Which historical events were key to  
shaping Latino culture? This book  
provides coverage of the 50 most pivotal

developments over 500 years that have shaped the Latino experience, offering primary sources, biographies of notable figures, and suggested readings for inquiry. Latinos—people of European, Indigenous, and African descent—have had a presence in North America long before the first British settlements arrived to the Eastern seaboard. The encounters between Spanish colonizers and the native peoples of the Americas initiated 500 years of a rich and vibrant history—an intermingled, cultural evolution that continues today in the 21st century. *50 Events that Shaped Latino History: An Encyclopedia of the American Mosaic* is a valuable reference that provides a chronological overview of Latino/a history beginning with the indigenous populations of the Americas

through the present day. It is divided into time period, such as Pre-Colonial Era to Spanish Empire, pre-1521-1810, and covers a variety of themes relevant to the time period, making it easy for the reader find information. The coverage offers readers background on critical events that have shaped Latino/a populations, revealed the conditions and experiences of Latinos, or highlighted their contributions to U.S. society. The text addresses events as varied as the U.S.-Mexican War to the rise of Latin jazz. The entries present a balance of political and cultural events, social developments, legal cases, and broader trends. Each entry has a chronology, a main narrative, biographies of notable figures, and suggested further readings, as well as one or more primary sources

that offer additional context or information on the given event. These primary source materials offer readers additional insight via a first-hand account, original voices, or direct evidence on the subject matter.

*A Companion to Public History* Heritage Books

Every political movement creates its own historical memory. The communist movement, though originally oriented towards the future, was no exception: The theory of human history constitutes a substantial part of Karl Marx's and Friedrich Engels's writings, and the

movement inspired by them very soon developed its own strong historical identity, combining the Marxist theory of history with the movement's victorious milestones such as the October Revolution and later the Great Patriotic War, which served as communist legitimization myths throughout almost the entire twentieth century. During the Stalinist period, however, the movement's history became strongly reinterpreted to suit Joseph Stalin's political goals. After 1956, this reinterpretation lost most of its legitimating power and instead began to be a burden. The (unwanted) memory of Stalinism and subsequent examples of violence (the Gulag, Katyń, the 1956 Budapest uprising and the 1968 Prague Spring) contributed to the crisis of Eastern

European state socialism in the late 1980s and led to attempts at reformulating or even rejecting communist self-identity. This book's first section analyzes the post-1989 memory of communism and state socialism and the self-identity of the Eastern and Western European left. The second section examines the state-socialist and post-socialist memorial landscapes in the former German Democratic Republic, Czechoslovakia/Czech Republic, Poland, Lithuania, Ukraine and Russia. The final section concentrates on the narratives the movement established, when in power, about its own past, with the examples of the Soviet Union, Poland, Romania and Czechoslovakia.

**Comprehensive Calendar of Bicentennial Events** Mossy Feet Books When Nathalie Chambers and her husband, David, first took over Madrona Farm, 27 acres on southern Vancouver Island with a deep history, they never thought their small-scale agricultural

business would blossom into an international political act. As pressures from heirs, land developers and industrial farmers grew alongside their rows of organically produced food, the Chambers took action. Considered by many to be revolutionary and by some to be rebellious, their story opened many eyes to the future of food. Saving Farmland introduces readers to stories of lost farmland and bees saving lives. It shows how sustainability, ecosystems and biodiversity transcend the paradox of our own, man-made losses. Saving Farmland describes overcoming obstacles, choosing models, identifying vital farmland, building community and fundraising. Concluding stories of commonly shared land, international trusts, regained farmland and several

heroes provide ongoing inspiration. This practical book teems with fascinating history and facts. Saving Farmland will help us all support local farming and sustainable land development so we can indulge in good eating—forever.
