love a family can have for each other during the darkest times, and a greater love that a heavenly Father has for you. Whatever circumstance or heartbreak you find yourself overwhelmed by right now, it is not the end of the story. In fact, it just might be one of the greatest chapters as you, like the Kelly's, find strength in weakness, hope in the midst of heartache, and joy in spite of

suffering. *With the Bark Off* UNC Press Books
How has it come about that indigenous cultures, body parts, and sequences of musical notes are considered property? How has the movement from collective to privatized systems affected notions of property? At what point in transaction chains do native cultures, indigenous medicines, or cyberdata become

objects and therefore propertized, and what are the social, economic, and ethical considerations for such transformations? Addressing these hotly contested issues and many more, *Property in Question* interrogates the very concept of property and what is happening to it in the contemporary world, in case studies ranging from Romania to Kazakhstan, Africa to North America. The

book examines not only the changing character of the property concept, but also its ideological foundations and political usages. Authors address bio-transactions, music copyright, cyberspace, oil prospecting, debates over privatization of land and factories, and dilemmas arising with new forms of ownership of businesses. Offering a fresh perspective on

contemporary economic transformation, this volume is a long overdue investigation of the power of the private property concept, as well as an exploration of how the global economy may be subtly, even invisibly, changing what property means and how we relate to it. *The Gutfeld Monologues* Simon and Schuster The electrifying sounds of groovin' jump blues, Southern-fried

rock 'n' roll, fervent black gospel, and the simmering sounds of the Louisiana swamp came bursting out of Nashville, Tennessee in the early 1950s courtesy of Excello Records and its sister Nashboro label. Operating out of Ernie's Record Mart ("the Record Center of the South!"), Excello forged a partnership with 50,000-watt clear-channel radio station WLAC. The influential station's dusk-

to-dawn broadcasts of rhythm & blues boomed through the stratosphere, captivating millions of teenagers and crossing racial boundary lines. The unusual partnership paid huge dividends as Ernie Young transformed his shop into one of the largest mail-order record retailers in the world. With his built-in distribution network, Ernie's own label releases by Slim Harpo, Arthur Gunter, Lightnin' Slim,

Lazy Lester, and more landed in record collections across the US. By the early 1960s, Excello releases were reaching the shores of the UK, where they inspired young Brits such as Mick Jagger, Keith Richards, and Eric Clapton to launch their own R&B combos. Through extensive research and interviews, *Shake Your Hips: The Excello Records Story* chronicles the tale of one of the most

unusual labels to emerge from the 1950s. Shedding new light on Nashville's rich history as much more than a country music town, author Randy Fox takes readers deep behind the scenes of the rise and fall of an inimitable label whose contributions to blues and R&B continue to reverberate today. *Born Trump* Simon and Schuster Exile within Borders presents a systematic and global

first look at patterns of commitment and compliance with the international regime to protect internally displaced persons (IDPs), two decades after its inception.

On January 1, 1937, Manuel B. Bravo was sworn in as county judge of Zapata County, a post he would hold for twenty years. In *Border Boss: Manuel B. Bravo and*

Zapata County, J. Gilberto Quezada delineates Bravo's political career in the Democratic Party and examines his role in some of the important issues of his day, especially Falcon Dam. During Bravo's years in office, he worked and corresponded with many Texas and national politicians, including James Allred, Lloyd Bentsen, Kika de la Garza, Ralph Yarborough,

and, most prominently, Lyndon Johnson. The association between Bravo and Johnson began with the special Senate election of 1941 and is reflected in the more than fifty letters between the two in Bravo's personal papers. In Johnson's 1948 Senate runoff against Coke Stevenson, voting irregularities were alleged in Zapata County when the election returns from Precinct No. 3

were reported missing. Quezada analyzes the Bravo papers for any evidence that Bravo and Johnson had arranged the disappearance and offers possible alternative explanations. From the 1930s to the 1950s Zapata County was one of six South Texas counties where the Tejano majority dominated local politics and held most public offices. Bravo became known as one of the

"Mexican bosses" of South Texas, but Quezada draws a more nuanced picture of bossism than has been presented previously, analyzing the role of influential leading families but looking as well at the degree of economic integration into the state and nation as factors in how bossism developed. Those interested in Mexican-American studies and bossism in

South Texas will appreciate the window onto South Texas politics and Tejano culture this biography gives.

In this book, Mireya Loza sheds new

light on the private lives of migrant men who participated in the Bracero Program (1942–1964), a binational agreement between the United States and Mexico that allowed hundreds of thousands of Mexican workers to enter this country on temporary work permits. While this program and the issue of temporary workers has long been politicized on both sides of the border, Loza argues

that the prevailing romanticized image of braceros as a family-oriented, productive, legal workforce has obscured the real, diverse experiences of the workers themselves. Focusing on underexplored aspects of workers' lives—such as their transnational union-organizing efforts, the sexual economies of both hetero and queer workers, and the ethno-racial boundaries

among Mexican indigenous braceros—Loza reveals how these men defied perceived political, sexual, and racial norms. Basing her work on an archive of more than 800 oral histories from the United States and Mexico, Loza is the first scholar to carefully differentiate between the experiences of mestizo guest workers and the many Mixtec, Zapotec, Purhepecha, and Mayan

laborers. In doing so, she captures the myriad ways these defiant workers responded to the intense discrimination and exploitation of an unjust system that still persists today.

This book is a collection of readings that explore environmental issues in Latin America and the Caribbean using natural science and social science methods.

These papers demonstrate

the value of interdisciplinary approaches to analyze and solve environmental problems. The essays are organized into five parts: conservation challenges; national policies, local communities, and rural development; market mechanisms for protecting public goods; public participation and environmental justice; and the effects of development policies on the environment. *Decisions and Orders of the*

Based on the author's own family letters, *Send for Me* tells the story of Annelise, a young woman in prewar Germany. Growing up working at her parents' popular bakery, she's always imagined a future full of delicious possibilities. Despite rumors that anti-Jewish sentiment is on the rise, Annelise and her parents can't quite believe that it will affect them; they're hardly

religious. But as she falls in love, marries, and gives birth to her daughter, the dangers grow closer. Soon Annelise and her husband are given the chance to leave for America, but they must go without her parents, whose future and safety are uncertain. Two generations later in a small Midwestern city, Annelise's granddaughter, Clare, is a young woman newly in love. But when she stumbles upon

a trove of the letters her great-grandmother wrote from Germany after Annelise's departure, she sees the history of her family's sacrifices in a new light, leading her to question whether she can still honor the past while planning for her future.

Latina/o/x places exist as both tangible physical phenomena and gatherings created and

maintained by creative cultural practices. In this collection, an interdisciplinary group of contributors critically examines the many ways that varied Latina/o/x communities cohere through cultural expression. Authors consider how our embodied experiences of place, together with our histories and knowledge, inform our imagination and reimagination of our surroundings in acts of placemaking. This placemaking often considers environmental sustainability as it helps to sustain communities in the face of xenophobia and racism through cultural expression ranging from festivals to zines to sanctuary movements. It emerges not only in specific locations but as movement within and between sites; not only as part of a built environment, but also as an aesthetic practice; and not only because of efforts by cultural, political, and institutional leaders, but through mass media and countless human interactions. A rare and crucial perspective on Latina/o/x people in the Midwest, *Building Sustainable Worlds* reveals how expressive culture contributes to, and sustains, a sense of place in an

uncertain era. *Property in Question* Springer William Nylan begins by discussing North Americans' love-hate relationship with politics and politicians, then shows how Brazilians feel the same way (as do many citizens of democracies throughout the world). He argues that this is so because contemporary democracies have increasingly trickled up and away

from so-called 'average citizens'. We now live in a world of 'Elitist Democracies' essentially constructed of, by and for moneyed, well-connected and ethically-challenged elites. Fortunately, there are alternatives, and that's where Brazil offers valuable lessons. Experiments in local-level participatory democracy, put into practice in Brazil by the Workers Party show both the promise and

the practical limitations of efforts to promote 'popular participation' and citizen empowerment .

 After a history of funding environmental ly costly megaprojects, the World Bank now claims that it is trying to become a leading force for sustainable development. For more than a decade, nongovernmental organizations (NGOs) and grassroots movements

have formed transnational coalitions to reform the World Bank and the governments that it funds. *The Struggle for Accountability* assesses the efforts of these groups to make the World Bank more publicly accountable. The book is organized into four parts. Part I describes the NGOs and grassroots movements that are the book's central focus. Part II presents case studies of four projects that

provoked the emergence of transnational advocacy coalitions: Indonesia's Kedung Ombo dam, the Mt. Apo geothermal plant in the Philippines, Brazil's Planaforo Amazon development project, and the remarkable campaign of Ecuador's indigenous people to influence national economic policy that led to their participation in the design of a development

loan. Part III looks at the origins and politics of reform in four areas of broader World Bank policy: the rights of indigenous peoples, involuntary resettlement, water resources, and the World Bank's institutional reforms that are supposed to encourage public accountability. In the last section, the editors discuss issues of accountability within transnational coalitions and assess the

impact of advocacy campaigns on World Bank projects and policies.

Participatory Democracy versus Elitist Democracy: Lessons from Brazil

What if you got a call from Lyndon Johnson to be in Washington DC tomorrow to take a trip around the world? If you are twenty-four-year-old broadcast journalist Neal Spelce, you buckle up. A two-week diplomatic dream trip turned into a lifelong rollercoaster ride. Spelce began his career as a part-time journalist in the LBJ family-owned Austin TV station in 1956, which vaulted him into a lifetime

of memorable experiences with Johnson and many icons of the twentieth century. From his live reporting during the UT Tower shooting tragedy to his lifelong association with LBJ, Spelce found himself behind the scenes in many of the twentieth century's crucial moments. The Austin-based journalist shares candid moments with LBJ and five other US presidents, including a

rare interview with father and son presidents George Bush while the three were cramped together in a small bass boat on a Texas lake. During his lengthy media career, Spelce saw Austin grow from a college town to a thriving city. Along the way he interacted with Texas legends such as Darrell Royal, Willie Nelson, Dan Rather, and more, all part of entertaining stories that he tells, as LBJ

liked to say, “with the bark off.”

An exploration of social movement media practices in an increasingly complex media ecology, through richly detailed cases of immigrant rights activism. For decades, social movements have vied for attention from the mainstream mass media—newspapers, radio, and television. Today, many argue that

social media power social movements, from the Egyptian revolution to Occupy Wall Street. Yet, as Sasha Costanza-Chock reports, community organizers know that social media enhance, rather than replace, face-to-face organizing. The revolution will be tweeted, but tweets alone do not the revolution make. In *Out of the Shadows, Into the Streets!* Costanza-Chock traces a

much broader social movement media ecology. Through a richly detailed account of daily media practices in the immigrant rights movement, the book argues that there is a new paradigm of social movement media making: transmedia organizing. Despite the current spotlight on digital media, Costanza-Chock finds, social movement media

practices tend to be cross-platform, participatory, and linked to action. Immigrant rights organizers leverage social media creatively, even as they create media ranging from posters and street theater to Spanish-language radio, print, and television. Drawing on extensive interviews, workshops, and media organizing projects, Costanza-Chock presents case studies of

transmedia organizing in the immigrant rights movement over the last decade. Chapters focus on the historic mass protests against the anti-immigrant Sensenbrenner Bill; coverage of police brutality against peaceful activists; efforts to widen access to digital media tools and skills for low-wage immigrant workers; paths to participation

in DREAM activism; and the implications of professionalism for transmedia organizing. These cases show us how savvy transmedia organizers work to strengthen movement identity, win political and economic victories, and transform public consciousness forever.

What caused white nationalist groups to come out of the shadows, and are they here to stay? The answers lie the twisted story of the relationship between Donald Trump and Fox News.

Through firsthand accounts from over 250 current and former Fox insiders, CNN anchor and chief media correspondent Brian Stelter unlocks the inner workings of Rupert Murdoch's multibillion-dollar media empire. Thirty years ago, Tucker Carlson got his first job out of college fact checking for a quarterly magazine, and he went on to write for many other publications before becoming the primetime Fox News host he is today. In *The Long Slide*, Tucker delivers a few of his favorite pieces—annotated with new commentary and insight—to memorialize the tolerance and diversity of thought

that the media used to celebrate instead of punish. In snapshots spanning the 1990s to today, he'll take you on a visit to Africa with Al Sharpton and members of the Nation of Islam to stop the civil war in Liberia in 2003, inside the (not-so-) secret armies of Operation Iraqi Freedom, and on the campaign trail with Donald Trump in 2016. In case you missed it the first time around, you'll also learn

about the aesthetic merits of British colonialism, the second shift at a baked bean factory, the unexpected charm of James Carville, and the simple beauty of rural Maine. With his signature wit and 20/20 hindsight, Tucker investigates in this patriotic and memorable collection a question on all of our minds: Has America really changed that much in recent
