*Out of the Dust (Scholastic Gold)* Penguin Press HC

Acclaimed author Karen Hesse's Newbery Medal-winning novel-inverse explores the life of fourteen-year-old Billie Jo growing up in the dust bowls of Oklahoma. *Out of the Dust* joins the Scholastic Gold line, which features award-winning and beloved novels.

Includes exclusive bonus content!"Dust piles up like snow across the prairie. . . ."A terrible accident has transformed Billie Jo's life, scarring her inside and out. Her mother is gone. Her father can't talk about it. And the one thing that might make her feel better -- playing the piano -- is impossible with her wounded hands.To make matters worse, dust storms are devastating the family farm and all the farms nearby. While others flee from the dust bowl, Billie Jo is left to find peace in the bleak landscape of Oklahoma -- and in the surprising landscape of her own heart.

*Historical Dictionary of Ethiopia* University of Chicago Press

A dictionary for intermediate grades with an extensive entry list and several appendices including suggestions for writing good papers, facts about the States, and health and safety tips.

**Renaissance Rome 1500-1559** Scarecrow Press

*The Sack of Rome* Springer

*Jonathan Edwards's Philosophy of History* Wm. B. Eerdmans Publishing

The Republic of India is the second most populous, the seventh largest by geographical area, and has the fourth largest economy in terms of purchasing power parity in the world. While it has always been an important country, it has often been neglected. Of late, however, there has been much talk of the 'new' India, one with greater economic dynamism, a more active foreign policy, and the emergence of a huge middle class. With over a hundred new cross-referenced dictionary entries-the majority of which pertain to the last decade-and updating others, the second edition of the *Historical Dictionary of India* illustrates the rapidly evolving situation without neglecting the country's ancient past. The chronology has been brought up to date, the introduction

expanded, and the bibliography includes numerous new titles.

**Somanatha** Springer

The second edition of *Historical Dictionary of the Tamils* contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 600 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture.

*Jewish History and Politics in the Times of Sargon and Sennacherib* Arx Publishing, LLC

The *Historical Dictionary of Thailand*, Third Edition covers the history of Thailand through a chronology, an introductory essay, appendixes, and an extensive bibliography. The dictionary section has several hundred cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent access point for students, researchers, and anyone wanting to know more about Thailand.

**Historical Dictionary of Ethiopia** Routledge

Attila, king of the Huns, is a name universally known even 1,500 years after his death. His meteoric rise and legendary career of conquest left a trail of destroyed cities across the Roman Empire. At its height, his vast domain commanded more territory than the Romans themselves, and those he threatened with attack sent desperate embassies loaded with rich tributes to purchase a tenuous peace. Yet as quickly he appeared, Attila and his empire vanished with startling rapidity. His two decades of terror, however, had left an indelible mark upon the pages of European history. Priscus was a late Roman historian who had the ill luck to be born during a time when Roman political and military fortunes had reached a nadir. An eye-witness to many of the events he records, Priscus's history is a sequence of intrigues, assassinations, betrayals, military disasters, barbarian incursions, enslaved Romans and sacked cities. Perhaps because of its gloomy subject matter, the *History of Priscus* was not preserved in its entirety. What remains of the work consists of scattered fragments culled from a variety of later sources. Yet, from these fragments emerge the most detailed and insightful first-hand account of the decline of the Roman Empire, and nearly all of the information about Attila's life and exploits that has come down to

us from antiquity. Translated by classics scholar Professor John Given of East Carolina University, this new translation of the *Fragmentary History of Priscus* arranges the fragments in chronological order, complete with intervening historical commentary to preserve the narrative flow. It represents the first translation of this important historical source that is easily approachable for both students and general readers.

**Historical Dictionary of the Tamils** Scarecrow Press

Offering a unique blend of thematic and chronological investigation, this highly illustrated, engaging text explores the rich historical, cultural, and social contexts of 3,000 years of Greek art, from the Bronze Age through the Hellenistic period. Uniquely intersperses chapters devoted to major periods of Greek art from the Bronze Age through the Hellenistic period, with chapters containing discussions of important contextual themes across all of the periods Contextual chapters illustrate how a range of factors, such as the urban environment, gender, markets, and cross-cultural contact, influenced the development of art Chronological chapters survey the appearance and development of key artistic genres and explore how artifacts and architecture of the time reflect these styles Offers a variety of engaging and informative pedagogical features to help students navigate the subject, such as timelines, theme-based textboxes, key terms defined in margins, and further readings. Information is presented clearly and contextualized so that it is accessible to students regardless of their prior level of knowledge A book companion website is available at [www.wiley.com/go/greekart](http://www.wiley.com/go/greekart) with the following resources: PowerPoint slides, glossary, and timeline

**Revelation Is History Foretold** Princeton University Press

Ethiopia is one of the world's oldest countries; its Rift Valley may be the location where the ancestors of humankind originated more than four million years ago. With a population of 67 million people today, it is the third most populous country on the African continent after Nigeria and Egypt. It is the source of 86 percent of the water reaching the Aswan Dam in Egypt, most of it carried by the amazing Blue Nile. Ethiopia offers major historical sites such as the pre-Christian palace at Yeha, the stele and tombs of the old

Kingdom of Axum, and the rock-carved churches of Lalibela. For anyone interested in Ethiopia, this historical dictionary, through its individual and carefully cross-referenced entries, captures the importance and intrigue of this truly significant African nation. Historical Dictionary of Ethiopia appeals to all levels of readers, providing entries for each of Ethiopia's 85 ethnic groups and covering a broad range of cultural, political, and economic topics. Readers interested in the cultural aspects or who are planning to visit Ethiopia will find a wealth of entries on art, literature, handicrafts, music, dance, bird life, geography, and historic tourist sites. Practitioners in government and non-governmental organizations will find entries on pressing economic, social, and political issues such as HIV/AIDS, female circumcision, debt, human rights, and the environment. The important historical role of missionaries and the combination of conflict and cooperation between Christians and Muslims in the region are also issues reviewed. And, finally, many of the entries highlight relations between Ethiopia and her neighbors-Eritrea, Somalia, Somaliland, Djibouti, Kenya, and Sudan. In the bibliography, considerable emphasis has been placed on including both new and old materials covering all facets of Ethiopia, organized for easy identification by areas of major interest.

Dr. Webster's Complete Dictionary of the English Language  
Springer

"Peter Partner is an established scholar, qualified by his research on The Papal State Under Martin Vand The Lands of St. Peter to write this general book on Renaissance Rome. The titles of the chapters of the book are tantalizing, and they indicate the breadth of issues under review: politics, economics, population, "noble life" and "daily life", and, finally, "the spirit of a city and the spirit of an age." No similar, recent study exists for Rome, and Partner's book responds to a genuine need. The book is written with wit and good style, and it contains a great deal of information . . ."--John W. O'Malley, University of Detroit, Canadian Journal of History, 13(1), pp. 115 - 116.

**New Illustrated Edition of Dr. Webster's Unabridged Dictionary of All the Words in the English Language** The Sack of Rome

A profile of modern Italy as reflected in the leadership of Silvio Berlusconi traces the president's career and influence, contending that his wealth, power, and ties to corruption have resulted in a

dangerous new form of political populism.

The Degradation of American History Scarecrow Press

A Sober, Analytical Demonstration Of The Various Tellings Of The Sack Of Somnath & [Explores] Not Just The Politics Of Memory, But Also How Remembrances Play On The Certitude Of Facts Shahid Amin In Outlook In 1026, Mahmud Of Ghazni Raided The Temple Of Somanatha. The History Of This Raid And Subsequent Events At The Site Have Been Reconstructed In The Last Couple Of Centuries Largely On The Basis Of The Turko-Persian Sources. There Were Other Sources That Also Refer To Events At Somanatha Throughout A Period Of Almost A Thousand Years, But These Have Rarely Been Quoted When Reconstructing This History. Until Very Recent Times, There Were Few Attempts To Either Juxtapose Or Integrate These Other Texts In Order To Arrive At A More Complete Understanding Of The History Of Somanatha. Such Sources Include Local Sanskrit Inscriptions, Biographies Of Kings And Merchants Written From A Jaina Perspective, Epics Of Rajput-Turkish Relations Composed At Various Rajput Courts And Popular Narratives Of The Activities Of Pirs And Gurus, All Of Which, In Some Way, Have A Bearing On The History Of Somanatha. This Book Is An Attempt To Draw Together These Numerous Voices, To View The Sources Comparatively, But Above All To Place Each Narrative In A Historical Context. This Also Involves Exploring Why A Particular, And Often Distinctive, Perspective Was Adopted By Each. It Suggests A Different History Of Somanatha From The One That Has Been Projected Through The Last Two Centuries. It Also Effectively Underlines The Significance Of Examining The Historical Perceptions Of How Authors Present Events, Both In The Narratives Written In The Past And In The Interpretations Of Past Events In Present Times. A Remarkable Example Of Assiduous And Open-Ended Historiography Hindustan Times

Historical Dictionary of India Scarecrow Press

In his final book, the late Paul Kurtz outlines his personal vision for a planetary ethics inspired by scientific wisdom. Blending realism and optimism, he lays out the basic principles of an ethical approach that he calls humanist epraxsophy--that is, the application of practical moral choices inspired by scientific wisdom. Emphasizing the dramatic character of the biosphere, human affairs, and the physical universe itself, Kurtz has structured the book in terms of an operatic scenario, with an

overture, intermezzo, nine acts, and a grand finale. Citing the emergence of a new planetary civilization, he proposes the development of a planetary ethics based on universal human rights, free scientific inquiry unfettered by dogma, an attitude of exuberance toward human potentials, and courage and determination in the face of the daunting challenges of our time. Kurtz concludes on an enthusiastic note: there is meaning to be found in creative human endeavors as well as a sense of awe and profound reverence inspired by the spectacle of the enormous universe and the prospects for the human adventure.

**Confessing History** Univ of California Press

A generation of young Christians are weary of the political legacy they've inherited and hungry for a better approach. They're tired of seeing their faith tied to political battles they didn't start, and they're frustrated by the failures of leaders they thought they could trust. Kaitlyn Schiess grew up in this landscape, and understands it from the inside. Spiritual formation, and particularly a focus on formative practices, are experiencing a renaissance in Christian thinking—but these ideas are not often applied to the political sphere. In The Liturgy of Politics, Schiess shows that the church's politics are shaped by its habits and practices even when it's unaware of them. Schiess insists that the way out of our political morass is first to recognize the formative power of the political forces all around us, and then to recover historic Christian practices that shape us according to the truth of the gospel.

A History of Greek Art Lulu.com

Many readers today associate the early modern history play with Shakespeare. While not wishing to ignore the influence of Shakespeare, this collection of essays explores other historical drama between 1500 and 1660, covering a wide range of different formats. An introduction provides a survey of current criticism, exploring both early modern and contemporary definitions of the 'history play'. Individual essays in chronological order discuss a wide variety of possible sources for historical drama, ranging from oral traditions to chronicles. They also explore genres outside the canon which think of 'history' in different ways, such as shows, moralities and closet drama. Historical Dictionary of Catholicism University of Notre Dame Press The sack of Rome shocked the Christian world. Following the battle of Pavia, Pope Clement VII joined (1526) the French-led

League of Cognac to resist the threatened Habsburg domination of Europe. Emperor Charles V appealed to the German diet for support and raised an army, which entered Italy in 1527 and joined the imperial forces from Milan, commanded by the Duke of Bourbon. This army marched on Rome, hoping to detach the pope from the league. The many Lutherans in its ranks boasted that they came with hemp halters to hang the cardinals and a silk one for the pope. Rome fell on 6 May 1527, Bourbon being killed in the first assault. Discipline collapsed, and the city was savagely pillaged for a week before some control was restored. Judith Hook's book is here reprinted with a foreward by Patrick Collinson. *The Sack of Rome* Routledge

At the end of his landmark 1994 book, *The Soul of the American University*, historian George Marsden asserted that religious faith does indeed have a place in today's academia. Marsden's contention sparked a heated debate on the role of religious faith and intellectual scholarship in academic journals and in the mainstream media. The contributors to *Confessing History: Explorations in Christian Faith and the Historian's Vocation* expand the discussion about religion's role in education and culture and examine what the relationship between faith and learning means for the academy today. The contributors to

*Confessing History* ask how the vocation of historian affects those who are also followers of Christ. What implications do Christian faith and practice have for living out one's calling as an historian? And to what extent does one's calling as a Christian disciple speak to the nature, quality, or goals of one's work as scholar, teacher, adviser, writer, community member, or social commentator? Written from several different theological and professional points of view, the essays collected in this volume explore the vocation of the historian and its place in both the personal and professional lives of Christian disciples.

*The Imperial Dictionary of the English Language* Rowman & Littlefield

The thesis of the author is that The Book of Revelation predicted precise events in history. V. J. Fleenor chronicles interesting events from Roman times to our present age as clear indication that symbols and signs of the Apocalypse can be deciphered if one is also a student of history.

Prometheus Books

American historical writing has traditionally been one of our primary forms of moral reflection. However, David Harlan argues that in the disillusionment following the 1960s, history abandoned

its redemptive potential and took up the methodology of the social sciences. In this provocative new book, Harlan describes the reasons for this turn to objectivity and professionalism, explains why it failed, and examines the emergence of a New Traditionalism in American historical writing. Part One, "The Legacy of the Sixties," describes the impact of literary theory in the 1970s and beyond, the rise of women's history, the various forms of ideological analysis developed by historians on the left, and the crippling obsession with professionalism in the 1980s. Part Two, "The Renewal of American Historical Writing," focuses on the contributions of John Patrick Diggins, Hayden White, Richard Rorty, Elaine Showalter, Henry Louis Gates Jr., and others. Harlan argues that at the end of the twentieth century American historical writing is perfectly poised to become what it once was: not one of the social sciences in historical costume, but a form of moral reflection that speaks to all Americans. "[A] wholly admirable work. This book will be talked about for years."—Library Journal

**Webster's New International Dictionary of the English Language, with Reference History** CUP Archive

This contributory volume emphasises the archaeological significance of historical method and philosophy.
