 Making Enterprise Information Management (EIM) Work for Business: A Guide to Understanding Information as an Asset provides a comprehensive discussion of EIM. It endeavors to explain information asset management and place it into a pragmatic, focused, and relevant light. The book is organized into two parts. Part 1 provides the material required to sell, understand, and validate the EIM program. It explains concepts such as treating Information, Data, and Content as true assets; information management maturity; and how EIM affects organizations. It also reviews the basic process that builds and maintains an EIM program, including two case studies that provide a birds-eye view of the products of the EIM program. Part 2 deals with the methods and artifacts necessary to maintain EIM and have the business manage information. Along with overviews of Information Asset concepts and the EIM process, it discusses

how to initiate an EIM program and the necessary building blocks to manage the changes to managed data and content. Organizes information modularly, so you can delve directly into the topics that you need to understand Based in reality with practical case studies and a focus on getting the job done, even when confronted with tight budgets, resistant stakeholders, and security and compliance issues Includes applicatory templates, examples, and advice for executing every step of an EIM program

Abstract: The success of education and training depends on choosing appropriate problems and identifying the best solutions, and needs assessment is a tool that can achieve both. Discussion of the usefulness of needs assessment is followed by an outline of planning, the systems approach to planning, and how needs assessment relates to each. The 6 modes of needs assessment, and the relationship of inputs, processes, products, outputs, and outcomes to each type are presented. The application of these principles to school systems and curriculum development are then detailed. Two school case studies, consensual determining techniques, project and staff development, and noneducational contexts are presented.

Providing real-life clinical experiences and context to medical students is an essential part of today's medical education, and the partnerships between medical schools and health systems are an integral part of this approach. Value-Added Roles for Medical Students, the second volume in the American Medical Association's MedEd Innovation Series, is a first-of-its-kind, instructor-focused field book that inspires educators to transform

the relationship between medical schools and health systems with authentic workplace roles for medical students, adding relevance to medical education and patient care. Gives instructors the tools needed to create roles for medical students in the health system that benefit the student's growth, empathy, and understanding of patient needs; develop a working knowledge of the health system itself; and provide true value to both the health system and patient experience. Contains both theoretical and practical material for instructors and administrators, including guidance on how to implement value-added roles for medical students in today's institutions. Explains how to apply a framework to implement value-added clinical systems learning roles for students, develop meaningful medical school-health system partnerships, and train a generation of future physicians prepared to lead health systems change. Provides numerous examples from schools with successful implementation of value-added medical student roles such as patient navigators, community-based health care programs involving medical students, and more. Describes real-world strategies for building mutually beneficial medical school-health system partnerships, including developing a shared vision and strategy and identifying learning goals and objectives; empowering broad-based action and overcoming barriers in implementation; and generating short-term wins in implementation. Helps medical school faculty and instructors address gaps in physician training and prepare new doctors to practice effectively in 21st century health care systems. One of the American Medical Association Change MedEd initiatives and innovations, written and edited by members of the Accelerating Change in Medical Education Consortium - a unique, innovative collaborative that allows for the sharing and dissemination of groundbreaking ideas and projects.

What assistance do disaster-affected communities need? This book guides humanitarian field staff in answering this vital question during the early days and weeks following a disaster, when timely and competent assessment is crucial for enabling informed decision making. Needs assessment is essential for programme planning, monitoring and evaluation. In an emergency response, however, a quick and simple approach to needs assessment may be the only practical possibility - in other words, it needs to be 'good enough'. This guide does not explain every activity needed to carry out an assessment, but it describes the assessment process, and provides a step-by-step

guide through the process. It also contains a number of tools and resources that may be helpful when planning or carrying out humanitarian needs assessments. This guide is essential reading for field staff carrying out assessments after a humanitarian crisis; it should also be read by humanitarian policy makers, students, lecturers and researchers.

This publication presents a detailed overview of the current state of the public-private partnership (PPP) environment in the Philippines. In over three decades, the country developed a robust public-private partnership (PPP) enabling framework through the Build-Operate-Transfer Law of 2012 and the PPP Center. Among developing member countries of the Asian Development Bank, the Philippines has a relatively mature market that has witnessed 116 financially closed PPPs. Under the government's 2017-2022 Development Plan that has an infrastructure investment target of \$180 billion, PPPs are expected to play a pivotal role in financing national and subnational infrastructure investments. With a pipeline of 37 PPPs, the government is taking various steps to further improve the environment for PPPs.

"Sometimes a book appears on your desk that successfully

defines a field. You look at the book and say "thank you." Planning and Conducting Needs Assessments is such a book. . . . This book is clearly grounded in program planning and is not an afterthought or add-on to some other field. . . . I am excited to see this book appear in print. It clearly fills a niche that has been empty for some time: a practical approach to learning about and conducting needs assessments. . . . This is a marvelous book that should make a significant contribution to the field." --From the Foreword by Nick Eastmond, Utah State University "While it has the depth and breadth to be used in a classroom, Planning and Conducting Needs Assessments is written simply and directly enough to be a hands-on guide for needs assessment users and practitioners. The framework proposed by the authors is excellent in that it is readily understood and focuses attention on the most important details/issues in needs assessment practice. The fact that they also present an explanation of so many tools, including examples, makes the book required reading for anyone intending to plan or contract for a needs assessment." --John Theiss, Director of Planning and Evaluation, Texas

The second edition of the Impact Evaluation in Practice handbook is a comprehensive and accessible introduction to impact evaluation for policy makers and development practitioners. First published in 2011, it has been used widely across the development and academic communities. The book incorporates real-world examples to present practical guidelines for designing and implementing impact evaluations. Readers will gain an understanding of impact evaluations and the best ways to use them to design evidence-based policies and programs. The updated version covers the newest techniques for evaluating programs and includes state-of-the-art implementation advice, as well as an expanded set of examples and case studies that draw on recent development challenges. It also includes new material on research ethics and partnerships to conduct impact evaluation. The handbook is divided into four sections: Part One discusses what to evaluate and why; Part Two presents the main

impact evaluation methods; Part Three addresses how to manage impact evaluations; Part Four reviews impact evaluation sampling and data collection. Case studies illustrate different applications of impact evaluations. The book links to complementary instructional material available online, including an applied case as well as questions and answers. The updated second edition will be a valuable resource for the international development community, universities, and policy makers looking to build better evidence around what works in development.

Go from order-taker to valued performance consultant. You may be pressured to give an immediate “yes” to a training request. Resist. Instead, start playing an essential role in driving your organization forward by using needs assessment to target your training programs to support critical business goals. Organizations need staff to be efficient and effective. That calls for training programs that get to the core of performance issues. A needs assessment ensures that you understand the root of problems like knowledge gaps, performance issues, and product quality and gives you the tools to resolve them. This second edition of Needs Assessment Basics starts with the initial training request and guides you all the way through data collection and making training recommendations. A progressive case study illustrates the seven phases of a needs assessment plan to reinforce each chapter’s content. Part of ATD’s Training Basics series, Needs Assessment Basics will help you develop a foundation that will ensure the training programs you design and deliver will help the organization succeed.

The Government of Pakistan strongly supports public-private partnership (PPP) initiatives. From 1990 to 2019, Pakistan witnessed 108 financially closed PPP projects, with a total investment of approximately \$28.4 billion. About 88% of these projects are in the energy sector, attracting more than \$24.7 billion, followed by investments in the port sector. In early 2021, Parliament approved the amendments to the 2017 PPP Law, enacting the Public Private Partnership Authority (Amendment) Act 2021. This further strengthens the enabling legal and regulatory framework for developing and implementing PPPs, thereby promoting private sector investment in public infrastructure and related services.

Preparing Effective Teachers of Reading will show educators and administrators (K-12 and higher education) how a higher education initiative used collaboration and partnerships to respond to one of the greatest needs facing the nation-- improving the reading achievement of poor and minority children. The book will also provide readers with a forum for understanding scientifically-based reading research (SBRR) and instruction, and the five essential components of reading. In addition, the book will showcase, through evaluation findings and a case study, how diverse geographic, ethnic, and racial institutions are creating national models for bridging the achievement gap in reading, teaching reading, preparing new teachers, and engaging key stakeholders by transforming curricula and syllabi, establishing reading centers, and providing directed teaching and tutoring experiences for candidates.
