger, she thinks that maybe,

just maybe, she's found her own real-life romantic fairy tale--until he opens his mouth and everything that comes out is gruff, ornery, and aggravatingly sexy. Thrown together during an annual firehouse calendar photo shoot, the passion between Cash and Siena sizzles, and neither one knows how to control the flames. After an evening of verbal sparring followed by a sinfully sensual night, their darkest secrets are revealed--and so is Cash's warm, romantic heart. But Siena's secret might be too much for big, strong, always-prepared Cash to handle--and Siena is forced to choose between a man who's everything she's ever dreamed of and an opportunity of a

lifetime. ****BONUS****

Northwest of
Manhattan where the
New York-New Jersey
boundary crosses the
tree-covered ridges
and hollows ridges and
hollows of the Ramapo
Mountains there is a
group of about 1,500
racially mixed people
who have long been
referred to by
journalists and
historians as the
"Jackson Whites." In a

study combining the
disciplines of
anthropology,
sociology, folklore, and
history, David Cohen
found that the old
stories about these
people were legends,
not history. He found
no reliable evidence
that their ancestors
were Tuscarora
Indians, Hessian
deserters from the
British army, escaped
slaves, and British and
West Indian prostitutes
imported by a sea
captain named Jackson
for the pleasure of
British soldiers
occupying Manhattan
during the War for
Independence. David
Cohen lived among the
Ramapo Mountain
People for a year,
conducting
genealogical research
into church records,
deeds, wills, and
inventories in county

courthouses and libraries. He established that their ancestors included free black landowners in New York City and mulattoes with some Dutch ancestry who were among the first pioneers to settle in the Hackensack River Valley of New Jersey. In describing his findings and his experiences, Professor Cohen shows how their racially mixed ancestry, their special family and kinship system, and their intergroup attitudes and folkways distinguish and socially isolate these people as a separate racial group today, despite modern communications and transportation and their proximity to New York City.

IN STROKE OF LOVE...
Kate Paletto runs a volunteer program in Belize for Artists for International Aid, where she deals with self-centered artists who use the program as a means to repair their marred reputations. She loves the country, the people, and what AIA stands for, but too many diva volunteers have turned her off to press-seeking celebrities altogether and left her questioning the value of the volunteer program. When she meets incredibly handsome and charming Sage, he stirs emotions she hasn't felt for ages, even though he represents the things she

despises. Laid-back artist Sage Remington escapes his wealthy lifestyle in the Big Apple for a two-week journey of self-discovery to figure out how a guy who has so much can feel so empty. When he meets ultra-organized Kate, who lives her life the way he's always dreamed of living his, the attraction is too hot to ignore, but Sage is there to figure out what's missing in his life, not to find a woman. Every look, and every late-night chat in the romantic jungle brings them closer together, but Sage can barely think past stripping away Kate's misconceptions about him. Kate fights him every step of the way--even though she finds it hard to ignore the strikingly

handsome, generous-to-a-fault artist who wants to do nothing more than right the wrongs of the world--and love her to the ends of the earth. ****BONUS**** Includes the first chapter (sneak peek) of *Flames of Love (The Remingtons)* *STROKE OF LOVE* is part of the *Love in Bloom* series. Diane France loves
bones. Why? Because
they talk to her. Every
skeleton she meets
whispers secrets about
the life-and death-of its

owner. Diane France can hear those secrets because she's a forensic anthropologist, a bone detective. She has the science skills and know-how to examine bones for clues to a mystery: Who was this person and how did he or she die? Bones tell Diane about the life and times of famous people in history, from a Russian royal family to American outlaws and war heroes. They speak to her about murders, mass disasters, and fatal accidents. One day she's collecting skeletal evidence at a crime scene. A phone call later she's jetting to the site of a plane crash or other unexpected tragedy to identify victims. Young readers will be captivated by the

thrilling real-life story of this small-town girl full of curiosity and mischief who became a world-famous bone detective.

An ingenious, masterfully written novel, Thomas Harris's *The Silence of the Lambs* is a classic of suspense and storytelling and the basis for the Oscar award-winning horror film starring Jodie Foster as Clarice Starling and Anthony Hopkins as Dr.

Hannibal Lecter. A serial murderer known only by a grotesquely apt nickname—Buffalo Bill—is stalking particular women. He has a purpose, but no one can fathom it, for the bodies are discovered in different states. Clarice Starling, a young trainee at the F.B.I. Academy, is surprised to be summoned by Jack Crawford, Chief of the Bureau's Behavioral Science section. Her assignment: to interview Dr. Hannibal Lecter, a brilliant psychiatrist and grisly killer now kept under close watch in the Baltimore State Hospital for the Criminally Insane. Lecter's insight into the minds of murderers could help track and capture Buffalo Bill. Smart and attractive,

Starling is shaken to find herself in a strange, intense relationship with the acutely perceptive Lecter. His cryptic clues—about Buffalo Bill and about her—launch Clarice on a search that every reader will find startling, harrowing, and totally compelling.

Balefires is the long-awaited collection of David Drake's weird and fantastic fiction. Before Drake was a best-selling author of military science fiction, he was a prolific writer of horror and fantasy short fiction. Balefires collects some of his earliest professional sales (including his first sale to Arkham House.) In addition, Balefires brings together many stories set in the

worlds of his fantasy novels (Ranks of Bronze, Lord of the Isles, etc.) and contains original fiction. More than just a collection of stories, Balefires features extensive story notes that chronicle the development of the writing career of one of the science fiction's most popular writers, and provides detailed snapshots of the larger than life editors, publishers and writers that Drake has worked with throughout his career. Skyhorse Publishing, under our Night Shade and Talos imprints, is proud to publish a broad range of titles for readers interested in science fiction (space opera, time travel, hard SF, alien invasion, near-future dystopia), fantasy (grimdark,

sword and sorcery, contemporary urban fantasy, steampunk, alternative history), and horror (zombies, vampires, and the occult and supernatural), and much more. While not every title we publish becomes a New York Times bestseller, a national bestseller, or a Hugo or Nebula award-winner, we are committed to publishing quality books from a diverse group of authors.

Nanotechnology is key to the design and manufacture of the new generation of cosmetics. Nanotechnology can enhance the performance and properties of cosmetics, including colour, transparency, solubility, texture, and durability. Sunscreen products, such as UV nano-filters, nano-TiO₂ and nano-ZnO particles, can offer an advantage over their traditional counterparts due to their broad UV-protection and non-cutaneous side effects. For perfumes, nano-droplets can be found in cosmetic products including Eau de Toilette and Eau de Parfum. Nanomaterials can also be used in cosmetics as transdermal drug delivery systems. By

using smart nanocontainers, active compounds such as vitamins, antioxidants, nutrients, and anti-inflammatory, anti-infective agents, can be delivered effectively. These smart nanocontainers are typically related with the smart releasing property for their embedded active substances. These smart releases could be obtained by using the smart coatings as their outer nano-shells. These nano-shells could prevent the direct contact between these active agents and the adjacent local environments.

Nanocosmetics: Fundamentals, Applications and Toxicity explores the formulation design concepts and emerging applications of

nanocosmetics. The book also focuses on the mitigation or prevention of their potential nanotoxicity, potential global regulatory challenges, and the technical challenges of mass implementation. It is an important reference source for materials scientists and pharmaceutical scientists looking to further their understanding of how nanotechnology is being used for the new generation of cosmetics. Outlines the major fabrication and formulation design concepts of nanoscale products for cosmetic applications Explores how nanomaterials can safely be used for various applications in cosmetic products Assesses the major challenges of using

nanomaterials for cosmetic applications on a large scale

Kidnapped and sold into slavery in the American South, freeman Solomon Northup spent twelve years in bondage before being freed.

Twelve Years a Slave is Northup's moving memoir, revealing unimaginable details of the horrors he faced as a slave on Southern plantations, and his unshakable belief that he would return home to his family. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe's *Uncle Tom's Cabin*, Northup's story was quickly taken up by abolitionist groups and news organizations as part of the fight

against slavery, and continues to resonate more than a century after the end of the American Civil War.

Illuminatus! Sphere America's "Millionaires' Club" now has 10.4 million members – the most ever, according to the latest statistics. And it's a club you can join – much sooner than you might think, says D.R. Barton, Jr., a top trader, television analyst and former hedge fund officer. In his new book, the *10-Minute Millionaire*, D.R. has distilled his decades of experience trading the markets into a system so simple that even a new investor can set it up and maintain it in increments of as little as 10 minutes. The *10-Minute Millionaire* combines goal-setting, stock-screening and

trading strategies whose ultimate objective is to give you membership in that Millionaires' Club. The system is so simple D.R. has taught it to sixth graders, yet so powerful it can transform even a small starting stake into lifelong financial freedom – in a way that utterly destroys “buy-and-hold” investing. Loaded with step-by-step illustrations and personal stories, the 10-Minute Millionaire takes the powerful secrets of Wall Street insiders and breaks them down into an easy-to-understand blueprint for beating the markets, day after day, week after week. Using an easy three-step process, D.R. walks you through a repeatable and reliable way to identify the

stock-market extremes that show up virtually every day. He trains you to properly frame each trade to maximize profit and minimize risk. Finally, he neutralizes the natural biases that lead most traders to financial destruction – and shows you how to book big profits from other trader's irrational miscues. This isn't an algorithmic “black box.” It's not “robo-trading.” The 10-Minute Millionaire system still requires personal involvement. It still requires commitment. But it squeezes out emotion, filters out the noise, slashes the risk, and maximizes your potential for profits – and also for meaningful wealth. Once you learn the 10-Minute Millionaire way, it's a

system you can operate and update in tiny 10-minute increments. Before you know it, you'll be trading better than a seasoned pro. And you'll watch as your "assets" turn into true wealth. And you'll learn the most-valuable lesson of all: Becoming a millionaire doesn't have to be an unattainable dream. Make it a goal, and pursue that goal, and before long that dream will be real.

A landmark of postmodern American fiction, *Letters* is (as the subtitle genially informs us) "an old time epistolary novel by seven fictitious drolls and dreamers each of which imagines himself factual". Seven

characters (including the Author himself) exchange a novel's worth of letters during a 7-month period in 1969, a time of revolution that recalls the U.S.'s first revolution in the 18th century - the heyday of the epistolary novel. Recapitulating American history as well as the plots of his first six novels, Barth's seventh novel is a witty and profound exploration of the nature of revolution and renewal, rebellion and reenactment, at both the private and public levels. It is also an ingenious meditation on the genre of the novel itself, recycling an older form to explore new directions, new possibilities for the novel.
