Business as usual' isn't working. There is an emerging consensus that all is not well with today's market-centric economic model. Although it has delivered wealth over the last half-century and pulled millions out of poverty, it is recession-prone, leaves too many people unemployed, creates ecological scarcities and environmental risks, and widens the gap between the rich and the poor. In *Corporation 2020*, Pavan Sukhdev lays out a sweeping new vision for tomorrow's corporation: one that will increase human well being and social equity, decrease environmental risks and ecological losses, and still generate profit. Sukhdev illustrates his vision with examples ranging from Infosys's creation of human capital to Citibank's having to change its project finance policy due to rainforest destruction. From its insightful look into the history of the corporation to the thoughtful discussion of the steps

needed to craft a better corporate model, Corporation 2020 offers a hopeful vision for the role of business in shaping a more equitable, sustainable future.

NATIONAL BESTSELLER • From the New York Times bestselling author of *The Wind-Up Bird Chronicle* and one of the world's greatest storytellers comes "an insistently metaphysical mind-bender" (*The New Yorker*) about a teenager on the run and an aging simpleton. Here we meet 15-year-old runaway Kafka Tamura and the elderly Nakata, who is drawn to Kafka for reasons that he cannot fathom. As their paths converge, acclaimed author Haruki Murakami enfolds readers in a world where cats talk, fish fall from the sky, and spirits slip out of their bodies to make love or commit murder, in what is a truly remarkable journey. "As powerful as *The Wind-Up Bird Chronicle*.... Reading Murakami ... is a striking experience in consciousness expansion." —*The Chicago Tribune*

Once upon a time, there was a guy who got so fed up with life that he resorted to murder and mayhem just to feel alive. Lorenzo Gambini is bored. So f*cking bored. Most people either annoy him or avoid him, afraid to face him. Figuratively. Literally. With his face partially disfigured, scarred, he looks every bit the monster the stories make him out to be: the notorious Scar. They say he's a sociopath. Maybe he's a psychopath. Whatever path he's on, people tend to stay far away from it. Until one day, a young woman bumps right into him--a woman just as fed up with life, but for much different reasons. With a Scarlet Letter inked on her wrist and secrets buried deep in her soul, Morgan Myers is running from something... or maybe somebody. Lorenzo isn't quite sure. You can bet your ass he's going to figure it out, though.

Once upon a time, there was a girl who stopped believing in fairy tales after her innocence was stolen. Morgan Myers is tired. So damn tired. Most people either push her around or brush her off, and she's not putting up with it anymore. Determined to reclaim the life that had been stolen from her, she puts her trust in the last person she ever expected to: the notorious Scar. Morgan sees a side of him that few people seem to know--the man, not the

myth. Lorenzo. And what she sees, she likes, a lot more than she thought she would. But fairy tales aren't real, as life likes to remind her. Some dragons, you just can't slay, no matter how hard you fight them. And when hers comes back around, breathing fire, she's forced to face some unimaginable horrors. But lucky for Morgan, there's a white knight in combat boots out there that isn't afraid of monsters. You see, it's impossible to be afraid of something you face every day in the mirror.

When the sudden restoration of an incinerated planet is brought to light, tensions erupt. Neutrality swings back to hostility, and old enemies are accused of developing biological weapons to reignite the bitter conflict. Like *On a Pale Horse*, this second, complete-in-itself novel of the *Incarnations of Immortality* is a richly imagined and always fascinating story. And again, Piers Anthony adds to his gripping plot a serious, though-provoking study of good and evil. When life seemed pointless to Norton, he accepted the position as the Incarnation of Time, even though it meant living backward from present to past. The other seemingly all-powerful Incarnates of Immortality—Death, Fate, War, and Nature—made him welcome. Even Satan greeted him with gifts. But he soon discovered that the gifts were cunning traps. While he had been distracted, he had become enmeshed in a complex scheme of the Evil One to destroy all that was good. In the end, armed with only the Hourglass, Norton was forced to confront the immense power of Satan directly. And though Satan banished him to Hell, he was

resolved to fight on.
