More than any other people on earth, we Americans are free to say and write what we think. The press can air the secrets of government, the corporate boardroom, or the bedroom with little fear of punishment or penalty. This extraordinary freedom results not from America's culture of tolerance, but from fourteen words in the constitution: the free expression clauses of the First

Amendment. In *Freedom for the Thought That We Hate*, two-time Pulitzer Prize-winner Anthony Lewis describes how our free-speech rights were created in five distinct areas—political speech, artistic expression, libel, commercial speech, and

unusual forms of expression such as T-shirts and campaign spending. It is a story of hard choices, heroic judges, and the fascinating and eccentric defendants who forced the legal system to come face to face with one of America's great founding ideas.

Jay Gould was an individual who for a century has been singled out as the most unscrupulous of the turn-of-the-century robber barons. In this splendid biography Maury Klein paints the most complete portrait of the notorious Gould ever written. Klein's Gould is a brilliant but ruthless businessman who merged dying railroads into expansive, profit-making lines, including the giant Union Pacific. 40 illustrations.

**The Most Hated Man in the World** Farrar, Straus and Giroux

On May 27th, 1784, Wolfgang Amadeus Mozart met a flirtatious little starling in a Viennese shop who sang an improvised version of the theme from his Piano Concerto no. 17 in G major. Sensing a kindred spirit in the plucky young

bird, Mozart bought him and took him home to be a family pet. For three years, the starling lived with Mozart, influencing his work and serving as his companion, distraction, consolation, and muse. Two centuries later, starlings are reviled by even the most compassionate conservationists. A nonnative, invasive species, they invade sensitive habitats, outcompete local birds for nest sites and food, and decimate crops. A seasoned birder and naturalist, Lyanda Lynn Haupt is well versed in the difficult and often strained relationships these birds have with other species and the environment. But after rescuing a baby starling of her own, Haupt found herself enchanted by the same intelligence and playful spirit that had so charmed her favorite composer. In *Mozart's Starling*, Haupt explores the unlikely and remarkable bond between one of history's most cherished composers and one of earth's most common birds. The intertwined stories of Mozart's beloved pet and Haupt's own starling provide an unexpected window into human-animal friendships, music,

the secret world of starlings, and the nature of creative inspiration. A blend of natural history, biography, and memoir, Mozart's Starling is a tour de force that awakens a surprising new awareness of our place in the world.

**Strangers in Their Own Land** Simon and Schuster From the #1 New York Times bestselling author of *Small Great Things* and the modern classics *My Sister's Keeper*, *The Storyteller*, and more, comes a "complex, compassionate, and smart" (*The Washington Post*) novel about a family torn apart by a murder accusation. When your son can't look you in the eye...does that mean he's guilty? Jacob Hunt is a teen with Asperger's syndrome. He's hopeless at reading social cues or expressing himself well to others, though he is brilliant in many ways. He has a special focus on one subject—forensic analysis. A police scanner in his room clues him in to crime scenes, and he's always showing up and telling the cops what to do. And he's usually right. But when Jacob's small hometown is rocked by a terrible murder, law enforcement comes to him. Jacob's behaviors are hallmark Asperger's, but

they look a lot like guilt to the local police. Suddenly the Hunt family, who only want to fit in, are thrust directly in the spotlight. For Jacob's mother, it's a brutal reminder of the intolerance and misunderstanding that always threaten her family. For his brother, it's another indication why nothing is normal because of Jacob. And for the frightened small town, the soul-searing question looms: Did Jacob commit murder? *House Rules* is "a provocative story in which [Picoult] explores the pain of trying to comprehend the people we love—and reminds us that the truth often travels in disguise" (*People*).

As a leading Confederate general, Braxton Bragg (1817–1876) earned a reputation for incompetence, for wantonly shooting his own soldiers, and for losing battles. This public image established him not only as a scapegoat for the South's military failures but also as the chief whipping boy of the Confederacy. The strongly negative opinions of Bragg's contemporaries have continued to color assessments of the

general's military career and character by generations of historians. Rather than take these assessments at face value, Earl J. Hess's biography offers a much more balanced account of Bragg, the man and the officer. While Hess analyzes Bragg's many campaigns and battles, he also emphasizes how his contemporaries viewed his successes and failures and how these reactions affected Bragg both personally and professionally. The testimony and opinions of other members of the Confederate army—including Bragg's superiors, his fellow generals, and his subordinates—reveal how the general became a symbol for the larger military failures that undid the Confederacy. By connecting the general's personal life to his military career, Hess positions Bragg as a figure saddled with unwarranted infamy and humanizes him as a flawed yet misunderstood figure in Civil War history. [Coyote America](#) John Sparks From the host of the award-winning podcast *Conversations with People Who Hate Me* comes a thought-provoking, and witty, exploration of

difficult conversations and how to navigate them.

Defending Our Friend Harmony

A unique and poignant poetry collection which with raw honesty, seeks to tell the truth. The poems are insolent, funny and clever. They are also compassionate and kind. The collection wants its readers to think, to question, to be daring. There are poems about God and poems about man, there are poems about death and poems about truth, poems of sorrow, and poems about how we should live. It sneers at the pompous and self-important, at those who think they have an innate right to be in charge and who hate to be questioned. "So easy it would be to lose myself in despair of mankind, The vile and ceaseless hypocrite, with its mafias, gangster Governments and insufferable religions. Man was born in Chains, captured in a social concrete that rarely softens." - 'When I Think Of Giving Up.'

WITH A NEW FOREWARD  
Journalist Seyward Darby's "masterfully reported and incisive" (Nell Irvin Painter) exposé pulls back the curtain on modern racial and political extremism in America telling the "eye-opening and unforgettable" (Ibram X. Kendi) account of three women immersed in the white nationalist movement. After the election of Donald J. Trump, journalist Seyward Darby went looking for the women of the so-called "alt-right" -- really just white nationalism with a new label. The mainstream media depicted the alt-right as a bastion of angry white men, but was it? As women headlined resistance to the Trump administration's bigotry and sexism, most notably at the Women's Marches, Darby wanted to know why others were joining a movement espousing racism and anti-feminism. Who were these women, and what did their activism reveal about America's past, present, and future? Darby researched dozens of women across the country before settling on three -- Corinna Olsen, Ayla Stewart, and Lana Lokteff. Each was born in 1979,

and became a white nationalist in the post-9/11 era. Their respective stories of radicalization upend much of what we assume about women, politics, and political extremism. Corinna, a professional embalmer who was once a body builder, found community in white nationalism before it was the alt-right, while she was grieving the death of her brother and the end of her marriage. For Corinna, hate was more than just personal animus -- it could also bring people together. Eventually, she decided to leave the movement and served as an informant for the FBI. Ayla, a devoutly Christian mother of six, underwent a personal transformation from self-professed feminist to far-right online personality. Her identification with the burgeoning "tradwife" movement reveals how white nationalism traffics in society's preferred, retrograde ways of seeing women. Lana, who runs a right-wing media company with her husband, enjoys greater fame and notoriety than many of her sisters in hate. Her work disseminating and monetizing far-right dogma is a testament to

the power of disinformation. With acute psychological insight and eye-opening reporting, Darby steps inside the contemporary hate movement and draws connections to precursors like the Ku Klux Klan. Far more than mere helpmeets, women like Corinna, Ayla, and Lana have been sustaining features of white nationalism. *Sisters in Hate* shows how the work women do to normalize and propagate racist extremism has consequences well beyond the hate movement.

In this fascinating historical and cultural biography, Peter Stanford deconstructs that most vilified of Bible characters: Judas Iscariot, who famously betrayed Jesus with a kiss. Beginning with the gospel accounts, Stanford explores two thousand years of cultural and theological history to investigate how the very name Judas came to be synonymous with betrayal and, ultimately, human evil. But as Stanford points out, there has long been a counter-current of thought that suggests that Judas might in fact have been victim of a terrible injustice: central to Jesus' mission was his death and resurrection, and for there to have been a death, there had to be a betrayal. This thankless role fell to Judas; should we in fact be grateful to him for his role in the divine drama of

salvation? "You'll have to decide," as Bob Dylan sang in the sixties, "Whether Judas Iscariot had God on his side." An essential but doomed character in the Passion narrative, and thus the entire story of Christianity, Judas and the betrayal he symbolizes continue to play out in much larger cultural histories, speaking to our deepest fears about friendship, betrayal, and the problem of evil.

 Anthony Comstock, special agent to the U.S. Post Office, was one of the most important men in the lives of nineteenth-century women. His eponymous law, passed in 1873, penalized the mailing of contraception and obscenity with long sentences and steep fines. The word Comstockery came to connote repression and prudery. Between 1873 and Comstock's death in 1915, eight remarkable women were charged with violating state and federal

Comstock laws. These "sex radicals" supported contraception, sexual education, gender equality, and women's right to pleasure. They took on the fearsome censor in explicit, personal writing, seeking to redefine work, family, marriage, and love for a bold new era. In *The Man Who Hated Women*, Amy Sohn tells the overlooked story of their valiant attempts to fight Comstock in court and in the press. They were publishers, writers, and doctors, and they included the first woman presidential candidate, Victoria C. Woodhull; the virgin sexologist Ida C. Craddock; and the anarchist Emma Goldman. In their willingness to oppose a monomaniac who viewed reproductive rights as a threat to the American family, the sex radicals paved the way for second-wave feminism. Risking imprisonment and death, they redefined birth control access as a civil liberty. *The Man Who Hated Women* brings these women's stories to vivid life, recounting their personal and romantic travails alongside their political battles. Without them, there would be no Pill, no Planned Parenthood, no Roe v.

Wade. This is the forgotten history of the women who waged war to control their bodies.

Legends don't come close to capturing the incredible story of the coyote In the face of centuries of campaigns of annihilation employing gases, helicopters, and engineered epidemics, coyotes didn't just survive, they thrived, expanding across the continent from Alaska to New York. In the war between humans and coyotes, coyotes have won, hands-down. Coyote America is the illuminating five-million-year biography of this extraordinary animal, from its origins to its apotheosis. It is one of the great epics of our time.

Conservatives vs Liberals, a view from both political

parties. Why do they either love President Donald Trump or hate him? Why is he such a controversial figure? In this book you will get a unique perspective from a black female, veteran, and registered nurse, running for Congress. Follow Carla Spalding's journey as she runs for Congress for Miami-Broward Congressional District 23, Florida. Understand how someone with no political background navigates through the underworld of nasty dirty politics of both parties. See how she became the nominee despite the efforts of one party to undermine and the lack of support from the other. Also, get an insider look at Carla's prediction of who will win the presidency for 2020. Carla will speak to the future of both parties or the lack thereof. If you truly value democracy and want true change, this is the book for you! Conservative versus Liberals, a new beginning. How do we want to live? The way we are living now? Do we want to continue on the path of destruction that the Democrats are leading us in? Or do we want to return America the way that it used to be and how

the President has made it so far? Trump blows up the system as we know it. Regular middle-class people vs the big political machine. Awakening the woke, blacks starting to see the truth. Why aren't more Caribbean Americans, Republican? Are the American people ready for the truth? Can Black America handle what is behind the political strategies on display? Are you ready for the Vaccine, Carla's got the Truth Vaccine!! Think about the following questions: If the Democrats are for the poor, then why, for generations, are they still poor? How have their policies really helped? Carla Spalding is planting a seed of learning to think rationally for self-determination. Carla doesn't have all the answers to the future, but she will open your eyes to view different positions. We don't always see things in the same manner. The first thing that must be addressed is the mindset and empowering individuality. It is important for the voters to wake up and demand more from their representatives, regardless of party. Xavier Richard Wright's debut novel chronicles his troubled upbringing and the confusion he experienced dealing with it long before he is mature enough to do so. Beginning life on the edge of death due to a dramatically low birth weight, Wright is subsequently raised in a family with an abusive, alcoholic father, schizophrenic mother, and four siblings, none of whom have time to devote to him. He agonizes over being unable to get anyone's attention—or acceptance. As he grows older he spends time at three different high schools, playing various varsity sports, before eventually dropping out. He commits crimes, deals and uses drugs, experiences homelessness, runs with gangs, and sings and dances in musicals as he earns his diploma in night school and is finally accepted into a private liberal arts college. An autobiographical tour de force full of bracing honesty, *How I Became the Most Hated Man in America: Prelude to the Most Hated Man in America* is a stunning portrayal of the American dream—and the American nightmare.

Though little known today, Charles Chilton Moore of Kentucky was one of nineteenth-century America's most vocal--and some would say notorious--advocates of atheism, freethought, and separation of church and state. The present edition is a reprint of that once available from Wind Publications.

The time frame of these stories collected in this book, written in my column, A Cup O' Kapeng Barako, has a span of four years. The beginning chapters began in the year of 2012 when

President Barack Obama was campaigning for his re-election, ending in the final chapters when Obama in year 2008 ran for the presidency of the United States. But this book is not solely or merely about my opinions on politics. It's also about my take on current events, and my Barako thoughts on people and things that affected me personally. This book also contained conversations with people through emails, who came into my life during those four years. Some of those conversations were heated and hated, but some were also tender and kind. But beneath them all, laughter abounds. For I write my column primarily for fun . .

. meant only to be read by friends and comrades, and fellow Barakos. If at times I get corny, or my Pilipino English gets atrocious, they are puns intended, untended, and unintended, as in "batu-batu sa langit, tamaan 'wag magagalit." For my mainstream readers and friends, that means, "stones-stones thrown up in the air, don't get mad if they fall on your hair." As y'all can see, I am a wanna-be humorist, dyoking a lot. Some stories in this book also contained glimpses of my personal life, portions of which, are also hilariously funny, but tender and expressing love in places. Okey ngarud, happy reading, Dear Readers. JJ
