HarperCollins

Ben Horowitz, a leading venture capitalist, modern management expert, and New York Times bestselling author, combines lessons both from history and from modern organizational practice with practical and often surprising advice to help executives build cultures that can weather both good and bad times. Ben Horowitz has long been fascinated by history, and particularly by how people behave differently than you'd expect. The time and circumstances in which they were raised often shapes them—yet a few leaders have managed to shape their times. In *What You Do Is Who You Are*, he turns his attention to a question crucial to every organization: how do you create and sustain the culture you want? To Horowitz, culture is how a company makes decisions. It is the set of assumptions employees use to resolve everyday problems: should I stay at the Red Roof Inn, or the Four Seasons? Should we discuss the color of this product for five minutes or thirty hours? If culture is not purposeful, it will be an accident or a mistake. *What You Do Is Who You Are* explains how to make your culture purposeful by spotlighting four models of leadership and culture-building—the leader of the only successful slave revolt, Haiti's Toussaint Louverture; the Samurai, who ruled Japan for seven hundred years and shaped modern Japanese culture; Genghis Khan, who built the world's largest empire; and Shaka Senghor, a man convicted of murder who ran the most formidable prison gang in the yard and ultimately transformed prison culture. Horowitz connects these leadership examples to modern case-studies, including how Louverture's cultural techniques were applied (or

should have been) by Reed Hastings at Netflix, Travis Kalanick at Uber, and Hillary Clinton, and how Genghis Khan's vision of cultural inclusiveness has parallels in the work of Don Thompson, the first African-American CEO of McDonalds, and of Maggie Wilderotter, the CEO who led Frontier Communications. Horowitz then offers guidance to help any company understand its own strategy and build a successful culture. *What You Do Is Who You Are* is a journey through culture, from ancient to modern. Along the way, it answers a question fundamental to any organization: who are we? How do people talk about us when we're not around? How do we treat our customers? Are we there for people in a pinch? Can we be trusted? Who you are is not the values you list on the wall. It's not what you say in company-wide meeting. It's not your marketing campaign. It's not even what you believe. Who you are is what you do. This book aims to help you do the things you need to become the kind of leader you want to be—and others want to follow.

Or could it be that someone or something has been placed in front of a computer somewhere and is pushing buttons and sending messages to your brain? What really influences our daily decisions: friends, family, God, the government perhaps, or a dog? These are the questions Dr. Anthony Harding begins to ask himself shortly after arriving in San Diego. He's convinced that the only way his two daughters will ever overcome their mother's death and the stigma of her alcoholism and drug addiction and the only way to repair his own status as a dead-beat dad is to jump on a job offer that will move them as far away from Chicago's south side as possible. His expectations doesn't include being attracted to a pint-sized independent neighbor from Louisiana whose best friend seems to be a miniature chocolate poodle that appears to have a talent for making unusual things happen.

The title of the book says it all. The Be-Know-Do of Generalship. Generalship is possibly one of the most difficult words to define. It is leadership with a difference that demands varied skills from the very basic to the most sophisticated. It is a position of responsibility like none other. It demands making decisions in the most complex environment pregnant with VUCA character. It carries with its position the heavy weight of values and expectations that have come to characterise military leadership since millennium. A General is the face of the system, is always naked and always under scrutiny by soldiers who expect him to be God like. The book is laid out in two parts. Part I, comprising six chapters covers every aspect of Generalship in a 'self-help' easy to assimilate style to develop oneself to be an inspiring General relevant for the future. Part II, comprising Chapter VII is an honest and a dispassionate appraisal of the Indian military leadership since independence. It makes a convincing case to address the existing institutional shortcomings with respect to Generalship and their selection in the Indian Army with de-novo recommendations not heard before. This book is a product of the author's four decades of passion and dedication to the profession of soldiery and the art of military leadership. It is an excellent tutor to BE the General you should be, to KNOW what you should know and to DO what you should do to be future ready and leave a legacy worth remembering. A unique book on the subject, it is a

must read for officers of all service groups in any vocation, not only the uniformed services. This book is a ready recipe for those who aspire to lead with a difference.

Mack McCoy may have done just that unwittingly. Mack is a good man, captain in the Dallas Police Department who would describe his career as "in the weeds," thanks mainly to an incident in which he shot and killed two unarmed teenagers in the act of robbing a pizza restaurant.
