"Military historian and Civil Air Patrol (CAP) member Frank A. Blazich Jr. collects oral and written histories of the CAP's short-lived--but influential--coastal air patrol operations of World War II and expands it in a scholarly monograph that cements the legacy of this vital civil-military cooperative effort"--

Forgotten Dead Purdue University Press

In a world where web services can make real-time data accessible to anyone, how can the government leverage this openness to improve its operations and increase citizen participation and awareness? Through a collection of essays and case studies, leading visionaries and practitioners both inside and outside of government share their ideas on how to achieve and direct this emerging world of online collaboration, transparency, and participation. Contributions and topics include: Beth Simone Noveck, U.S. Deputy Chief Technology Officer for open government, "The Single Point of Failure" Jerry Brito, senior research fellow at the Mercatus Center at George Mason University, "All Your Data Are Belong to Us: Liberating Government Data" Aaron Swartz, cofounder of reddit.com, OpenLibrary.org, and BoldProgressives.org, "When Is Transparency Useful?" Ellen S. Miller, executive director of the Sunlight Foundation, "Disrupting Washington's Golden Rule" Carl Malamud, founder of Public.Resource.Org, "By the People" Douglas Schuler, president of the Public Sphere Project, "Online Deliberation and Civic Intelligence" Howard Dierking, program manager on Microsoft's MSDN and TechNet Web platform team, "Engineering Good Government" Matthew Burton, Web entrepreneur and former intelligence analyst at the Defense Intelligence Agency, "A Peace Corps for Programmers" Gary D. Bass and Sean Moulton, OMB Watch, "Bringing the Web 2.0 Revolution to Government" Tim O'Reilly, founder and CEO of O'Reilly Media, "Defining Government 2.0: Lessons Learned from

the Success of Computer Platforms" Open Government editors: Daniel Lathrop is a former investigative projects reporter with the Seattle Post Intelligencer who's covered politics in Washington state, Iowa, Florida, and Washington D.C. He's a specialist in campaign finance and "computer-assisted reporting" -- the practice of using data analysis to report the news. Laurel Ruma is the Gov 2.0 Evangelist at O'Reilly Media. She is also co-chair for the Gov 2.0 Expo.

*Social Isolation and Loneliness in Older Adults* Crown

The second edition of this handbook provides a state-of-the-art overview on the various aspects in the rapidly developing field of robotics. Reaching for the human frontier, robotics is vigorously engaged in the growing challenges of new emerging domains. Interacting, exploring, and working with humans, the new generation of robots will increasingly touch people and their lives. The credible prospect of practical robots among humans is the result of the scientific endeavour of a half a century of robotic developments that established robotics as a modern scientific discipline. The ongoing vibrant expansion and strong growth of the field during the last decade has fueled this second edition of the Springer Handbook of Robotics. The first edition of the handbook soon became a landmark in robotics publishing and won the American Association of Publishers PROSE Award for Excellence in Physical Sciences & Mathematics as well as the organization's Award for Engineering & Technology. The second edition of the handbook, edited by two internationally renowned scientists with the support of an outstanding team of seven part editors and more than 200 authors, continues to be an authoritative reference for robotics researchers, newcomers to the field, and scholars from related disciplines. The contents have been restructured to achieve four main objectives: the enlargement of foundational topics for robotics, the enlightenment of design of various types of robotic systems, the extension of the treatment on robots moving in the environment, and the enrichment of advanced robotics applications. Further to an extensive update, fifteen new chapters have been introduced on emerging topics, and a new generation of authors have joined the handbook's team. A novel addition to the second edition is a

comprehensive collection of multimedia references to more than 700 videos, which bring valuable insight into the contents. The videos can be viewed directly augmented into the text with a smartphone or tablet using a unique and specially designed app. Springer Handbook of Robotics Multimedia Extension Portal:

*Finding Latinx* National Academies Press

Latinos across the United States are redefining identities, pushing boundaries, and awakening politically in powerful and surprising ways. Many—Afrolatino, indigenous, Muslim, queer and undocumented, living in large cities and small towns—are voices who have been chronically overlooked in how the diverse population of almost sixty million Latinos in the U.S. has been represented. No longer. In this empowering cross-country travelogue, journalist and activist Paola Ramos embarks on a journey to find the communities of people defining the controversial term, "Latinx." She introduces us to the indigenous Oaxacans who rebuilt the main street in a post-industrial town in upstate New York, the "Las Poderosas" who fight for reproductive rights in Texas, the musicians in Milwaukee whose beats reassure others of their belonging, as well as drag queens, environmental activists, farmworkers, and the migrants detained at our border. Drawing on intensive field research as well as her own personal story, Ramos chronicles how "Latinx" has given rise to a sense of collectivity and solidarity among Latinos unseen in this country for decades. A vital and inspiring work of reportage, *Finding Latinx* calls on all of us to expand our understanding of what it means to be Latino and what it means to be American. The first step towards change, writes Ramos, is for us to recognize who we are.

The Official Museum Directory, 1992 CRC Press

"A comprehensive, entertaining, and compelling argument for how rebuilding social infrastructure can help heal divisions in our society and move us forward."—Jon Stewart NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR • "Engaging."—Mayor Pete Buttigieg, The New York Times Book Review (Editors' Choice) We are living in a time of deep divisions. Americans are sorting themselves along racial, religious, and cultural lines, leading to a level of polarization that the country hasn't seen since the Civil

War. Pundits and politicians are calling for us to come together and find common purpose. But how, exactly, can this be done? In *Palaces for the People*, Eric Klinenberg suggests a way forward. He believes that the future of democratic societies rests not simply on shared values but on shared spaces: the libraries, childcare centers, churches, and parks where crucial connections are formed. Interweaving his own research with examples from around the globe, Klinenberg shows how “social infrastructure” is helping to solve some of our most pressing societal challenges. Richly reported and ultimately uplifting, *Palaces for the People* offers a blueprint for bridging our seemingly unbridgeable divides. **LONGLISTED FOR THE ANDREW CARNEGIE MEDAL FOR EXCELLENCE IN NONFICTION** “Just brilliant!”—Roman Mars, 99% Invisible “The aim of this sweeping work is to popularize the notion of ‘social infrastructure’—the ‘physical places and organizations that shape the way people interact’. . . . Here, drawing on research in urban planning, behavioral economics, and environmental psychology, as well as on his own fieldwork from around the world, [Eric Klinenberg] posits that a community’s resilience correlates strongly with the robustness of its social infrastructure. The numerous case studies add up to a plea for more investment in the spaces and institutions (parks, libraries, childcare centers) that foster mutual support in civic life.”—The New Yorker “Palaces for the People—the title is taken from the Scottish-American industrialist and philanthropist Andrew Carnegie’s description of the hundreds of libraries he funded—is essentially a calm, lucid exposition of a centuries-old idea, which is really a furious call to action.”—New Statesman “Clear-eyed . . . fascinating.”—Psychology Today  
Toshiko Mori Architect Lexington Books  
 A practical guide to profiting from institutional trading trends The key to being a successful trader is finding a system that works and sticking with it. Author Al Brooks has done just that. By simplifying his trading system and trading only 5-minute price charts he’s found a way to capture profits regardless of market direction or economic climate. His first book, *Reading Price Charts Bar by Bar*, offered an informative examination of his system, but it didn’t allow him to get into the real nuts and bolts of the approach. Now, with this new series of books, Brooks takes you step by step through the entire process. By breaking down his trading system into its simplest pieces: institutional piggybacking

or trend trading (the topic of this particular book in the series), trading ranges, and transitions or reversals, this three book series offers access to Brooks’ successful methodology. *Price Action Trends Bar by Bar* describes in detail what individual bars and combinations of bars can tell a trader about what institutions are doing. This is critical because the key to making money in trading is to piggyback institutions and you cannot do that unless you understand what the charts are telling you about their behavior. This book will allow you to see what type of trend is unfolding, so can use techniques that are specific to that type of trend to place the right trades. Discusses how to profit from institutional trading trends using technical analysis Outlines a detailed and original trading approach developed over the author’s successful career as an independent trader Other books in the series include *Price Action Trading Ranges Bar by Bar* and *Price Action Reversals Bar by Bar* If you’re looking to make the most of your time in today’s markets the trading insights found in *Price Action Trends Bar by Bar* will help you achieve this goal.  
RAF Wings Over Florida Springer  
 This book discusses the issue of academic misconduct and publication ethics in general and plagiarism in particular, with a focus on case studies in various universities around the world (notably in Japan, Singapore, Australia, USA, and Canada). We are especially interested in students’ and teachers’ perception of academic misconduct and their definition and understanding of plagiarism. Most chapters discuss undergraduates’ understanding of academic dishonesty and students’ experiences using plagiarism softwares. The book also analyzes teachers’ perception of cheating and how they respond to it. Writing is perceived by all of the teachers to be the most important form of assessment that required preventative measures in order to reduce the occurrence of academic dishonesty among students. Each chapter recommends strategies to fight plagiarism, such as establishing guidelines and regulations concerning academic integrity, awareness of the scale of the issue (scandals at all levels in most countries, even including famous scholars, administrators, and elected officials), assessing the damage done to academic reputation and credibility, developing trust and credibility on social media (especially with the recent disturbing growth of fake news and data), minimizing the proliferation of dishonest accreditation, of identity theft, of fake peer-reviews, and fighting

the growing number of fake papers, with or without the use of computer-generated academic works.  
Crime Scene Investigation Oxford University Press  
 This publication brings together a range of building projects from National, Academic and Public Libraries from different countries of the world showing how these libraries are able to continue to provide high quality library space that is affordable in times of difficult economic circumstances. We will hear about the building processes, co-operation with architects and engineers and how librarians and users have reacted to these new buildings.  
*Aviation in the U.S. Army, 1919-1939* American Mathematical Soc.  
 This is a guide to recommended practices for crime scene investigation. The guide is presented in five major sections, with sub-sections as noted: (1) Arriving at the Scene: Initial Response/Prioritization of Efforts (receipt of information, safety procedures, emergency care, secure and control persons at the scene, boundaries, turn over control of the scene and brief investigator/s in charge, document actions and observations); (2) Preliminary Documentation and Evaluation of the Scene (scene assessment, “walk-through” and initial documentation); (3) Processing the Scene (team composition, contamination control, documentation and prioritize, collect, preserve, inventory, package, transport, and submit evidence); (4) Completing and Recording the Crime Scene Investigation (establish debriefing team, perform final survey, document the scene); and (5) Crime Scene Equipment (initial responding officers, investigator/evidence technician, evidence collection kits).

Wild Bill Donovan Last Gasp  
 North, South, black, white, Native American, immigrant-- the women in these micro biographies were wives, mothers, sisters and friends whose purposes ranged from supporting husbands and sons during wartime to counseling President Lincoln on strategy. Monson brings to light the incredible stories of women from the Civil War that remain relevant to our nation today. -- Adapted from jacket.  
*Resources in Education* National Register Publishing

The global economy and organizations are evolving to become service-oriented and driven by technology, and this is not just limited to commercial work. Further study on this evolution is required to fully understand the phenomenon. Emerging Technology-Based Services and Systems in Libraries, Educational Institutions, and Non-Profit Organizations covers IT-enabled creation, curation, representation, communication, storage, retrieval, analysis, and use of records, documents, files, data, learning objects, and other contents. It also acts as a forum for interdisciplinary and emerging topics such as socio-information studies, educational technologies, knowledge management, big data, artificial intelligence, personal information protection, digital literacy, other media, and technology innovation topics in their applications to libraries, as well as other areas such as education, information, government, and NGOs. Due to this, it is ideal for industry professionals, librarians, administrators, policymakers, higher education faculty, researchers, academicians, scholars, practitioners, instructors, and students.

*World's Leading National, Public, Monastery and Royal Library Directors* National Academies Press

*Literacy and Reading Programmes for Children and Young People: Case Studies from Around the Globe* presents interviews with over 40 librarians from around the world who tell of their library programs. The volumes are arranged geographically with Volume 1 offering interviews from library professionals from the USA and Europe, and with Volume 2 sharing programs from Asia, Africa, Australia, and the Middle East. The volumes highlight the diversity of the types of programs catering to the varying needs of children and young adults throughout the world. Case studies featured in this book outline the details of programs, events, and activities provided by over 40 organizations in the context of social capital and social inclusion. Each interview chapter discusses the contributions made to literacy development and community building of children and teens. With the many variations and examples of best practice, librarians and educators can glean new ideas for their own programs. The interviews reveal the challenges and issues faced and the work being achieved in vastly different environments, in many geographic areas, and in diverse economic, social, and cultural contexts. The programs include those of national and state libraries, public libraries, and mobile libraries carried out by public libraries, NGOs, and

commercial organizations in both developed and developing countries. They also feature programs of multicultural libraries, libraries for indigenous people, and libraries for refugees. This publication complements the range of initiatives and activities carried out by IFLA's Libraries for Children and Young Adults Section that supports library services and reading promotion initiatives catering to children and young adults around the world. These volumes are rich in variety and will provide much food for thought for creating unique and successful library programs.

**The Texas Outlook** Walter de Gruyter GmbH & Co KG

Sometimes you have to go a long way to find what you're looking for. And sometimes a little beginner's luck is all you need...

Women of the Blue & Gray Walter de Gruyter GmbH & Co KG

"Entertaining history...Donovan was a combination of bold innovator and imprudent rule bender, which made him not only a remarkable wartime leader but also an extraordinary figure in American history" (The New York Times Book Review). He was one of America's most exciting and secretive generals—the man Franklin Roosevelt made his top spy in World War II. A mythic figure whose legacy is still intensely debated, "Wild Bill" Donovan was director of the Office of Strategic Services (the country's first national intelligence agency) and the father of today's CIA. Donovan introduced the nation to the dark arts of covert warfare on a scale it had never seen before. Now, veteran journalist Douglas Waller has mined government and private archives throughout the United States and England, drawn on thousands of pages of recently declassified documents, and interviewed scores of Donovan's relatives, friends, and associates to produce a riveting biography of one of the most powerful men in modern espionage. Wild Bill Donovan reads like an action-packed spy thriller, with stories of daring young men and women in the OSS sneaking behind enemy lines for sabotage, breaking into Washington embassies to steal secrets, plotting to topple Adolf Hitler, and suffering brutal torture or death when they were captured by the Gestapo. It is also a tale of political intrigue, of infighting at the highest levels of government, of powerful men pitted against one another. Separating fact from fiction, Waller investigates the successes and the occasional spectacular failures of Donovan's intelligence career. It makes for a gripping and revealing portrait of this most controversial spymaster.

*The Lutheran Witness* "O'Reilly Media, Inc."

Social isolation and loneliness are serious yet underappreciated public health risks that affect a significant portion of the older adult population. Approximately one-quarter of community-dwelling Americans aged 65 and older are considered to be socially isolated, and a significant proportion of adults in the United States report feeling lonely. People who are 50 years of age or older are more likely to experience many of the risk factors that can cause or exacerbate social isolation or loneliness, such as living alone, the loss of family or friends, chronic illness, and sensory impairments. Over a life course, social isolation and loneliness may be episodic or chronic, depending upon an individual's circumstances and perceptions. A substantial body of evidence demonstrates that social isolation presents a major risk for premature mortality, comparable to other risk factors such as high blood pressure, smoking, or obesity. As older adults are particularly high-volume and high-frequency users of the health care system, there is an opportunity for health care professionals to identify, prevent, and mitigate the adverse health impacts of social isolation and loneliness in older adults. *Social Isolation and Loneliness in Older Adults* summarizes the evidence base and explores how social isolation and loneliness affect health and quality of life in adults aged 50 and older, particularly among low income, underserved, and vulnerable populations. This report makes recommendations specifically for clinical settings of health care to identify those who suffer the resultant negative health impacts of social isolation and loneliness and target interventions to improve their social conditions. *Social Isolation and Loneliness in Older Adults* considers clinical tools and methodologies, better education and training for the health care workforce, and dissemination and implementation that will be important for translating research into practice, especially as the evidence base for effective interventions continues to flourish.

Here is a cornucopia of more than 300 great recipes from the Golden Age of American Home Cooking, those wonderful days of hot dogs and hot dishes, of green bean salads and green bean casseroles. This book is a celebration of the times when life was simpler and when our whole family gathered around the supper table every night for wholesome, home-cooked meals. Whether you grew up in the 1950s or in the 1990s, these recipes will evoke a time and a table where the food was delightful, and when

cleaning up our plates was pure joy. Book jacket.

**Emerging Technology-Based Services and Systems in Libraries, Educational Institutions, and Non-Profit Organizations** American Library Association

Testimonios brings together first-person narratives from the vibrant, diverse, and complex Latinx and Hispanic mathematical community. Starting with childhood and family, the authors recount their own individual stories, highlighting their upbringing, education, and career paths. Their particular stories, told in their own voices, from their own perspectives, give visibility to some of the experiences of Latinx/Hispanic mathematicians. Testimonios

seeks to inspire the next generation of Latinx and Hispanic mathematicians by featuring the stories of people like them, holding a mirror up to our own community. It also aims to provide a window for mathematicians (and aspiring mathematicians) from all ethnicities, with the hope of inspiring a better understanding of the diversity of the mathematical community.

Congressional Record John Wiley & Sons

They fondly remember the times when they buzzed over the homes of their Florida "families" to let them know to expect them for Sunday dinner. More than fifty years later, their stories still resonate with universal emotions: fear of failure, love of country,

camaraderie, romantic love, and the pain of tragic deaths. Their stories also remind the American reader of a unique time in our history, when, poised on the brink of war, the United States reached out to help a country in distress."--BOOK JACKET.

*Library Literature* HarperCollins

General directors who have all made their marks in the field of librarianship report from a variety of perspectives, including economic, social, educational, cultural developmental, and political. This information could increase the understanding of the managerial decisions, and other factors that affect the decisions and determine the library's overall policy and operations.
